A.I.D. Research and Development Abstracts, 1977 **Locked Out of Development** Steffen Hertog, 2023-01-19 This Element argues that the low dynamism of low to mid income Arab economies is explained with a set of inter connected factors constituting a segmented market economy These include an over committed and interventionist state with limited fiscal and institutional resources deep insider outsider divides among firms and workers that result from and reinforce wide ranging state intervention and an equilibrium of low skills and low productivity that results from and reinforces insider outsider divides These mutually reinforcing features undermine encompassing cooperation between state
