Wolny-Abouelwafa, 2019-12-31 *A Woman Tenderfoot in Egypt* Grace Gallatin Seton-Thompson, 1923 **Egypt Since the Revolution (RLE Egypt)** P.J. Vatikiotis, 2013-01-03 As the leaders of a revolutionary nationalist regime the Egyptian Free Officers who came to power following the 1952 Revolution committed themselves to the attainment of goals associated with modernization namely rapid economic development based on State planning and industrialization and the political mobilization of society along State decreed lines Arising from a conference held at the Centre of Middle Eastern Studies at SOAS with contributions from scholars from the Arab world Europe and the US as well as the UK these papers raise the questions most important to students of economic and political development *Egyptian Myths and Mysteries* Rudolf Steiner, 1971 12 Lectures Leipzig September 2 14 1908 CW 106 Rudolf Steiner emphasizes the astonishing and special relationship between our own time and that of ancient Egypt how in the natural rhythm of the ages the so called third post Atlantean Egyptian epoch is mirrored by the fifth present epoch In this sense today it is especially relevant to look at ancient Egypt with fresh eyes The evolution of Western civilization has been profoundly influenced by Egyptian myths through the Greek mysteries Because of other influences however this heritage has degenerated thinking has mummified and myth has all but disappeared Consequently it is important to revive the seed of goodness passed down to us from ancient Egypt Through true imagination it is our task to renew human knowledge related to the creative forces in nature which the Egyptians attempted through the Osiris Isis myth and the Greeks through the myth of Demeter This is what Rudolf Steiner attempts in this lecture cycle Steiner's subjects include experiences of Egyptian initiations esoteric anatomy and physiology the stages of evolution of the human form and much more The final lecture is on the Christ impulse as the conqueror of matter This volume is a translation from German of *gyptische Mythen und Mysterien im Verhältnis zu den wirkenden Geisteskräften der Gegenwart* GA 106 *Egypt* Fabio Bourbon, 1996 **Views of Ancient Egypt since Napoleon Bonaparte** David Jeffreys, 2016-06-16 This book addresses some of the main themes of the study of Egypt during the nineteenth and twentieth centuries In a combination of case studies and discursive chapters the status of Egypt as an important example of traditional Asian scholarship and as an ancient model of imperialism itself is examined Contributions range from studies of nineteenth century antiquarianism and the collecting of Egyptian antiquities as an extension of the territorial ambitions and rivalries of the European powers to explorations of how Egypt is understood and interpreted in contemporary societies *Views of Ancient Egypt* also considers the way in which Ancient Egypt has been adopted by less privileged members of some societies as a cultural icon of past greatness *Routledge Library Editions: Egypt* Various Authors, 2021-07-09 Routledge Library Editions Egypt brings together as one set or individual volumes a series of previously

out of print classics from a variety of academic imprints With titles ranging from Education in Egypt to Egypt in Transition from Egyptian Religion to Egypt's Economic Potential this set provides in one place a wealth of important reference sources from a wide range of authors expert in the field *Egypt, Yesterday and Today* Georgiana G. **Educational Media Resources on Egypt** University of Michigan. Audio-Visual Education Center,1977 *In The Shadows of Glories Past* John W. Livingston,2018-02-01 The title of this volume implies two things the greatness of the scientific tradition that Muslims had lost and the power of the West in whose threatening shadow reformers now labored to modernize in order to defend themselves against those very powers they were taking as models Copernicus and Darwin were the names that dominated the debate on science whose arguments and rebuttals were published mainly in the religious and secular journals in Cairo and Beirut from the 1870s Analysis and interpretation of this literature shows the hope that Arab reformers had of duplicating the Japanese success followed by the despair when success was denied A cultural malaise festered from generations of despair defeat and foreign occupation and this feeling transmogrified after 1967 to a psychosis in a significant number of secular writers educators and religious reformers The great debate on assimilating science was turned inward where defensive mechanisms of denial spun out perversions of science the Quran becoming a thesaurus of science and a more extreme derivative of that something called Islamic Science arising as an alternate science that was to be in harmony with the Quran Shari'a and Muslim belief This volume reveals the undermining effect of European imperialism on western oriented religious reformers and secular intellectuals for whom science and political reform went together and concludes with a chapter on the state of science in contemporary Muslim societies and the efforts to institutionalize science before the upheavals of 2011 so as to bring to life an authentic and indigenous culture that would sustain scientific study and research as autonomous pursuits **Colloquial Arabic of Egypt** Russell H.
