## Effective Stepparenting:

**Effective Stepparenting** Jeffry H. Larson, James O. Anderson, Ann Morgan, 1984 *Stepparenting* Marilyn Ihinger-Tallman, Kay Pasley, 1995-07-30 Pasley and Ihinger Tallman provide a critical analysis of the current literature on stepparenting and summarize the progress made in research theory and practice related to stepfamilies. The chapters are written by contributors with expertise in various fields related to stepparenting. The contributors discuss a range of concerns and issues, theoretical concerns, and present models useful to the study of stepparenting research related to relationships within stepfamilies and the development of new roles within stepfamilies and practical considerations related to family therapy, stepfamilies and schools, and stepparenting and the law. What Works in Stepfamilies Lawrence Ganong, Marilyn Coleman, Caroline Sanner, 2024-11-21 This book uses a strengths-based approach and resilience perspective to offer guidance on what works in creating effective stepfamily relationships, sharing findings and empirically supported best practices for stepfamily members and the family professionals that work with them. Drawing from over 2,500 studies, Ganong, Coleman, and Sanner present a comprehensive overview of research on what works to create positive and satisfying stepfamily relationships. Chapters address how to work with stepcouples, stepparents, biological parents, co-parents, stepsiblings, and half-siblings, and biological and stepgrandparents, with illustrative case studies throughout. It emphasizes the diversity and complexity of stepfamilies, including work with LGBTQ stepfamilies, stepfamilies from various racial and ethnic groups, and stepfamily relationships across the life course, from childrearing stepfamilies to those formed later in life. This book is essential reading for students, researchers, and practitioners interested in strengthening stepfamily relationships, such as those studying or working in family science, marriage and family therapy, psychology, and social work. Step F. O. R. W. A. R. D. Rhonda D. Ross, M. Ed., Rhonda Ross, 2015-06-16 In this world of blended families, one of the greatest challenges that impacts our society is that of step-parenting. The synergistic efforts of family members supporting children who fall victim to the demise of relationships that render one parent or the other absent doesn't often include the stepparent. **Step F O R W A R D** is a realistic fiction that features a family who embrace seven fundamental attributes that enable them to move FORWARD in building a healthy and functional family relationship: Fidelity, Ownership, Respect, Wisdom, Accountability, Responsibility, Diligence. These seven attributes are not the only that contribute to the success of step-parenting. However, each chapter highlights these essential attributes and gives credence to the positive impact they can have on the step-parenting process. May you become enlightened and empowered by the words of this book as you step FORWARD in your journey. Sometimes the smallest step in the right direction ends up being the biggest step of your life.
