Economic sovereignty and regional policy John Vaizey, 1975 **Industry and Policy in Independent Ireland, 1922-1972** Frank Barry, 2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided

The Economic Development of Ireland in the Twentieth Century Thomas Giblin, Kieran Kennedy, Deirdre McHugh, 2013-01-11 This book examines Irish economic development in the twentieth century compared with other European countries It traces the growth of the Republic's economy from its separation from Britain in the early 1920s through to the present It assesses the factors which encouraged and inhibited economic development and concludes with an appraisal of the country's present state and future prospects

Foreign Direct Investment in the Real and Financial Sector of Industrial Countries Heinz Herrmann, Robert E. Lipsey, 2003-03-19 A collection of papers on the determinants and consequences of foreign direct investment FDI in the real and financial sectors of industrial countries The text sheds new light on the determinants of FDI in particular the role of governmental incentives Another main topic is the role of FDI in the east European accession countries It provides insights into the question of whether EU enlargement will have consequences for capital flows into those countries Since the start of European monetary union the discussion on cross border mergers in the European banking industry has intensified The final part of the book contains contributions to this debate

Spatial

Dynamics of European Integration Manfred M. Fischer, Peter Nijkamp, 2012-12-06 Although it is agreed that the dual development of monetary integration and territorial enlargement are likely to generate profound effects on European spatial structure in both West and East much uncertainty centres around the question of what changes will be brought about This book furthers our economic understanding of the opportunities and challenges offered by these developments The emphasis is primarily on the economic agenda associated with European integration Part A reviews the debate on European monetary unification Economic integration raises many issues one which is dealt in depth is the issue of convergence versus divergence Part B centres around the dynamics of cohesion in the EU and the associated regional policies reflecting on experience from the past and challenges for the future Part C sheds some light on the complexities of transition and integration of Central and Eastern European countries the second major challenge being faced by the EU at the turn of the century *A Bibliography of United Kingdom Politics* Laurence Pollock, 1980 *A London Bibliography of the Social Sciences* British Library of Political and Economic Science, 1931 Vols 1 4 include material to June 1 1929 *Library of Congress Catalogs* Library of Congress, 1978 **Transition and Change in the Mid-West of Ireland** Joyce O'Connor, 1983 *The Economy of Ireland* John William O'Hagan, 1981 **Economic Books**, 1976 *Liste mensuelle d'ouvrages catalogués à la Bibliothèque des Nations Unies* United Nations Library (Geneva, Switzerland), 1976 **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983 *Irish Publishing Record*, 1975 **National Union Catalog**, 1973 Includes entries for maps and atlases *The Economic and Social Review*, 1975 *American Book Publishing Record*, 1975 **Bibliographic Guide to Conference Publications**, 1976 Vols for 1975 include publications cataloged by the Research Libraries of the New York Public Library with additional entries from the Library of Congress MARC tapes **The Widening Gulf** Dennis Kennedy, 1988
