Egypt After the Pharaohs 332 BC-AD 642 Alan K. Bowman, 1989 A lively well illustrated retrospective of 300 years of Egyptian history *Hellenistic and Roman Terracottas from Egypt* László Török, 1995 Retro 2018 Literaturverzeichnis Seite 185 188 **History and Geography in Late Antiquity** A. H. Merrills, 2005-08-11 The period from the fifth century to the

eighth century witnessed massive political social and religious change in Europe Geographical and historical thought long rooted to Roman ideologies had to adopt the new perspectives of late antiquity In the light of expanding Christianity and the evolution of successor kingdoms in the West new historical discourses emerged which were seminal in the development of medieval historiography Taking their lead from Orosius in the early fifth century Latin historians turned increasingly to geographical description as well as historical narrative to examine the world around them This book explores the interdependence of geographical and historical modes of expression in four of the most important writers of the period Orosius Jordanes Isidore of Seville and the Venerable Bede It offers important readings of each by arguing that the long geographical passages with which they were introduced were central to their authors historical assumptions and arguments

**Alexander to Actium** Peter Green, 1990-09-24 The Hellenistic Age the three extraordinary centuries from the death of Alexander in 323 B C to Octavian s final defeat of Antony and Cleopatra at the Battle of Actium has offered a rich and variegated field of exploration for historians philosophers economists and literary critics Yet few scholars have attempted the daunting task of seeing the period whole of refracting its achievements and reception through the lens of a single critical mind Alexander to Actium was conceived and written to fill that gap In this monumental work Peter Green noted scholar writer and critic breaks with the traditional practice of dividing the Hellenistic world into discrete repetitious studies of Seleucids Ptolemies Antigonids and Attalids He instead treats these successor kingdoms as a single evolving interrelated continuum The result clarifies the political picture as never before With the help of over 200 illustrations Green surveys every significant aspect of Hellenistic cultural development from mathematics to medicine from philosophy to religion from literature to the visual arts Green offers a particularly trenchant analysis of what has been seen as the conscious dissemination in the East of Hellenistic culture and finds it largely a myth fueled by Victorian scholars seeking justification for a no longer morally respectable imperialism His work leaves us with a final impression of the Hellenistic Age as a world with haunting and disturbing resemblances to our own This lively personal survey of a period as colorful as it is complex will fascinate the general reader no less than students and scholars Empires of the Sea , 2019-10-07 Empires of the Sea brings together studies of maritime empires from the Bronze Age to the Eighteenth Century The volume aims to establish maritime empires as a category for the comparative study of premodern empires and from a partly non western perspective The book includes contributions on Mycenaean sea power Classical Athens the ancient Thebans Ptolemaic Egypt The Genoese Empire power networks of the Vikings the medieval Danish Empire the Baltic empire of Ancien R gime Sweden the early modern

The Greek Historia Monachorum in Aegypto Andrew Cain, 2016-05-12 The Greek Historia Monachorum in Aegypto was one of the most widely read and disseminated Greek hagiographic texts during Late Antiquity and the Middle Ages To this day it remains alongside Athanasius Life of Antony one of the core primary sources for fourth century Egyptian monasticism as well as one of the most fascinating yet perplexing pieces of monastic hagiography to survive from the entire patristic period However until now it has not received the intensive and sustained scholarly analysis that a monograph affords In this study Andrew Cain incorporates insights from source criticism stylistic and rhetorical analysis literary criticism and historical geographical and theological studies in an attempt to break new ground and revise current scholarly orthodoxy about a broad range of interpretive issues and problems

Alexandrian Cosmopolitanism Hala Halim, 2013-09-19 Interrogating how Alexandria became enshrined as the exemplary cosmopolitan space in the Middle East this book mounts a radical critique of Eurocentric conceptions of cosmopolitanism The dominant account of Alexandrian cosmopolitanism elevates things European in the city s culture and simultaneously places things Egyptian under the sign of decline The book goes beyond this civilization barbarism binary to trace other modes of intercultural solidarity Halim presents a comparative study of literary representations addressing poetry fiction guidebooks and operettas among other genres She reappraises three writers C P Cavafy E M Forster and Lawrence Durrell who she maintains have been cast as the canon of Alexandria Attending to issues of genre gender ethnicity and class she refutes the view that these writers representations are largely congruent and uncovers a variety of positions ranging from Orientalist to anticolonial The book then turns to Bernard de Zogheb a virtually unpublished writer and elicits his camp parodies of elite Levantine mores in operettas one of which centers on Cavafy Drawing on Arabic critical and historical texts as well as contemporary writers and filmmakers engagement with the canonical triumvirate Halim orchestrates an Egyptian dialogue with the European representations

central importance of religion and its connection with economic social and political life Winner of the 2009 Single Volume Reference Humanities Social Sciences PROSE award granted by the Association of American Publishers     **Experiencing Rome** Janet Huskinson,2013-10-28 Unique in their broad based coverage the twelve essays in this book provide a fresh look at some central aspects of Roman culture and society     *Cyril of Alexandria* Norman Russell,2002-04-12 As a ruler of the church of Alexander and president of the Third Ecumenical Council of 431 Cyril was one of the most powerful men of the fifth century Not only did he define the concept of christological orthodoxy for the next two centuries but he is also often regarded as an unscrupulous cleric who was responsible for the murder of the female philosopher Hypatia and for the overthrow of the archbishop Nestorius Cyril of Alexandria presents key selections of Cyril s writings in order to make his thought accessible to students The writings are all freshly translated and an extended introduction outlines Cyril s life and times his scholastic method his christology his ecclesiology his eucharistic doctrine his spirituality and his influence on the Christian tradition

Coates,2004-10-01 Race and ethnicity much like water and air are all around us Yet race and ethnicity remain impervious to many of us Hence in this volume authors were challenged to think outside the box As such scholars were encouraged to dare to contemplate to evaluate and analyze issues regarding race and ethnicity from radically different perspectives This critical process required them to evaluate their own assumptions and those of their respective disciplines Therefore much like walking a tight rope without a net the scholars attempt to free themselves from the disciplinarian blinders that often preclude the development of fresh insights Collectively the papers challenge the way we conceive and perceive of race and ethnicity As a consequence they go past the ideological constraints that normally limit such discourse by disciplinarian boundaries or disciplinarian myopia Therefore these papers provide a critical reappraisal of race and ethnicity     **Antonia Augusta** Nikos Kokkinos,1992 Nikos Kokkinos presents a portrait of the most influential Roman matron of her time the daughter of Mark Antony and the great grandmother of Nero In addition to being pivotal to the political shifts of the Empire Antonia was strongly involved in many aspects of business life and thus her career has an important bearing on contemporary perceptions of the position of Roman women Marshalling many diverse archaeological source materials the author has produced a book which places Antonia firmly in the social context of her day     *A Companion to the Hellenistic World* Andrew Erskine,2009-02-09 Covering the period from the death of Alexander the Great to the celebrated defeat of Antony and Cleopatra at the hands of Augustus this authoritative Companion explores the world that Alexander created but did not live to see Comprises 29 original essays by leading international scholars Essential reading for courses on Hellenistic history Combines narrative and thematic approaches to the period Draws on the very latest research Covers a broad range of

topics spanning political religious social economic and cultural history      **Readers and Reading Culture in the High Roman Empire** William A. Johnson, 2010-06-03 In *Readers and Reading Culture in the High Roman Empire* William Johnson examines the system and culture of reading among the elite in second century Rome The investigation proceeds in case study fashion using the principal surviving witnesses beginning with the communities of Pliny and Tacitus with a look at Pliny's teacher Quintilian from the time of the emperor Trajan Johnson then moves on to explore elite reading during the era of the Antonines including the medical community around Galen the philological community around Gellius and Fronto with a look at the curious reading habits of Fronto's pupil Marcus Aurelius and the intellectual communities lampooned by the satirist Lucian Along the way evidence from the papyri is deployed to help to understand better and more concretely both the mechanics of reading and the social interactions that surrounded the ancient book The result is a rich cultural history of individual reading communities that differentiate themselves in interesting ways even while in aggregate showing a coherent reading culture with fascinating similarities and contrasts to the reading culture of today      Coinage and Identity in the Roman Provinces Christopher Howgego, Volker Heuchert, Andrew Burnett, 2005-05-05 Coins were the most deliberate of all symbols of public communal identities yet the Roman historian will look in vain for any good introduction to or systematic treatment of the subject Sixteen leading international scholars have sought to address this need by producing this authoritative collection of essays which ranges over the whole Roman world from Britain to Egypt from 200 BC to AD 300 The subject is approached through surveys of the broad geographical and chronological structure of the evidence through chapters which focus on ways of expressing identity and through regional studies which place the numismatic evidence in local context
