Ego in Evolution Esther Menaker, William Menaker, 1965 **The Evolution of the Ego** Sue Dumais, 2019-01-12 Take a journey with Sue as she creates a deep awareness and a profound understanding of the nature of the ego The ego serves a purpose in our lives until one day it doesn't The challenge is when that day comes the ego rejects the idea that it no longer serves a purpose and it hijacks our mind convincing us that we can't live without it The ego is a clever shape shifter and master of many disguises that are designed to manipulate us and keep us stuck in its programmed cycle of fear Sue has been studying the ego for more than a decade The insights she shares provides a road map and foresight for your journey allowing you to be a step ahead of your ego equipped to navigate its antics and possible path of evolution This book is designed to support you in unwinding your ego and all the ways it is embedding fear into your life It is not about denying our humanness it is about embracing our humanness and embodying our divinity all at the same time It is about allowing us to be a full expression of our unique Self and to play the role we are meant to play in this life as we contribute to the healing and awakening of all of humanity

The New Experience of the Supersensible Jesaiah Ben-Aharon, 2007 According to Rudolf Steiner's spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds. The force that leads to this development, called by various names in different cultural and religious traditions, is called the Christ impulse by Anthroposophy in accordance with Christian terminology. Because of new naturally endowed suprasensory faculties, human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse. This experience is said to be a naturally given initiation, and today we increasingly hear of such suprasensory experiences. Today, however, a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking. This book builds an all-important bridge between the naturally given suprasensory experience and its conscious cognition. As a result, empirical suprasensory research can investigate the different aspects of Christ's etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age. This new paperback edition adds a new introductory chapter.

Spiritual Science in the 21st Century Yeshayahu Ben-Aharon, 2017-06-21 With love, humour and brilliant insight, Ben-Aharon addresses some of the most critical questions of our age, ranging from artificial intelligence and global politics to education and postmodern philosophy. Although tackling diverse subject matter, this accessible anthology delivered initially as lectures in locations as contrasting as New York, Oslo, and Munich, features a coherent inner rhythm. With his lively and intense presentation, the speaker invites us to share and participate in the creative process and the dynamic activity of incarnating new ideas, indeed to awaken to the very Spirit of our Time. Ben-Aharon discusses his investigations into the Spiritual Event of the 21st Century, the working of spiritual beings in America, Central Europe, Scandinavia, and Israel; the renewal of education; the creative transformation of antisocial forces; Israel's diverse culture in the midst of the clash of civilizations; the new Christ Event and how it can break through our habitual patterns and our hardened thinking, feeling, and will; and the mission of the anthroposophical movement in our time. Informed throughout by decades of spiritual research and intimate experience, this volume contains mature and illuminating explorations into contemporary culture, history, and spiritual science.
