*The Modernisation of Russia, 1676-1825* Simon Dixon, 1999-07-29 This is the first book to place Russia's long eighteenth century squarely in its European context The conceptual framework is set out in an opening critique of modernisation which while rejecting its linear implications maintains its focus on the relationship between government economy and society Following a chronological introduction a series of thematic chapters covering topics such as finance and taxation society government and politics culture ideology and economy emphasise the ways in which Russia's international ambitions as an emerging great power provoked administrative and fiscal reforms with wide ranging and often unanticipated social consequences This thematic analysis allows Simon Dixon to demonstrate that the more the tsars tried to modernise their state the more backward their empire became A chronology and critical bibliography are also provided to allow students to discover more about this colourful period of Russian history

*Eighteenth Century Russian Literature, Culture and Thought* Anthony Glenn Cross, Gerald Stanton Smith, 1984

*The Rise and Fall of Latin Humanism in Early-Modern Russia* Max J.

Okenfuss,1995-08-01 **The Rise and Fall of Latin Humanism in Early Modern Russia** argues that between 1650 and 1789 Russia flirted with Western Europe's Latin Humanism. However, all levels of society, especially the nobility, consistently rejected the pagan authors of Latin culture propagated by Ukrainian clergy. An examination of the printing industry, Latin teaching, and private libraries in Russia, and excursions into the thought of Russia's enlighteners demonstrate that Latin authors had little impact on Russia, especially the nobility, traditionally regarded as the advocate of Western educational and cultural values. The book contributes to our understanding of the reforms of Peter the Great, Catherine's enlightened reputation, the origins of the intelligentsia, and of the cultural ties between Russians and the peoples they annexed in early modern times.

**Catherine the Great** Isabel de Madariaga,1991-01-01 There is no shortage of biographies of Catherine the Great of varying quality and degrees of sensationalism. But there exists no brief account of her reign that incorporates the extensive research findings of the last twenty years and presents them accessibly, accurately, and concisely to the student and the general reader. Following her magisterial *Russia in the Age of Catherine the Great*, Isabel de Madariaga has written the most informative, balanced, and up-to-date short study of this spectacular period in Russian history. De Madariaga establishes an authoritative account of the events of Catherine's life, disentangling the myth from the verifiable reality. But her principal aim is to provide an account of the achievements of the thirty-four year reign. Well-read and intelligent Catherine presided over a fundamental reorganization of central and local government, of financial administration, of law, and of literary and cultural life. De Madariaga tracks the changes and explains the reforms, placing them in the context of eighteenth-century Europe and the ideas of the Enlightenment and of the French Revolution. Chapters on the wars against the Turkish empire, the annexation of the Crimea in 1783, and the partition of Poland demonstrate Catherine's part in building Russia into a formidable European power. The text is distinguished throughout by the attention paid to historical controversies over the interpretation of Catherine's policies and to the historiography on the period in general. Praised by French writers of her day and attacked by later historians for her neglect of the welfare of the serfs, Catherine's achievements are now measured against the difficulties she met. The book points to the problems Catherine faced, the human and material resources on which she could draw, and the intellectual climate in which she operated. De Madariaga considers past and present assessments of Catherine and consolidates balanced judgments, profound understanding, and exhaustive research into a highly assimilable form.

**A History of Russia: To 1917** Walter Moss,2002

**Enlightened Absolutism** H.M. Scott,1990-03-05 Each book in this series is designed to make available to students important new work on key historical problems and periods that they encounter. Each volume, devoted to a central topic or theme, contains specially commissioned essays from scholars in the relevant field. These provide an assessment of a particular aspect, pointing out areas of development and controversy and indicating where conclusions can be drawn or where further work is necessary, while an editorial introduction reviews the problem or period as a whole. In this text, the contributors assess reform and reformers in late 18th-century Europe, covering

such topics as Catherine the Great the Danish reformers the Habsburg Monarchy and events in Spain and Italy *The Reforms of Peter the Great* Evgenii V. Anisimov, J.T. Alexander, 2015-02-24 This psychologically penetrating revisionist account of the life and rule of Russia's 18th century Tsar reformer develops an important theme that is what happens when the drive for progress is linked to an autocratic expansionist impulse rather than to a larger goal of human emancipation And what has been the price of power both for Peter and for Russia The American Bibliography of Slavic and East European Studies, 1985 *Newsletter - Study Group on Eighteenth-Century Russia* Study Group on Eighteenth-Century Russia, 1981 **A World Bibliography of Geographical Bibliographies** Takashi Okuno, 1994 Paperbound Books in Print, 1984 **Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion** Albert John Walford, Marilyn Mullan, Priscilla Schlicke, Library Association, 1999 A revised and updated guide to reference material It contains selective and evaluative entries to guide the enquirer to the best source of reference in each subject area be it journal article CD ROM on line database bibliography encyclopaedia monograph or directory It features full critical annotations and reviewers comments and comprehensive author title and subject indexes The contents include philosophy and psychology religion social sciences sociology statistics politics economics labour and employment land and property business organizations finance and banking and economic surveys economic policies and controls trade and commerce business and management and law public administration social services and welfare education customs and traditions geography biography and history Library of Congress Catalogs Library of Congress, 1983 **Canadian Slavonic Papers**, 1990
