Educating Our 21st Century Adventurers:

Educating Our 21st Century Adventurers Phillip B.B. Moheno, 1996-03-19 This book studies the humanistic teaching values and corresponding humanistic teaching activities among secondary math and science student teachers. It describes the successful field test of a unique classroom observation instrument, an instrument that makes use of vital constructs from Information Theory and Interactional Analysis. The book sets forth the three-stage empirical validation of the Humanistic Educational Paradigm. The study identifies those classroom interactional patterns which reflect the growing pedagogical interest of Social Constructivism. **Educating Our 21st Century Adventurers** will interest all educators seeking to understand and implement humanistic education and grasp its significance for our schools in the coming century. **Home Education**

Masterclass: Geography Adventures Nicole Young, Welcome to Home Education Masterclass Geography Adventures. This book is your guide to transforming geography from a dry textbook subject into an exciting journey of discovery for your homeschooling students. We believe that learning should be engaging, hands-on, and fun, and this curriculum reflects that belief. Forget rote memorization and passive learning; we're diving into the heart of experiential education using maps, cultural immersion, and interactive projects to create a rich and rewarding learning experience. Inside, you will find detailed lessons exploring continents, countries, and diverse ecosystems. We will develop essential map skills from basic cartography to interpreting complex data. You will delve into the cultures of various regions, learning about their traditions, food, clothing, and daily life. We'll simulate explorations, conducting virtual field trips and engaging in hands-on activities designed to cater to diverse learning styles. Whether your child is a visual, auditory, kinesthetic, or reading/writing learner, this curriculum offers strategies to ensure their engagement and understanding. The assessment methods presented move beyond traditional tests, suggesting portfolio assessments, project-based evaluations, and observation techniques to gain a holistic view of the child's progress and comprehension. This isn't just about memorizing facts; it's about cultivating a deep appreciation for the world's diverse landscapes, cultures, and environments. Prepare to embark on a memorable adventure with your students, fostering a love for geography that will last a lifetime. Let's begin exploring. **Adventurous Learning** Simon Beames, Mike

Brown, 2016-01-22 **Adventurous Learning** interrogates the word 'adventure' and explores how elements of authenticity, agency, uncertainty, and mastery can be incorporated into educational practices. It outlines key elements for a pedagogy of adventurous learning and provides guidelines grounded in accessible theory. Teachers of all kinds can adapt these guidelines for indoor and outdoor teaching in their own culturally specific, place-responsive contexts without any requirement to learn a new program or buy an educational gimmick. As forces of standardization and regulation continue to pervade educational systems across the globe, both teaching and learning have been starved of creativity, choice, and real-world relevance. Many teachers are keen to improve their practice yet feel constrained by the institutional structures within which they work. By carefully examining adventure and its role in education, teachers can become better able to design and deliver engaging

programmes that are underpinned by sound pedagogical principles and which have deep and enduring meaning for their students

Competency-Based Teacher Education for English as a Foreign Language Amber Yayin Wang, 2021-11-25

Providing a series of chapters written by teacher educators in three continents, this edited volume explores the concepts, challenges, possibilities, and implementations of competency-based instruction for developing English competencies in English as a foreign language (EFL) contexts. Recent trends in education have emphasized the need to develop competencies that connect learning with real-life performances. This need has brought about a massive increase in the number of studies and scholarly works devoted to research into competency-based education. However, for teachers and learners of EFL, it is challenging to develop competencies for using a language that does not seem to connect with their real-life scenarios. The chapters apply the concept of competency-based instruction in different EFL contexts and are structured

around three themes Theory current thoughts on theories of competency based education Research empirical research on competency based teacher education Practice integrating competency based instruction into teacher education This book offers examples of competency based EFL teacher education through both research and practical applications In addition to the innovation in competency approaches the inclusion of language learning in virtual environments offers a valuable resource for scholars educators researchers and all those concerned with current and future education **Towards the**
