Educating Beyond Violent Futures:

Educating Beyond Violent Futures Francis P. Hutchinson, 1996 As we enter the Twenty First Century it is easy to assume that worsening trends in violence will be a feature of our lives whether in our schools our societies or as a species Educating Beyond Violent Futures challenges assumptions that trends in violence are destiny and raises crucial questions about choice and engagement Drawing upon new research this book is essential reading for those who want to prepare our children for living constructively in the next century Educating Beyond Violent Futures Francis Hutchinson, 2005-06-27 As we enter the Twenty First Century it is easy to assume that worsening trends in violence will be a feature of our lives whether in our schools our societies or as a species Educating Beyond Violent Futures challenges assumptions that trends in violence are destiny and raises crucial questions about choice and engagement Drawing upon new research this book is essential reading for those who want to prepare our children for living constructively in the next century Futures Beyond Dystopia Richard Slaughter, 2004 How can dystopian futures help provide the motivation to change the ways we operate day to day This book raises and tackles a number of important questions about the future and the lessons we can learn for the present *Peace Education in a Postmodern World* Ian M. Harris, 2013-12-16 This special issue of the Peabody Journal of Education provides a comprehensive overview of the latest developments in peace education reform School reforms based upon principles of peace education have in common a belief in the power of peace to create a positive learning climate in schools and to address the problems of violence in the broader culture A peace education strategy for improving school productivity rests upon three main assumptions 1 Violence contributes to the poor performance of many students 2 Adults in school settings need to address problems created by violence in order for schools to improve 3 Anxieties that make it hard for students to master traditional subject matter can best be addressed by a comprehensive peace education strategy that makes school a safe place to learn and provides students with knowledge about alternative nonviolent ways to resolve conflicts Peace building reforms go beyond responding to immediate forms of violence that may be overwhelming students and teachers to promoting positive images of peace through the study of nonviolence Written by established experts in the field of peace education from six different countries this collection of articles not only represents a wide variety of peace education practices from different corners of the globe but it also represents varying academic perspectives Educators can play a key role in helping human societies progress toward more sustainable ways of living by implementing peacemaking peacekeeping and peace building strategies in school programs Peace education reforms point to a new way of thinking about schools as vehicles for promoting a peace culture through insights offered by nonviolent theory **Futures Education** David Hicks, Richard Slaughter, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company

Youth Futures Jennifer Gidley, Sohail Inayatullah, 2002-08-30 How do young people see the future Are they optimistic or pessimistic Do their views vary from culture to culture Are young people actively engaged in creating their desired futures or

are they passively receiving the future What effect has globalization on youth culture How is the future taught in schools These and many other questions are dealt with in this volume of comparative empirical research from around the world on how youth see the future Generally youth are considered immature irresponsible toward the future cliquish impressionistic and dangerous toward self and others They are considered as a mass market two billion strong the passive recipients of globalization Most recently in OECD nations youth have become fodder for political speeches they are the problem that reflects both the failure of the welfare state dependence on the state the failure of globalization unemployment and postmodernism loss of meaning and the crisis of the spirit In the Third World youth are seen not only as the problem but equally as the force that can topple a regime as in Yugoslavia However youth can also be seen as carriers of a new worldview a new ideology These and other views concerning youth are examined in this volume of comparative empirical research Studies from around the world provide intriguing answers to questions about how youth see the future and their future roles This book will be of particular interest to scholars students researchers and policymakers involved with youth issues and future studies

Intergenerational Education for Adolescents towards Liveable Futures David Lloyd, Kathryn Paige, Richard Smith, 2019-06-13 This volume will provide eco socially oriented science and environmental educators with a diverse set of examples of how science and environmental learning for students and their co learner teachers can be enacted in ways which contribute to their understanding of commitment to and capabilities towards living for a more eco socially just and therefore more sustainable world Science and environmental learning is set within a challenging framework one that entails critical transdisciplinary learning and acting and values all the human and other than human beings sharing Earth s rich but finite resources The text asserts that ethical contemporary science and environmental education which practitioners might find within science technology engineering and mathematics STEM will have at centre stage not merely more factual knowledge but also the development of learners affect and behaviour towards acting for eco social justice This will demand that learners more fully appreciate not only the necessity to transition swiftly to living within planetary boundaries but also the requirements of ethical living that humans share health and well being more equally with their own and all other species Further the book proposes that eco socially responsible science and environmental education must be set within a transdisciplinary and integral framework one in which curriculum and pedagogy are embedded in everyday practice In this transition project from unsustainable inequities to eco social justice teachers and community leaders need to work with their students citizens in envisioning preferable futures and developing shared knowledge values dispositions courage and capabilities to work towards such futures and in genuine attempts at affecting them

The Precarious Future of Education Jan Jagodzinski, 2016-11-30 This volume examines the challenges weighing on the future of education in the face of globalization in the twenty first century Bringing together eleven authors who explore the paradox of an after to the future of education each chapter in this book targets three important areas ecology as understood in the broader framework of
