School Choice In The Real World Robert Maranto, 2018-04-27. This book presents the first published accounts and evaluations of the first free market in education in the U.S.: Arizona charter schools. The charter school is fast becoming one of the most significant attempts at public education reform in this country. Over 1100 charter schools operate in twenty-seven states with several hundred more to be added in the next two years. *School Choice in the Real World* looks at the charter school movement through a highly focused lens; it examines charter schools in Arizona which currently account for nearly one quarter of all charter schools. Using this state as a case study, the editors examine the experiences of actual charter school operators, social scientific analysis, policy discussions, and criticism, and forecasting for the future. School choice is the most talked-about reform of American public education, yet writings about choice remain highly speculative because no state has adopted a free market approach to education until now. The charter school is fast becoming one of the most significant attempts at public education reform in this country. Over 1100 charter schools operate in twenty-seven states with several hundred more to be added in the next two years. *School Choice in the Real World* looks at the charter school movement through a highly focused lens; it examines charter schools in Arizona which currently account for nearly one quarter of all charter schools. Since 1994, Arizona has implemented a charter school law with the lowest barriers to entry in the nation. As a result, Arizona has more than 200 charter school campuses. Some districts have even lost more than 10% of their students to charter schools. Using the state of Arizona as a case study, the editors examine the experiences of actual charter school operators, social scientific analysis, policy discussions, and criticism, and forecasting for the future. The editors bring together academics, policy makers, and practitioners and they explain and evaluate how school choice works in the real world.

Choosing Equality Joseph Viteritti, 2012-01-01. America is now in the second generation of debate on school choice. The first was prompted by the provocative voucher proposal conceived by Milton Friedman in 1955 and brought into the mainstream by Chubb and Moe's seminal book *Politics, Markets, and American Schools* (Brookings, 1990). It introduced a pure market model in which schools would be publicly

financed but privately operated While opponents continue to contend that choice will lead to the demise of public education the weakening of civil society and the fostering of separate and unequal systems of education Joseph P Viteritti argues that these long held assertions must give way to present realities The rich and diverse experience we have had with magnet schools controlled choice inter district choice charter schools privately funded vouchers and public vouchers in Milwaukee and Cleveland provides a solid basis for crafting a choice policy that enhances the educational opportunities of children whose needs are not being met by the present system of public education Drawing on his background as a political scientist legal scholar and education practitioner Viteritti starts his book with the promise articulated in the landmark Brown decision of 1954 After reviewing a variety of policy initiatives enacted to promote educational opportunity he finds that the nation has fallen short of providing decent schooling for its most disadvantaged children and in so doing has delayed the movement toward social and political equality Viteritti does not contend that choice in the form of charter schools or vouchers for the poor is a solution to racial inequality but he believes that these forms of choice can move the country in the proper direction He insists that the nation cannot pretend to have a serious commitment to the goal of educational equality as long as choice is available only to those with the private means to afford it

The Urban School System of the Future Andy Smarick,2012-10-12 For more than two generations the traditional urban school system the district has utterly failed to do its job prepare its students for a lifetime of success Millions and millions of boys and girls have suffered the grievous consequences The district is irreparably broken For the sake of today s and tomorrow s inner city kids it must be replaced The Urban School System of the Future argues that vastly better results can be realized through the creation of a new type of organization that properly manages a city s portfolio of schools using the revolutionary principles of chartering It will ensure that new schools are regularly created that great schools are expanded and replicated that persistently failing schools are closed and that families have access to an array of high quality options This new entity will focus exclusively on school performance meaning among other things our cities can thoughtfully integrate their traditional public charter public and private schools into a single high functioning k 12 system For decades the district has produced the most heartbreaking results for already at risk kids The Urban School System of the Future explains how we can finally turn the tide and create dynamic responsive high performing self improving urban school systems that fulfill the promise of public education

Handbook of Research in Education Finance and Policy Helen F. Ladd,Edward B. Fiske,2012-08-21 Sponsored by the Association for Education Finance and Policy AEFPP this groundbreaking new handbook assembles in one place the existing research based knowledge in education finance and policy thereby helping to define this evolving field of research and practice It provides a readily available resource for anyone seriously involved in education finance and policy in the United States and around the world The Handbook traces the evolution of the field from its initial focus on school inputs and the revenue sources used to finance these inputs to a focus on educational outcomes and the larger policies used to achieve them It shows how the current decision making context in school finance inevitably interacts with those of governance accountability equity privatization and other areas of education policy Because a full understanding of the important contemporary issues requires input from a variety of perspectives the Handbook draws on contributors from a variety of disciplines While many of the chapters cover complex state of the art empirical research the authors explain key concepts in language that non specialists can understand

Education Savings Accounts Nat Malkus,Adam Peshek,Gerard Robinson,2017-03-16 School choice has been central to American education policy debate for a quarter century But

throughout school choice has been just that school choice In a potentially profound development Education Savings Accounts ESAs reimagine parent choice in ways that may upend many assumptions that have framed issues of school choice in the past ESAs offer something wholly new allowing parents to customize their child s education by stitching together traditional schools and different education providers including tutors therapists online and blended models Of course a raft of new questions and potential challenges accompany these new ESA programs which in 2015 existed in five states Arizona Florida Mississippi Nevada and Tennessee and were introduced by legislators in another sixteen Yet for all their potential import ESAs are barely understood This volume seeks to provide a comprehensive fair minded treatment of ESAs and will address the rationale for them the challenges they pose what it takes for them to work and the political and legal dynamics at play
