

- the consumption function;
- imports and gross fixed investments; and
- the reduced form of the model and forecasting.

A brief conclusion on the validity of the model and its estimates by statistical tests (Durbin-Watson) follows. Al-Bashir finds large standard errors in one instance—the coefficients of government revenues and personal income in the consumption function. Moreover, he warns that the forecasting ability of the model is restricted, as variables were not included to capture economic or policy changes over time (e.g., oil price rises and the dollar devaluation). Al-Bashir also draws other characteristics of the Saudi economy:

- 1) The labor force is a more important factor of production than capital stock;
- 2) Most governmental and private investment went into construction activities (infrastructure by the former sector, housing and trade by the latter), with the least investment in agriculture and manufacturing;
- 3) Despite heavy dependency on imports, Saudi Arabia's marginal propensity to import is low, due to the relatively large oil-generated income;
- 4) The oil sector, as expected, influenced almost every other sector (impact multiplier ranged between 1.50 and 2.25); and
- 5) Saudi Arabia's marginal propensity to consume (.6) is low compared to most other developing economies—again, because of the high income.

This volume is a technical econometric work and not for a general or nonspecialized readership. The social factors impeding ultimate development of the Saudi economy have not been taken sufficiently into account, largely due to data scarcity. Nonetheless, this book is a definite contribution in Middle Eastern economics.

R. Michael Burrell and Abbas R. Kelidar. *Egypt: The Dilemma of a Nation, 1970-1977*. [The Washington Papers, Vol. V, No. 48]. Beverly Hills and London: Sage Publications, 1977. \$3.00.

Within the relatively short space assigned to them, R. Michael Burrell and Abbas Kelidar offer a lucid, competent and jargon-free discussion of recent trends and developments in Egypt. One of the merits of their analysis is their effort to link domestic political developments to Egypt's current economic problems and relationship to the conservative Arab oil-producing states. While much writing on Egyptian politics has been comprised of narrow elite studies and has viewed Egypt's links to neighboring Arab states primarily in ideological and political terms, Burrell and Kelidar draw attention to the constraints placed upon Egypt's leadership as a result of its economic dependence upon Saudi Arabia and its allies, foreign capital, and Western financial institutions such as the International

*Egypt and the Sudan* Gabriel R Warburg, 2018-10-24 This title makes an important contribution to our understanding of British rule in the Nile Valley with special relevance to the important role of the Sudan in Anglo Egyptian relations until 1956 It examines British policy in Egypt in some detail and compares the relative importance of the Middle East and North Africa in shaping Egypt's regional policy since the advent of Muhammad Ali

**Economic Aid and American Policy toward Egypt, 1955-1981** William Joseph Burns, 1985-01-01 Gamal Abdel Nasser's 1955 decision to barter Egyptian cotton for Soviet bloc weaponry thrust Egypt onto center stage in the Cold War in the Middle East What Egypt needed most and what the United States was uniquely equipped to provide was economic aid For the Egyptian government eager to take rapid strides toward economic development but crippled by a burgeoning population a paucity of arable land and a meager reserve of foreign exchange American economic aid promised to serve as an enormously important crutch For American policymakers economic assistance appeared to be an ideal means of developing American influence in Egypt Few aid relationships in the last three decades can match the drama and significance of the U S Egyptian experience This study shows how the American government attempted to use its economic aid program to induce or coerce Egypt to support U S interests in the Middle East in the quarter century following the 1955 Czech Egyptian arms agreement William J Burns has analyzed recently released government documents and interviews with former policymakers to throw light on the use of aid as a tool of American policy toward the Nasser regime He also offers valuable observations on the role of the American economic assistance program in the Sadat era

**Asymmetric Conflicts** T. V. Paul, 1994-03-10 This book examines a question generally neglected in the study of international relations why does a militarily and economically less powerful state initiate conflict against a relatively strong state T V Paul analyses this phenomenon by focusing on the strategic and political considerations domestic and international which influence a weaker state to initiate war against a more powerful adversary The key argument of deterrence theory is that the military superiority of the status quo power coupled with a credible retaliatory threat will prevent attack by challengers The author challenges

this assumption by examining six twentieth century asymmetric wars from the Japanese offensive against Russia in 1904 to the Argentine invasion of the Falkland Islands in 1982 The book s findings have wide implications for the study of war power deterrence coercive diplomacy strategy arms races and alliances      *Encyclopedia of African History 3-Volume Set* KEVIN SHILLINGTON.,2005      **Egypt** ,1977      **Encyclopedia of African History** Kevin Shillington,2005 Offers more than one thousand entries covering all aspects of African history civilization and culture      **Index Islamicus 1976-1980** James Douglas Pearson,Wolfgang Behn,1983      Syria and the New World Order Neil Quilliam,1999 The advent of the New World Order has challenged Syria s role in the Middle East Traditionally viewed as a pariah state and a Soviet satellite Syria s future looked uncertain as the balance of world power moved out of Soviet into US control causing the withdrawal of Soviet support and threatening Syria s quest for regional hegemony Syria however has been able to adapt to the transformation in the world order Dr Quilliam maintains that Syrian foreign policy has been determined by both domestic politics and international political realities He begins by defining Syria in terms of its domestic arena its geography both physical and political natural resources history population and economy He then discusses the governing system of the country detailing the different political parties and how the system actually functions in Syria Moving to the international political system the author then expands upon the regional balance of power and Syria s relations with her neighbors Following a rational policy the Syrian state was compelled to realign itself with the US led world order in an attempt to pursue regional hegemony It was able to do this by joining the US led coalition forces in the liberation of Kuwait in 1990 91 and was rewarded with a place in the postwar regional order and a central role in the Madrid Peace Conference Syria and the New World Order is a clear and comprehensive account of Syria s adjustment to the realities of the day      **Economic Relations Between Egypt and the Gulf Oil States, 1967-2000** Gil Feiler,2003 Providing an insight into the relationship between Egypt and the Gulf oil states this work analyzes the effects economic aid and cooperation had on the political relation ship between the two sides and on President Sadat s peace initiative with Israel      Comparative Politics of the Middle East Bruce Borthwick,1980
