Pursuing Instructional Effectiveness in Higher Education Edwin George Ralph,2004 The title of this book has two meanings One meaning expresses a sense of relief that during the last several years post secondary institutions have begun to pay serious attention to the enhancement of instruction on their campuses There has been an emergence of new organisations associations conferences seminars and workshops a proliferation of books journals and articles an expansion of research and investigative inquiry and a growth of interest among post secondary faculty members and administrators all of which are devoted to various aspects of the improvement of both teaching and learning at the undergraduate level These initiatives have combined to furnish undeniable evidence attesting to the pursuit of better teaching and learning in higher education Increasing numbers of post secondary educators students and tax payers at large not only welcome wholeheartedly this new emphasis and as suggested by the last clause in the title they feel it has been long overdue A second interpretation of the title and the one which is a key theme of this book emphasises the substantive concept of the use and management of time and timing as an integral component of effective instruction From the Introduction

Understanding Teacher Stress in an Age of Accountability Richard Lambert, Christopher McCarthy, 2006-03-01 School districts today face increasing calls for accountability during a time when budgets are stretched and students needs have become increasingly complex The teacher s responsibility is to educate younger people but now more than ever teachers face demands on a variety of fronts In addition to teaching academic content schools are responsible for students performance on state wide tests They are also asked to play an increasingly larger role in children s well being including their nutritional needs and social and emotional welfare Teachers have shown themselves to be more than capable of taking up such challenges but what price is paid for the increasing demands we are placing on our schools Understanding Teacher Stress in an Age of Accountability is about the nature of teachers stress and the resources they can employ to cope with it Accountability is a two way street and the authors in this volume suggest remedies for reducing teacher stress and in all likelihood increasing student learning greater administrative support more and better instructional materials specialized resources targeted at demanding children parental support and professional recognition Readers will discover that lack of funding low pay

concerns about academic performance and student misbehavior and increased public and governmental scrutiny are not exclusive to the United States In this volume the third in a series on Research on Stress and Coping in Education authors from Australia Turkey Malaysia and the Netherlands sound the same alarms post the same warnings and draw similarly disturbing conclusions
