Reshaping Theory in Contemporary Social Work William Borden, 2009-11-05 William Borden's persuasive collection of original essays reaffirms the place of theory in social work practice showing how different theoretical models, therapeutic languages and modes of intervention strengthen eclectic and integrative approaches to psychosocial intervention. A distinguished group of scholars and practitioners examine emerging developments in cognitive theory, psychodynamic thought, resilience research and family therapy, psychobiography and narrative perspectives and conceptions of place and environment in psychosocial intervention. They introduce integrative frameworks for intervention and examine a series of crucial issues in the field including the role of theory in evidence based practice, the development of practice wisdom and the ways in which conceptions of love, acceptance and social justice influence theorizing and practice. The contributors to this volume each one carefully selected reaffirm the framing perspectives and core values of the social work profession and identify fundamental challenges and tasks in developing theory and practice. Exploring contemporary yet no less essential concerns, they reflect the richness and creativity of theorizing in our time. **A Introduction to Teaching Casework Skills**

Jean S. Heywood, 2013-07-04 First published in 1998. This is Volume VI of twenty two in the Sociology of Social Theory and Methodology series. Written in 1964, this is seen as the first study on the teaching of casework skill to be published in this country. It conveys vividly the accepted precepts and principles of casework practice and conveys them simply. Throughout, she has drawn attention to the inter-related processes of study, diagnosis and treatment and has laid stress on the importance of understanding the mechanisms of defence which she rightly considers basic to casework skill. **Social Work Theories in**

Illusions of a Future Kate Schechter,2014-08-20 A pioneering ethnography of psychoanalysis *Illusions of a Future* explores the political economy of private therapeutic labor within industrialized medicine Focusing on psychoanalysis in Chicago a historically important location in the development and institutionalization of psychoanalysis in the United States Kate Schechter examines the nexus of theory practice and institutional form in the original instituting of psychoanalysis its normalization and now its crisis She describes how contemporary analysts struggle to maintain conceptions of themselves as capable of deciding what psychoanalysis is and how to regulate it in order to prevail over market demands for the efficiency and standardization of mental health treatments In the process Schechter shows how deeply imbricated the analyst patient relationship is in this effort Since the mid twentieth century the real relationship between analyst and patient is no longer the unremarked background of analysis but its very site Psychoanalysts seek to validate the centrality of this relationship with theory and through codified standards to claim it as a privileged technique It has become the means by which psychoanalysts in seeking to protect their disciplinary autonomy have unwittingly bound themselves to a neoliberal discourse of regulation
