Economic Revitalization Cases And Strategies For City And Suburb:

Economic Revitalization Joan Fitzgerald, Nancey Green Leigh, 2002-03-19 In *Economic Revitalization Cases and Strategies for City and Suburb* Fitzgerald and Leigh answer the need for a text that incorporates social justice and sustainability into how we think about and practice economic development. It is one of the first to talk about how revitalization strategies are implemented in both cities and suburbs, particularly inner ring suburbs that are experiencing decline previously associated only with inner city neighborhoods. After setting the context with a brief history of economic development practice and its shortcomings, Fitzgerald and Leigh focus on six economic development strategies: sectoral strategies, Brownfield redevelopment, industrial retention, commercial revitalization, industrial and office property reuse, and workforce development.

Economic Revitalization Joan Fitzgerald (Ph. D.), 2002 This book discusses revitalisation strategies in the context of both city and suburban settings, offering case studies of programme development and implementation.

Economic Revitalization Joan Fitzgerald, Nancey Green Leigh, 2002-03-19 *Economic Revitalization* is unique in that it discusses leading revitalization strategies in the context of both city and suburban settings, offering case studies of program development and implementation. In *Economic Revitalization Cases and Strategies for City and Suburb*, Fitzgerald and Leigh answer the need for a text that incorporates social justice and sustainability into how we think about and practice economic development. It is one of the first to talk about how revitalization strategies are implemented in both cities and suburbs, particularly inner ring suburbs that are experiencing decline previously associated only with inner city neighborhoods. After setting the context with a brief history of economic development practice and its shortcomings, Fitzgerald and Leigh focus on six economic development strategies: sectoral strategies, Brownfield redevelopment, industrial retention, commercial revitalization, industrial and office property reuse, and workforce development. Each of these chapters begins with an overview of the strategy and then presents cases of how it is being implemented. The cases draw from Atlanta, Chicago and its suburbs, Emeryville, Kalamazoo, Louisville, New Haven, Portland, Sandy Springs, and Seattle and suburban King County. They illustrate the tradeoffs often made in achieving one goal at the expense of another. Although they admit that some of the cases come up short in illustrating a more equitable and sustainable economic development practice, Fitzgerald and Leigh conclude with an optimistic view that the field is changing. The book is aimed at students and practitioners of economic development planning who seek to foster stronger economies and greater opportunity in inner cities and older suburbs. It is also meant to assist planners in thriving new towns and suburban communities seeking to avoid future economic decline as their communities mature. *Economic Revitalization* Discusses practice in both suburban and inner city settings. Integrates the planning values of social justice and sustainability into the discussion of implementation strategies. Includes cases that reveal the political nature of the planning process and the types of tradeoffs that often must be made. Provides insights for planners seeking to adopt best practice programs from other localities.

The Oxford Handbook of Urban

Economics and Planning Nancy Brooks, Kieran Donaghy, Gerrit-Jan Knaap, 2012-01-12 This volume embodies a problem driven and theoretically informed approach to bridging frontier research in urban economics and urban regional planning. The authors focus on the interface between these two subdisciplines that have historically had an uneasy relationship. Although economists were among the early contributors to the literature on urban planning many economists have been dismissive of a discipline whose leading scholars frequently favor regulations over market institutions equity over efficiency and normative prescriptions over positive analysis. Planners meanwhile even as they draw upon economic principles often view the work of economists as abstract not sensitive to institutional contexts and communicated in a formal language spoken by few with decision making authority. Not surprisingly papers in the leading economic journals rarely cite clearly pertinent papers in planning journals and vice versa. Despite the historical divergence in perspectives and methods urban economics and urban planning share an intense interest in many topic areas: the nature of cities, the prosperity of urban economies, the efficient provision of urban services, efficient systems of transportation and the proper allocation of land between urban and environmental uses. In bridging this gap the book highlights the best scholarship in planning and economics that address the most pressing urban problems of our day and stimulates further dialog between scholars in urban planning and urban economics. *Economic Development in American Cities* Michael I. J. Bennett, Robert P.

Giloth, 2012-02-01 *Economic Development in American Cities* addresses the roles of municipal leaders and civic partners in promoting social equity by examining the experiences of five American cities in the 1990s: Austin, Cleveland, Rochester, Savannah, and Seattle. These five cities were chosen for their activist municipal administrations, robust policy agendas, and viable partnerships. Contributors familiar with each city evaluate the impact of equity investments and extract lessons for municipal leaders and policy agendas. Building on the past experiences of progressive cities, each case study city offers fresh perspectives and examples told through a rigorous analysis of socioeconomic data and program outcomes combined with engaging stories about specific municipal administrations and policy agendas. **The SAGE Handbook of African**
