Egovernment Reconsidered Renewal Of Governance For The Knowledge Age:

The Service State Patrice Dutil, Cosmo Howard, John Langford, Jeffrey Roy, 2011-01-14 A systematic evaluation of Canadian efforts to modernize government service delivery In the past ten years Canadians have witnessed a renaissance in the delivery of government services New service organizations are cropping up across the country and accomplishing extraordinary things Efforts are being made to consult citizens on how to improve and integrate services Considerable resources are being invested in measuring and showcasing performance improvement This book probes the central dimensions of service reform efforts from a variety of perspectives and answers some pressing questions How can we make better decisions about service delivery How should we measure service delivery performance How should we engage users of government services How can we create a service culture How can we use the internet more effectively Approaching service delivery as not merely technical but inherently political and controversial the authors look beyond the rhetoric to see what has actually been achieved and what obstacles confront further improvements Published in English *E-government Reconsidered* University of Regina. Canadian Plains Research Center, Saskatchewan Institute of Public Policy, 2004

Digital Governance Michael E. Milakovich, 2012-04-23 The application of digital information and communication technologies ICTs to reform governmental structures politics and public administration is widely and perhaps naively viewed as the twenty first century savior the enlightened way to reinvigorate democracy and improve the quality of citizen services In this timely and thorough analysis Michael Milakovich examines the assumptions underlying the e government revolution in light of the financial exigencies facing many commercial enterprises governments and other organizations Computer driven information and communications technologies are impacting all aspects of public sector service delivery worldwide and many governments are moving away from an agency centric toward a more citizen centric approach to offering online services This book explores the transition from electronic government e gov to digital or d governance emphasizing the importance of citizen participation and information technology to accomplish the change The chapters concentrate on strategies for public administration organizational transformation and their implications for improved and measurable government performance Digital self governance is a broader umbrella term referring to the networked extension of ICT relationships to include faster access to the web mobile service delivery networking teleconferencing and use of multi channel information technologies to accomplish higher level two way transactions The shift from bureaucracy centered to customer centric service orientation is viewed as a means to restore public trust and improve service quality Digital governance is the next step for governments at all levels to reduce costs meet citizen expectations and achieve economic recovery goals **Cases on Adoption, Diffusion and Evaluation of Global E-Governance Systems: Impact at the Grass Roots** Rahman, Hakikur, 2010-08-31 This book accommodates theories issues and methodologies for designing implementing and operating e government systems presenting cases covering a variety of services and applications that have been improving the governance of nations and
