Education for Modern Man Sidney Hook, 1946 *Educational Philosophy* Edward J. Power, 2021-12-12 The first step in education s long road to respectability lay in the ability of its proponents to demonstrate that it was worthy of collaborating with traditional disciplines in the syllabus of higher learning The universities where the infant discipline of education was promoted benefited from scholars who engaged in teaching and research with enthusiasm and preached the gospel of scientific education These schools Teachers College Columbia University the University of Chicago and Stanford University gained a reputation as oases of pedagogical knowledge Soon public and private colleges alike introduced professional academic programs for the preparation of teachers Foremost among the subjects for these programs was education philosophy with its long history and the impeccable credentials of its ancient and modern expositors Although the principal focus of this study is the history of educational philosophy in colleges and universities it also recognizes educational philosophy s antecedents Chapters cover ancient roots Christian educational theory educational theory and the modern world philosophy and education in early America development of philosophies of education disciplinary maturity for educational philosophy and prospects There is a bibliography and an index *Crisis in the Academy* Christopher J. The Disputed Legacy of Sidney Hook Gary Bullert, 2022-02-16 The Disputed Legacy of Sidney Hook examines the sixty-year career of one of the foremost public intellectuals in the United States. Sidney Hook's convictions were widely disseminated through books, academic journals, newspapers, articles, lectures, and several organizations that he founded. Hook's legacies include being a leading Marxist-Leninist scholar, his long-standing commitment to secular humanism, his legacy as a legendary polemicist, his cultural conservatism (if not neoconservatism) and his defense of democracy, and John Dewey's pragmatic and Cold War liberalism. Bullert concludes that Hook's core philosophy is best typified by his Deweyan pragmatism, vigilant anti-communism, and secular humanism.

Children, 1964 **New Perspectives in Philosophy of Education** David Lewin, Alexandre Guilherme, Morgan White, 2014-10-23 New Perspectives in Philosophy of Education seeks to build a bridge between philosophical reflection and socio-political action by developing a range of critical discussions in the areas of ethics, politics, and religion. This volume brings together established authorities and a new generation of scholars to ask whether philosophy of education can contribute to political and social discourse or whether it is destined to remain the marginal gadfly of mainstream ideology. The philosophy of education stands in danger of becoming a neglected field at precisely the moment we need to be able to reflect upon the increasingly apparent costs of the technocratic attitude to education. While many of the educational policy discussions of recent years seem far-reaching and radical, critical debate surrounding these initiatives remains largely at a populist level. New Perspectives in Philosophy of Education provides contemporary responses to philosophical issues that bear upon educational studies, policies, and practices contributing to the debate on the role of philosophy of education in an increasingly fractured intellectual milieu.

These letters, drawn from the Hook collection at the Hoover Institution, provide an insight into US intellectual and political history.
