Effects On The Atmosphere Of A Major Nuclear Exchange:

The Effects on the Atmosphere of a Major Nuclear Exchange National Research Council, Division on Engineering and Physical Sciences, Commission on Physical Sciences, Mathematics, and Applications, Committee on the Atmospheric Effects of Nuclear Explosions, 1985-02-01 Most of the earth's population would survive the immediate horrors of a nuclear holocaust but what long term climatological changes would affect their ability to secure food and shelter? This sobering book considers the effects of fine dust from ground level detonations of smoke from widespread fires and of chemicals released into the atmosphere. The authors use mathematical models of atmospheric processes and data from natural situations e.g. volcanic eruptions and arctic haze to draw their conclusions. This is the most detailed and comprehensive probe of the scientific evidence published to date.

The Oxford Companion to Global Change David J. Cuff, 2008 In recent years global change has become increasingly important in technological, ecological and political spheres. This companion examines the environmental events of recent times and investigates long term trends as well as broader issues of global change.

The Shifting Global Balance of Power: Perils of a World War and Preventive Measures Dr. Yana Korobko, Mahmoud Musa, 2014-06-09 Many believed that the world would

remain everlastingly unchangeable in the aftermath of victory of the Allies the United States the Soviet Union China United Kingdom and France in World War II They remodeled the world map amongst themselves and affirmed that they will be guarantors of the international status quo. However those who pledged to conserve peace are now breaking it leading the planet to the edge of clash. This book differs from all others that dealt with possible World War III scenarios since it combines knowledge in the fields of history, international relations, economics, sociology and psychology and philosophy. Thus giving the reader a broader outlook on such matters as Potentially risky world war scenarios, Dialogue between the West and Islam, New emerging superpowers, Psychological and Cyber Warfare, Preventive mechanisms such as early warning and preparedness operations.
