Ecology And Design Frameworks For Learning:

Ecology and design Kristina Hill, 2002 *Teaching Landscape* Karsten Jørgensen, Nilgöl Karadeniz, Elke Mertens, Richard Stiles, 2019-08-30 Teaching Landscape The Studio Experience gathers a range of expert contributions from across the world to collect best practice examples of teaching landscape architecture studios This is the companion volume to The Routledge Handbook of Teaching Landscape in the two part set initiated by the European Council of Landscape Architecture Schools ECLAS Design and planning studio as a form of teaching lies at the core of landscape architecture education They can simulate a professional situation and promote the development of creative solutions based on gaining an understanding of a specific project site or planning area address existing challenges in urban and rural landscapes and often involve interaction with real stakeholders such as municipality representatives residents or activist groups In this way studio based planning and design teaching brings students closer to everyday practice helping to prepare them to create real world problem solving designs This book provides fully illustrated examples of studios from over twenty different schools of landscape architecture worldwide With over 250 full colour images it is an essential resource for instructors and academics across the landscape discipline for the continuously evolving process of discussing and generating improved teaching modes in landscape architecture

Dynamic Patterns Karen M'Closkey, Keith VanDerSys, 2017-03-27 Dynamic Patterns explores the role of patterns in designed landscapes Patterns are inherently relational and the search for and the creation of patterns are endemic to many scientific and artistic endeavors Recent advances in optical tools sensors and computing have expanded our understanding of patterns as a link between natural and cultural realms Looking beyond the surface manifestation of pattern M Closkey and VanDerSys delve into a multifaceted examination that explores new avenues for engagement with patterns using digital media Examining the theoretical implications of pattern making they probe the potential of patterns to conjoin landscape s utilitarian and aesthetic functions With full color throughout and over one hundred and twenty images Dynamic Patterns utilizes work from a wide range of artists and designers to demonstrate how novel modes of visualization have facilitated new ways of seeing patterns and therefore of understanding and designing landscapes

Site Matters Andrea Kahn, Carol J. Burns, 2020-12-21 In the era of the Anthropocene site matters are more pressing than ever Building on the concepts theories and multi disciplinary approaches raised in the first edition this publication strives to address the changes that have taken place over the last 15 years with new material to complement and re position the initial volume Reaching across design disciplines this highly illustrated anthology assembles essays from architects landscape architects urban designers planners historians and artists to explore ways to physically and conceptually engage site Thoughtful discourse and empirically grounded pieces combine to provide the language and theory to contextualize the meanings of site in the built environment The increasingly complex hybridity of constructed environments today demands new tools for thinking about and working with site Drawing contributions from outside and within the traditional design disciplines this

edition will trace important developments in site thinking with new essays on topics such as climate change landscape as infrastructure shifts from global to planetary urbanization debates and the proliferation of participatory site transformation practices Edited by two leading practitioners and academics Site Matters juxtaposes timeless contributions from individuals including Elizabeth Meyer Robert Beauregard and Robin Dripps with original new writings from Peter Marcuse Jane Wolff Neil Brenner and Thaisa Way amongst others to recontextualize and reignite the debate around site An ideal text for students academics and researchers interested in site and design theory

Landscape Performance Bo Yang, 2018-10-26 Ian McHarg's ecological planning approach has been influential since the 20th century However few empirical studies have been conducted to evaluate the performance of his projects Using the framework of landscape performance assessment this book demonstrates the long term benefits of a renowned McHargian project The Woodlands town development through quantitative and qualitative methods Including 44 black and white illustrations Landscape Performance systematically documents the performance benefits of the environmental social and economic aspects of The Woodlands project It delves into McHarg's planning success in The Woodlands in comparison with adjacent Houston developments which demonstrated urban resilience after Hurricane Harvey in 2017 Lastly it identifies the ingredients of McHarg's ability to do real and permanent good Yang also includes a number of appendices which provide valuable information on the methods of assessing performance in landscape development This book would be beneficial to academics and students of landscape architecture and planning with a particular interest in Ian McHarg

Blue Architecture Brook Muller, 2022-05-10 2023 Finalist PROSE Award in Architecture and Urban Planning A guide to water focused and climate resilient architectural and urban design Le Corbusier famously said A house is a machine for living in We now confront the litany of environmental challenges associated with the legacy of the architectural machine a changing climate massive species die off diminished air and water quality and resource scarcities Brook Muller offers an alternative water centric urban design that fosters sustainability equity and architectural creativity Inspired by the vernacular such as the levadas of Madeira Island and both the arid and drenched places of the American West Muller articulates a hydro logical philosophy in which architects and

planners begin by conceptualizing interactions between existing waterways and the spaces they intend to develop From these interactions and the new technologies and approaches enabling them aesthetic spatial and experiential opportunities follow Not content merely to work around sensitive ecology Muller argues for genuinely climate adapted urban landscapes in which buildings act as ecological infrastructure that actually improve watersheds while delivering functionality and beauty for diverse communities Rich in images and practical examples Blue Architecture will change the way we think about our designed world
