Een Man Uit Het Dal Van Spoleto:

The Saint and the Sultan Paul Moses, 2009-09-29 An intriguing examination of the extraordinary and little known meeting between St Francis of Assisi and Islamic leader Sultan Malik Al Kamil that has strong resonance in today's divided world. For many of us St Francis of Assisi is known as a poor monk and a lover of animals. However, these images are sadly incomplete because they ignore an equally important and more challenging aspect of his life: his unwavering commitment to seeking peace. In *The Saint and the Sultan*, Paul Moses recovers Francis's message of peace through the largely forgotten story of his daring mission to end the crusades. In 1219, as the Fifth Crusade was being fought, Francis crossed enemy lines to gain an audience with Malik al Kamil, the Sultan of Egypt. The two talked of war and peace and faith, and when Francis returned home, he proposed that his Order of the Friars Minor live peaceably among the followers of Islam, a revolutionary call at a moment when Christendom pinned its hopes for converting Muslims on the battlefield. *The Saint and the Sultan* captures the lives of St Francis and Sultan al Kamil and illuminates the political intrigue and religious fervor of their time. In the process, it reveals a startlingly timely story of interfaith conflict, war, and the search for peace. More than simply a dramatic adventure, though, it does not lack for colorful saints and sinners, loyalty and betrayal, and a thrilling Crusade narrative. *The Saint and the Sultan* brings to life an episode of deep relevance for all who seek to find peace between the West and the Islamic world. Winner of the 2010 Catholic Press Association Book Award for History.

The Torah and the Stoics on humankind and nature J.J. Boersema, 2021-09-06 The environmental problematique is intimately bound up with deep-seated human attitudes regarding our relationship with nature. Here in the West, those attitudes have been shaped to no small degree by the canonical texts of the Bible and the classical philosophers. In this book, the author re-examines some of these seminal texts, arguing that what we today know as Christian cosmology is in fact a grafting of classical Greek philosophy onto ancient Israelite thought, with certain valuable traditions being all but lost in the process. The dietary laws of Leviticus and Deuteronomy, in particular, still prove surprisingly relevant today. Often misread on this point, the creation narratives of Genesis can likewise serve as a rich point of departure for examining our attitudes towards the natural world. A reappraisal of these sources is necessary and feasible. There is no need for an appeal to cosmologies alien to our own culture, nor for recourse to New Age beliefs in all their variety.

Struggle for Freedom
Basilius J. Groen, 2024-12-15 The study presents ways of structuring civil codes on the basis of selected codifications from Central and Eastern Europe since the end of the 18th century until the modern times. In five chapters, the author depicts the arrangement of an possible general part of the law of obligations, of ius in re, of family law, and the law of persons, as well as of inheritance law. The focus of the study is searching the most common systematic patterns and the main differences between the socialist and bourgeois codifications.

Between Saint James and Erasmus: Studies in Late-Medieval Religious Life - Devotion and Pilgrimage in the Netherlands Jan van Herwaarden, 2021-10-25 This volume is divided into four sections late medieval devotion in the Netherlands medieval Christian pilgrimage the medieval cult of St James the Great and Erasmusiana Variety and coherence sound the keynote in the title and the contents of the book Religious concepts and expressions of religious faith such as pilgrimages and indulgences are representative of late medieval Christianity In this book they refer specifically to the medieval cult of St James the Great while for Erasmus they were an object of his critical consideration The whole book can be read in the light of the debate about the tension between an appreciation for outward signs of faith and the inward experience of religious belief which Erasmus considered an absolute necessity Een man uit het dal van Spoleto Hélène Francisca Wagenaar-Nolthenius, 1990 Het leven van Franciscus van Assisi 1180 1226 naar eigentijdse bronnen verhaald met een poging zijn persoon te plaatsen in zijn tijd **Dictionary of Theologians** Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308 the year in which John Duns Scotus died The dictionary encompasses the Catholic Orthodox Nestorian and Monophysite traditions including information not previously available in English Thoroughly indexed the dictionary incorporates common variants of names and concepts which will help and direct the reader The main criterion for inclusion has been contribution to the development of Christian theology Sub criteria by which that is measured include above all originality and influence on later figures With over 290 entries the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up to date definitive bibliography listing primary texts translations and secondary literature in the major western European languages Useful for all levels of academia no other text matches the depth of the dictionary's bibliographies The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers **Environmental Science Theory** W.T. de Groot, 1992-10-22 Having no competitive works this unique publication presents a single structure for the analysis explanation and solution of environmental problems regardless of their location nature or scale In this problem oriented approach a coherent framework interconnects the study of facts and values environmental systems social causes and ethical premises Counterbalancing current biases the author emphasizes the fundamental normative economic and social scientific aspects of truly interdisciplinary environmental science For instance the normative side of environmental problems are often neglected resulting in policy designs and evaluations containing inefficient mixtures of sophisticated models and poorly grounded normative premises this is the first major study to enrich the field with more normative consistency and groundedness It is also the first text to consistently identify the social causes of environmental problems rather than focusing on the physical scientific aspects and thus design deeper and

more effective policies Furthermore a tinge of post modern thinking runs throughout the book with special care being taken however to constantly keep in view the practical relevance of theory for problem oriented work The book will be of interest to environmental scientists and managers wishing to improve the consistency and depth of their work to social scientists and geographers wishing to connect their discipline to the environmental problems field and to general scientists interested in the connections between philosophy and practice *Wie is wie in de mystiek* Auke Jelsma, Gerrit Brinkman, 2006
