**Sharing Knowledge Making a Difference** World Association for Sustainable Development. International Conference,2011 Information communications technologies ICTs are generally viewed as the new vehicle to redress developmental problems The book assesses the value of such claims by analyzing the structure and workings of the global political economy GPE and its impact on and prospects for developing countries in the current techno economic context The book uses a case study of the Caribbean to illustrate the challenges and opportunities faced by small island developing states SIDS in the new techno economic paradigm The question must be asked can small island developing states such as those of the Caribbean leverage modern ICTs for growth and development against the backdrop of a yawning global digital divide Hence the book addresses the central problem of the digital divide and whether emerging ICTs offer any real economic opportunities for the Caribbean region      Contemporary Tourism Reviews Volume 1 Chris Cooper,2014-11-30 State of the art reviews of sub fields of tourism must have information by experts in their field Every review is a multi dimensional one stop shop of information equipping the reader with all they need to learn about each topic saving valuable research time

*The New Division of Labour* Wolfgang Littek,Tony Charles,2011-05-02 No detailed description available for The New Division of Labour      **Understanding Development** John Rapley,2013-02-01 First published in 1997 An introduction to the theory and practices of development in the third world tracing the evolution of development theory over 40 years and

examining why so many of the benefits of development are still not shared by millions      Finance and Competitiveness in Developing Countries José María Fanelli, Rohinton Medhora, 2002 Using detailed trade and firm level financial data the authors demonstrate for example that while links between finance and competitiveness are strong they are not uniform across sectors and countries This book examines the link between finance and competitiveness at the macro and sectoral levels in seven different countries Argentina Brazil India Indonesia the Philippines South Africa and Tunisia and investigates key international issues such as the evidence of the impact of exchange rate variability on trade patterns in bank lending and trade openness and development      **Development and Structural Change in Asia-Pacific** Martin Andersson, Christer Gunnarsson, 2003-09-02 A consideration of how the Asia Pacific economies have developed since the financial crises the effect of global forces on the national Asian economies and their different development paths as they jointly enter this new phase      Managing Pandemic and Correcting Development Fundamentals Ajitava Raychaudhuri, Arpita Ghose, 2023-05-31 This book discusses the extent and nature of COVID 19 pandemic in India and its effect on the society and economy The suggested management practices discussed here are also not stereotype At the same time it highlights deficiency in development fundamentals in India on several dimensions especially health education quality of public spending taxation orientation external trade involvement across states etc deficiencies which create an inbuilt bottleneck toward the creation of a more equal society While discussing these the book throws light on how they were expectedly exacerbated by the sudden negative shock in the form of COVID 19 pandemic Thus the book has highlighted the COVID pandemic and its response in India in the background of certain less discussed aspects of development fundamentals The contents would be of interest to researchers and students studying socioeconomic aspect of developmental economics and also to policy makers and non government entities involved in mitigating effects of pandemic in the socioeconomic sphere      *Development and Diffusionism* J. Dibia, 2015-12-04 This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities Eurocentric diffusionism played a significant role in the failure of development planning      **The Oxford Handbook of Industrial Hubs and Economic Development** Arkebe Oqubay, Justin Yifu Lin, 2020-07-23 Industrialization supported by industrial hubs has been widely associated with structural transformation and catch up But while the direct economic benefits of industrial hubs are significant their value lies first and foremost in their contribution as incubators of industrialization production and technological capability and innovation The Oxford Handbook of Industrial Hubs and Economic Development adopts an interdisciplinary approach to examine the conceptual underpinnings review empirical evidence of regions and economies and extract pertinent lessons for policy researchers and practitioners on the key drivers of success and failure for industrial hubs This Handbook illustrates the diverse and complex nature of industrial hubs and shows how they promote industrialization economic structural transformation and technological catch up It explores the

implications of emerging issues and trends such as environmental protection and sustainability technological advancement shifts in the global economy and urbanization

**Economics of Agricultural Development** George W. Norton, Jeffrey Alwang, William A. Masters, 2021-08-01 Economics of Agricultural Development examines the causes severity and effects of poverty population growth and malnutrition in developing countries It discusses potential solutions to these problems progress made in many countries in recent years and the implications of globalization for agriculture poverty and the environment Topics covered in the book include Means for utilizing agricultural surpluses to further overall economic development The sustainability of the natural resource environment Gender issues in relation to agriculture and resource use The contribution of improved technologies to agricultural development The importance of agricultural policies and institutions to development and trade Actions to encourage more rapid agricultural and economic development This new edition reflects the following developments Growth in environmental challenges due to climate change Continued progress in agricultural and economic development in many low income countries while other countries and regions are being left behind Continued growth in demand for higher valued farm products This book is essential reading for undergraduate students seeking to understand the economics of agricultural development and the world food system including environmental and human consequences international trade and capital flows It contains a wealth of real world case studies and is accompanied by a website

Economics of Child Labour Biswajit Chatterjee, Runa Ray, 2019-05-31 This book examines the effectiveness of trade and non trade policies to combat the menace of child labour Although it has decreased on the global scale in recent years child labour still remains high particularly in the developing countries Keeping in mind the estimated extent of child labour in different regions around the globe the book offers a detailed critical review of both theoretical and empirical literature on the topic as well as the policies to reduce the incidence of child labour It also develops a general equilibrium model to demonstrate the possible effects of growth promoting non trade policies as opposed to direct trade policies on child labour employment mitigation The book argues that of the non trade policies the introduction of compulsory education appears to be an effective instrument for curtailing the child labour problem when families receive targeted subsidies for sending their children to school It also shows that appropriately designed and targeted education subsidies can reduce the incidence of child labour and that social protection measures such as subsidies on school enrolment also tend to have a positive impact The book not only opens up research topics for academicians but is also a valuable resource for policy makers
