Educating for Leisure-centered Living Charles Kestner Brightbill, 1966 **Leisure Education: A Cross-National View** Atara Sivan, Robert A. Stebbins, 2016-04-08 Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself Everywhere in the modern world the most effective use of free time for individuals comes with knowing about the many leisure activities available to them and the rewards and costs that accompany their interest in each It is through leisure education in one form or another that they gain such knowledge Yet as important as this educational process is its study is only beginning to take off in non Western societies where however it cannot be assumed to be the same as in the West This book contains several comparisons of Western and non Western practices in leisure education Knowing these practices contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do This book was based on a special issue published in the World Leisure Journal **Handbook of Implementation Science for Psychology in Education** Barbara Kelly, Daniel F. Perkins, 2012-08-20 Implementation science is the science of the effectiveness of research for real world practitioners This book is an indispensable highly innovative and evidence based resource aimed at utilizing research in psychology to improve all aspects of education from individual teaching programs to organizational development It addresses the widespread confusion and disappointment about the lack of effectiveness of real world psychology and provides twenty seven chapters offering proven policies strategies and approaches for designing supporting and improving interventions in schools Collectively the chapters go beyond the realm of psychology and education tackling concerns about how to promote positive change in any context covering topics from epistemology through statistics to examples of implementation approaches frameworks and protocols This book creates an immensely relevant body of information and evidence for any practitioner or organization facing the challenges of change Essential reading for practitioners policy makers stakeholders and funders in psychology education and beyond *Leisure, Toward a Theory and Policy* Hillel Ruskin, 1984 Participants at an international conference on leisure contribute to this multidisciplinary volume which seeks better public policy decision making on the problems generated by the abundance of leisure in advanced technological societies *Resources in Education*, 1994 **Quality of Life: Application to persons with disabilities** Robert L.
