Education Class Language And Ideology:

Education, Class Language and Ideology (RLE Edu L) Noelle Bissieret, 2012-05-04 This book presents an analysis of the essentialist ideology which is inherent to class based societies The author argues that essentialist ideology is efficient through its unconscious component and is imposed on everyone It guides school selection and imposes on each class a language specific in its reference to concrete domination relations It even unbalances the scientific objectivity of researchers in the social sciences not only among those who abide by the theory of natural aptitudes but also among its sharpest critics such as Basil Bernstein Pierre Bourdieu and J C Passeron whose work is considered in this book **The Study of**

Education Peter Gordon, 2019-05-20 The inaugural lectures published in this volume reflect the many changes which have taken place in the study of education between the late 1970s and the mid 1980s Changes in society are reflected in the lectures on special needs education and multicultural education and the contributions of educational administration and comparative educations as a field of study **Language, Structure and Reproduction (Routledge Revivals)** Paul

Atkinson, 2014-06-17 Basil Bernstein is one of the most creative and influential of contemporary British sociologists yet his work especially that relating to language and social structure is widely misunderstood and misrepresented This book first published in 1985 addresses the underlying themes and continuities in Bernstein s work and portrays him as a sociologist in the Durkheimian tradition This reissue will be of particular value to students interested in the sociology of education language and society anthropological linguistics and communication studies Education and Power Michael W.

Apple, 2013-10-31 In his seminal volume first published in 1982 Michael Apple articulates his theory on educational institutions and the reproduction of unequal power relations and provides a thorough examination of the ways in which race gender class dynamics are embedded in and reflected through curricular issues This second edition contains a re examination of earlier arguments as well as reflections on recent changes in education *Teachers and Classes* Kevin Harris, 2017-05-08 In this study first published in 1982 the author draws on his considerable experience at all levels in the school system to present a radical Marxist critique of that structure He argues that the schooling process within contemporary corporate capitalism is inimical to education while true education in turn is inimical to capitalism He argues further that teachers who are participants in ongoing class struggle can begin to be concerned primarily with education only when they perform the function of the collective labourer This title will be of interest to students of education and sociology
