**The Egyptian Museum in Cairo** Abeer El-Shahawy, Mathaf al-Miṣrī, 2005 Cairo's Egyptian Museum houses the largest collection of Egyptian antiquities in the world. Some 150 000 pieces are exhibited and another 30 000 are held in storerooms. This book carries full color illustrations of many of the masterpieces of ancient art in the museum from the decorated vases, flint knives and palettes of the predynastic period through the magnificent artifacts of the pharaonic period to the beautiful tempera portraits of the Roman period. **All Things Ancient Egypt** Lisa K. Sabbahy, 2019-04-24 Written by specialists in the field of Egyptology, this book is a readable introduction to ancient Egypt covering all anticipated subjects and stressing the monuments and material culture of this remarkable ancient civilization. The rich natural resources of ancient Egypt provided a wealth of raw material for its structures, sculptures and art, while its geographic isolation helped to ensure the survival of its rich culture for centuries. While other references focus on the people and battles central to Egyptian history, this reference explores the material culture and social institutions of ancient Egypt. The book focuses on pharaonic Egypt, covering the period from roughly 5000 BCE to the beginning of the Greco-Roman Period in 320 BCE. At the front of the work, a timeline provides a quick look at the major events in Egyptian history, and an introduction surveys ancient Egypt's physical geography and history. Alphabetically arranged reference entries, written by expert contributors, then provide fundamental information about the buildings, jewelry, social practices and other topics related to the material culture and institutions that made up the Egyptian world. Excerpts from primary source historical documents provide evidence for what we know about ancient Egyptian culture and suggestions for further reading direct users to additional sources of information. **Visualizing the Afterlife in the Tombs of Graeco-Roman Egypt** Marjorie Susan Venit, 2016 This book explores the visual narratives of a group of decorated tombs from Ptolemaic and Roman Egypt c. 300 BCE–250 CE. The author contextualizes the tombs within their social, political and religious context and considers how the multicultural population of Graeco-Roman Egypt chose to negotiate death and the afterlife. *How to Build Egyptian Boat Models* Jack Sintich, 2013-01-03 A unique model building experience, this beginner level guide details everything needed to create brilliant reproductions of the royal sailing boats of Khufu, ruled ca. 2551–2528 B.C. Queen Hatshepsut ruled ca. 1479–1458 B.C. and Ramses II ruled ca. 1279–1213 B.C.

**Artifacts from Ancient Egypt** Barbara Mendoza, 2017-10-05 Primary source documents and detailed entries reveal what ancient Egypt was like using the objects and artifacts of daily life from the period covering the Predynastic era through the Greco-Roman period, 5000 BCE to 300 CE. Historians have found that valuable knowledge about long ago civilizations can be derived from examining the simple routines of daily life. This fascinating study presents a collection of everyday objects and artifacts from ancient Egypt, shedding light on the social life and culture of ancient Egyptians. The work starts with a popular notion of ancient Egyptian beauty and gradually moves on to address various aspects of life, including home, work, communication and transition and afterlife. Organized by topics, the work contains the following sections: beauty, adornment,

and clothing household items furniture and games food and drink tools and weapons literacy and writing death and funerary equipment and religion ritual and magic Each object holds equal importance and dates from the Predynastic era to the Greco-Roman period of ancient Egypt 5000 BCE to 300 CE A special section provides guidance on evaluating objects and artifacts by asking questions Who created it Who used it What did it do what was its purpose When and where was it made Why was it made to help assess the historical context of the object

Barbieri-Low, 2021-07-17 The first comparative study of these two early empires Although they existed more than a millennium apart the great civilizations of New Kingdom Egypt ca 1548 1086 BCE and Han dynasty China 206 BCE 220 CE shared intriguing similarities Both were centered around major flood prone rivers the Nile and the Yellow River and established complex hydraulic systems to manage their power Both spread their territories across vast empires that were controlled through warfare and diplomacy and underwent periods of

radical reform led by charismatic rulers the heretic king Akhenaten and the vilified reformer Wang Mang Universal justice was dispensed through courts and each empire was administered by bureaucracies staffed by highly trained scribes who held special status Egypt and China each developed elaborate conceptions of an afterlife world and created games of fate that facilitated access to these realms This groundbreaking volume offers an innovative comparison of these two civilizations Through a combination of textual art historical and archaeological analyses Ancient Egypt and Early China reveals shared structural traits of each civilization as well as distinctive features

Fisher, Peter Lacovara, Salima Ikram, Sue D'Auria, 2012-09-06 A lushly illustrated gazetteer of the archaeological sites of southern Egypt and northern Sudan and named a 2012 American Publishers PROSE Awards winner for Best Archaeology Anthropology Book For most of the modern world ancient Nubia seems an unknown and enigmatic land Only a handful of archaeologists have studied its history or unearthed the Nubian cities temples and cemeteries that once dotted the landscape of southern Egypt and northern Sudan Nubia's remote setting in the midst of an inhospitable desert with access by river blocked by impassable rapids has lent it not only an air of mystery but also isolated it from exploration Over the past century particularly during this last generation scholars have begun to focus more attention on the fascinating cultures of ancient Nubia ironically prompted by the construction of large dams that have flooded vast tracts of the ancient land This book attempts to document some of what has recently been discovered about ancient Nubia with its remarkable history architecture and culture and thereby to give us a picture of this rich but unfamiliar African legacy
