Sand, 2019-10-01 As you watch the pro players compete every once in a while you will see an unusual shot It is so unusual that you have to replay the shot in your memory to understand what happened This book is a collection of those shots that have occurred during international competitions For each shot there are two table layouts The first is the ball positions on

the table The second is how the pro player made the point There are two ways you can use these examples First as a mental exercise Study the ball layout and the ball paths to determine how the shot was played Second as a table exercise Set the balls up in the positions Try to duplicate the shot It may take only a few attempts or a lot before you learn how to consistently score the point You will do a lot of experimentation with different speeds and spins The result will be a better understanding on how to play similar shots during your competitions Enjoy the learning process and good luck Pursuit of Pattern
