Binswanger,Klaus W. Deininger,Gershon Feder,1993 *State Ownership and Labor Redundancy* Patrick Belser,Martín Rama,2001 To predict the number of workers who will lose their jobs if state owned enterprises are privatized or restructured several approaches have been taken drawing on international experience accepting estimates from current directors of state enterprises and inferring the number of redundancies from ad hoc indicators of profitability productivity or labor cost All three approaches may be irrelevant and inferior to systematically comparing employment levels across similar enterprises that differ in the share of capital owned by the state Employees and Corporate Governance Margaret M. Blair,Mark J. Roe,2010-12-01 Most

scholarship on corporate governance in the last two decades has focused on the relationships between shareholders and managers or directors. Neglected in this vast literature is the role of employees in corporate governance. Yet human capital embodied in the employees is rapidly becoming the most important source of value for corporations and outside the United States employees often have a significant formal role in corporate governance. This volume turns the spotlight on the neglected role of employees by analyzing many of the formal and informal ways that employees are actually involved in the governance of corporations in U.S. firms and in large corporations in Germany and Japan. Examining laws and contexts, the essays focus on the framework for understanding employees' role in the firm and the implications for corporate governance. They explore how and why the special legal institutions in German and Japanese firms by which employees are formally involved in corporate governance came into being and the impact these institutions have on firms and on their ability to compete. They also consider theoretical and empirical questions about employee share ownership. The result of a conference at Columbia University, the volume includes essays by Theodor Baums, Margaret M. Blair, David Charny, Greg Dow, Bernd Frick, Ronald J. Gilson, Jeffrey N. Gordon, Nobuhiro Hiwatari, Katharina Pistor, Louis Putterman, Edward B. Rock, Mark J. Roe, and Michael L. Wachter. Margaret M. Blair is a senior fellow in Economic Studies at the Brookings Institution and author of *Ownership and Control: Rethinking Corporate Governance for the Twenty-first Century* (Brookings, 1995). Mark J. Roe is professor of business regulation and director of the Sloan Project on Corporate Governance at Columbia Law School; he is the author of *Strong Managers, Weak Owners: The Political Roots of American Corporate Finance* (Princeton, 1996).

Equal Shares John E. Roemer, 1996. Nice idea but it doesn't work in practice. How often have socialists had this claim thrown back at them? And now, after the events of 1989, many of the Left are openly wondering what a defensible idea of socialism would be. This work addresses this question, taking as its point of departure John Roemer's model of coupon socialism. Roemer's model aims to combine the market with a commitment to equality through a simple yet starkly radical proposal: all citizens would receive an equal number of coupons with which to buy ownership rights, voting dividends in companies. These coupons would constitute a second, separate form of currency but could not be exchanged for ordinary money nor transferred to other people. Not all the contributors to this collection endorse Roemer's working model of market socialism, but they are all stimulated by his foray into a real utopia.

*Producer Cooperatives and Labor-managed Systems* David L. Prychitko, Jaroslav Vanek, 1996. Since 1958, the economic theory of the participatory or labor-managed firm and its performance compared to capitalist firms has exploded into a vast literature comprising several hundred articles. Indeed, as one early contributor has recently remarked, the theory has become a new discipline in itself. *Producer Cooperatives and Labor Managed Systems* provides for the first time a careful selection of the most significant theoretical and empirical
