Eighteenth-Century Poetry David Fairer, Christine Gerrard, 2014-09-30 Currently the definitive text in the field and now available in an expanded third edition *Eighteenth Century Poetry* presents the rich diversity of English poetry from 1700-1800 in authoritative texts and with full scholarly annotation. Balanced to reflect current interests and favorites including prominent poets like Finch, Swift, Pope, Montagu, Johnson, Gray, Burns, and Cowper, as well as less familiar material, offering a variety of voices and new directions for research and learning. Includes 46 new poems with more texts by women poets and the inclusion of four additional poets: Mary Barber, Mehetabel Wright, Anna Seward, and Mary Robinson, poems reflecting new ecological approaches to 18th century literature and poems on the art of writing. Accessible and user friendly with generous head notes, full foot of page annotations, an expanded thematic index, and a visually appealing text design.

English Poetry of the Eighteenth Century, 1700-1789 David Fairer, 2003 In recent years the canon of eighteenth century poetry has greatly expanded to include women poets, labouring class and provincial poets, and many previously unheard voices. Fairer's book takes up the challenge this ought to pose to our traditional understanding of the subject. This book seeks to question some of the structures, categories, and labels that have given the age its reassuring shape in literary history. In doing so, Fairer offers a fresh and detailed look at a wide range of material.

Eighteenth Century English Poetry Nalini Jain, John Richardson, 2016-07-01 This anthology of 18th century English poetry is extensively annotated for a new generation of readers. It combines the scope of a period anthology with the detailed annotations of an authoritative single author edition. Selected poets include John Wilmot, Earl of Rochester, John Dryden, Jonathan Swift, Anne Finch, Countess of Winchelsea, Joseph Addison, Alexander Pope, and William Cowper. The guiding principle of the annotation is one of thoroughness: the editors concentrate on works where the meanings have changed, on primary allusions, and on relevant details of social and political history.

A Companion to Eighteenth-Century Poetry Christine Gerrard, 2014-02-10 **A COMPANION TO EIGHTEENTH CENTURY POETRY** Edited by Christine Gerrard This wide ranging Companion reflects the dramatic transformation that has taken place in the study of eighteenth century poetry over the past two decades. New essays by leading scholars in the field address an expanded poetic canon that now incorporates verse by many women poets and other formerly marginalized poetic voices. The volume engages with topical critical debates such as the production and consumption of literary texts, the constructions of femininity, sentiment and sensibility, enthusiasm, politics and aesthetics, and the growth of imperialism. The Companion opens with a section on contexts, considering eighteenth century poetry's relationships with such topics as party politics, religion, science, the visual arts, and the literary marketplace. A series of close readings of specific poems follows, ranging from familiar texts such as Pope's *The Rape of the Lock* to slightly less well known works such as Swift's *Stella* poems and Lady Mary Wortley Montagu's *Town Eclogues*. Essays on forms and genres, and a series of more provocative contributions on significant themes and debates, complete the volume. The
