Eighth Voyage of the Dragon

A HISTORY OF CHINA'S QUEST FOR SEAPOWER

By Bruce Swanson

Eighth Voyage Of The Dragon A History Of Chinas Quest For Seapower

Daniel Coetzee, Lee W. Eysturlid

Eighth Voyage Of The Dragon A History Of Chinas Quest For Seapower:

Eighth Voyage of the Dragon Bruce Swanson,1982 **China as a Sea Power, 1127-1368** Lo Jung-pang,2012-01-01
Lo Jung pang argues that during each of the three periods when imperial China embarked on maritime enterprises the Qin and Han dynasties the Sui and early Tang dynasties and Song Yuan and early Ming dynasties coastal states took the initiative at a time when China was divided maritime trade and exploration subsequently peaked when China was strong and unified and declined as Chinese power weakened At such times China s people became absorbed by internal affairs and state policy focused on threats from the north and the west These cycles of maritime activity each lasting roughly five hundred years corresponded with cycles of cohesion and division strength and weakness prosperity and impoverishment expansion and contraction In the early 21st century a strong and outward looking China is again building up its navy and seeking maritime dominance with important implications for trade diplomacy and naval affairs Events will not necessarily follow the same course as in the past but Lo Jung pang s analysis suggests useful questions for the study of events as they unfold and decades to come **China's Rising Sea Power** Peter Howarth,2006-04-18 This is a fascinating insight into China s strategic abilities and ambitions probing the real depths of its plans for the twenty first century China s Rising Sea Power explores similarities between China s strategic outlook today and that of earlier continental powers whose submarine fleets challenged dominant maritime powers for regional hegemony Germany in two World Wars and the Soviet Union during the Cold War Using insights from classical naval strategic theory Peter Howarth examines Beijing s strategic logic in making tactical submarines the keystone of China s naval force structure He also investigates the influence of Soviet naval strategy and ancient Chinese military thought on the PLA Navy s strategic culture contending that China s increasingly capable submarine fleet could play a key role in Beijing s use of force to resolve the Taiwan issue This book will be of great interest to all students and scholars of security and strategic studies Asian politics geopolitics and military naval strategy **Chinese Warfighting: The PLA Experience since 1949** Mark A. Ryan,David M. Finkelstein,Michael A. McDevitt,CNA Corporation,2016-04-29 This is the first systematic study of modern China s military campaigns and the actual fighting conducted by the People s Liberation Army since the founding of the People s Republic It provides a general overview of the evolution of PLA military doctrine and then focuses on major combat episodes from the civil war with the Nationalists to the last significant combat in Vietnam in 1979 in addition to navy and air operations through 1999 In contrast to the many works on the specifics and hardware of China s military modernization this book discusses such topics as military planning command and control fighting and politics combat tactics and performance technological catch up and doctrinal flexibility the role of Mao Zedong scale and typologies of fighting and deterrence The contributors include scholars from Mainland China Taiwan and the United States who draw from a wealth of fresh archival sources *China Goes to Sea* Andrew S. Erickson,Lyle J Goldstein,Carnes Lord,2009-07-01 In modern history China has been primarily a land power dominating

smaller states along its massive continental flanks But China's turn toward the sea is now very much a reality as evident in its stunning rise in global shipbuilding markets its vast and expanding merchant marine the wide offshore reach of its energy and minerals exploration companies its growing fishing fleet and indeed its increasingly modern navy Yet for all these achievements there is still profound skepticism regarding China's potential as a genuine maritime power Beijing must still import the most vital subcomponents for its shipyards maritime governance remains severely bureaucratically challenged and the navy evinces at least as of yet little enthusiasm for significant blue water power projection capabilities This volume provides a truly comprehensive assessment of prospects for China's maritime development by situating these important geostrategic phenomena within a larger world historical context China is hardly the only land power in history to attempt transformation by fostering sea power Many continental powers have elected or been impelled to transform themselves into significant maritime powers in order to safeguard their strategic position or advance their interests We examine cases of attempted transformation from the Persian Empire to the Soviet Union and determine the reasons for their success or failure Too many works on China view the nation in isolation Of course China's history and culture are to some extent exceptional but building intellectual fences actually hinders the effort to understand China's current development trajectory Without underestimating the enduring pull of China's past as it relates to threats to the country's internal stability and its landward borders this comparative study provides reason to believe that China has turned the corner on a genuine maritime transformation If that proves indeed to be the case it would be a remarkable if not singular event in the history of the last two millennia

Khubilai Khan's Lost Fleet James P. Delgado, 2008 Timeline of Chinese Japanese and Korean dynasties and periods Prologue A divine wind Hakozaki Asian mariners Enter the Mongols Khubilai Khan The song Tsukushi The Bun ei War The Mongols return Kamikaze Takashima Broken ships Distant seas distant fields The legacy of Khubilai Khan's navy

China As A Maritime Power David G. Muller, 2019-03-01 This book examines the evolution of Chinese maritime power for each of three major periods in modern Chinese history 1945 to the Sino Soviet break 1960 to the Lin Biao incident and 1971 to the present

The Tao of Deception Ralph D. Sawyer, 2007-02-13 The history of China is a history of warfare Wars have caused dynasties to collapse fractured the thin facade of national unity and brought decades of alien occupation But throughout Chinese history its warfare has been guided by principles different from those that governed Europe Chinese strategists followed the concept first articulated by Sun tzu in The Art of War of qi ch i or unorthodox warfare The concept of qi involves creating tactical imbalances in order to achieve victory against even vastly superior forces Ralph D Sawyer translator of The Art of War and one of America's preeminent experts on Chinese military tactics here offers a comprehensive guide to the ancient practice of unorthodox warfare He describes among many other tactics how Chinese generals have used false rumors to exploit opposing generals distrust of their subordinates dressed thousands of women as soldiers to create the illusion of an elite attack force and sent word of a false surrender to lure enemy troops away from a vital escape route The

Tao of Deception is the book that military tacticians and military historians will turn to as the definitive guide to a new yet ancient way of thinking about strategy

Cold War Spencer C. Tucker, Priscilla Roberts, 2007-09-10 The most comprehensive and up to date student reference on the Cold War offering expert coverage of all aspects of the conflict in a richly designed format fully illustrated to give students a vivid sense of life in all countries affected by the war ABC CLIO is proud to announce the latest addition to its widely acclaimed legacy of historical reference works for students Under the direction of internationally known expert Spencer Tucker Cold War A Student Encyclopedia captures the vast scope day to day drama and lasting impact of the Cold War more clearly and powerfully than any other student resource ever published Ranging from the end of the Second World War to the collapse of the Soviet Union Cold War A Student Encyclopedia offers vivid portrayals of leading individuals significant battles economic developments societal cultural events changes in military technology and major treaties and diplomatic agreements The nearly 1 100 entries plus topical essays and a documents volume draw heavily on recently opened Russian Eastern European and Chinese archives Enhanced by a rich program of maps and images it is a comprehensive current and accessible student reference on the dominant geopolitical phenomenon of the late 20th century

The Seaforth Bibliography Eugene Rasor, 2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side

China at War 1901-1949 Edward L. Dreyer, 2014-05-12 Few phases of history were as heavy with implications for the world at large than the turbulent years through which China moved from the overthrow of the last imperial dynasty in 1911 through anarchy civil war and invasion to the final triumph of the Communists in 1949 yet few periods are as little known by the wider world and so little understood Professor Dreyer's impressive account of China at war is both an important contribution to this new series of studies of modern wars in their full political social and ideological contexts and also a valuable introduction to the birth confused bloody and painful as it was of the future superpower

Beijing's Power and China's Borders Bruce Elleman, Stephen Kotkin, Clive Schofield, 2015-05-18 China shares borders with 20 other countries Each of these neighbors has its own national

interests and in some cases these include territorial and maritime jurisdictional claims in places that China also claims Most of these 20 countries have had a history of border conflicts with China some of them never amicably settled This book brings together some of the foremost historians geographers political scientists and legal scholars on modern Asia to examine each of China's twenty land or sea borders

Mao's Army Goes to Sea Toshi Yoshihara, 2023-01-03 New details about the founding of China's Navy reveals critical historical context and insight into future strategy From 1949 to 1950 the People's Liberation Army PLA made crucial decisions to establish a navy and secure China's periphery The civil war had been fought with a peasant army yet in order to capture key offshore islands from the Nationalist rival Mao Zedong needed to develop maritime capabilities Mao's Army Goes to Sea is a ground breaking history of the founding of the Chinese navy and Communist China's earliest island seizing campaigns In this definitive account of a little known yet critical moment in China's naval history Toshi Yoshihara shows that Chinese leaders refashioned the stratagems and tactics honed over decades of revolutionary struggle on land for nautical purposes Despite significant challenges the PLA ultimately scored important victories over its Nationalist foes as it captured offshore islands to secure its position Drawing extensively from newly available Chinese language sources this book reveals how the navy building process sea battles and contested offshore landings had a lasting influence on the PLA Even today the institution's identity strategy doctrine and structure are conditioned by these early experiences and myths Mao's Army Goes to Sea will help US policymakers and scholars place China's recent maritime achievements in proper historical context and provide insight into how its navy may act in the future

Philosophers of War Daniel Coetzee, Lee W. Eysturli, 2013-10-21 This user friendly reference systematically covers the entire intellectual history of strategy and war in all cultures and all times Each culture has had its Machiavelli its Sun Tzu its own Mohammed like or Napoleonic figure This encyclopedia ranges across the world to provide entries on every significant military and strategic thinker in human history as well as a number of military cultures covering Chinese Western Indian Islamic and other cultures Each entry supplies a brief biography a synopsis of the writer's theories their success or failure and their impact on other thinkers and military practitioners The unique coverage allows readers to cross cultural barriers and gain access to sources in languages as diverse as Arabic and German and to note key similarities and contrasts The relative importance and contribution of each individual to intellectual progress is noted as is the greater significance of specific schools of thought and debates

Interpreting China's Grand Strategy Michael D. Swaine, Sara A. Daly, Peter W. Greenwood, 2000-03-22 China's continuing rapid economic growth and expanding involvement in global affairs pose major implications for the power structure of the international system To more accurately and fully assess the significance of China's emergence for the United States and the global community it is necessary to gain a more complete understanding of Chinese security thought and behavior This study addresses such questions as What are China's most fundamental national security objectives How has the Chinese state employed force and diplomacy in the pursuit of these objectives over the

centuries What security strategy does China pursue today and how will it evolve in the future The study asserts that Chinese history the behavior of earlier rising powers and the basic structure and logic of international power relations all suggest that although a strong China will likely become more assertive globally this possibility is unlikely to emerge before 2015 2020 at the earliest To handle this situation the study argues that the United States should adopt a policy of realistic engagement with China that combines efforts to pursue cooperation whenever possible to prevent if necessary the acquisition by China of capabilities that would threaten America's core national security interests and to remain prepared to cope with the consequences of a more assertive China *The Chinese Navy: Expanding Capabilities, Evolving Roles* , **Yangtze**

Showdown Brian Izzard, 2015-02-18 Tells the epic tale of the entrapment of HMS Amethyst by the Chinese Communists a good sea story and a look inside the early days of the Cold War Strategy Page The attack on the British frigate Amethyst on the Yangtze River by Chinese Communists in 1949 made world headlines There was even more publicity when the ship made a dramatic escape after being trapped for 101 days Eulogized by the British as an example of outstanding courage and fortitude the Yangtze Incident was even made into a feature film which depicted the ship and her crew as innocent victims of Communist aggression The truth was more complex and so sensitive that the government intended that the files should be closed until 2030 However these have now been released and in making use of these documents this book is the first to tell the full story What emerges is an intriguing tale of intelligence failure military over confidence and a hero with feet of clay it is by no means as heroic as the well publicized official version but every bit as entertaining While the reputations of diplomatic and naval top brass take a knock the bravery and ingenuity of those actively involved shines even more brightly Written with verve and including much new and surprising information this book is both enjoyable and informative A masterly work gripped with tension and it is hard to put down the feat of legends which will forever be celebrated throughout the endless history of the Royal Navy Australian Naval Institute A classic piece of post war naval adventure in a highly readable and well researched manner Scuttlebutt [Encyclopedia of Historians and Historical Writing](#) Kelly

Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *The Cold War* Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991

The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material
