Functional Approaches to Language, Culture and Cognition David G. Lockwood, Peter H. Fries, James E.

Copeland, 2000-03-15 This volume contains functional approaches to the description of language and culture and language and cultural change. The approaches taken by the authors range from cognitive approaches including Stratificational grammar to more socially oriented ones including Systemic Functional linguistics. The volume is organized into two sections. The first section, Functional Approaches to the Structure of Language Theory and Practice, starts with contributions developing a Stratificational model; these are followed by contributions focusing on some related functional model of language and by articles describing some particular set of language phenomena. In the second section, Functional Approaches to the History of Language and Linguistics, general studies of language change are addressed first, a second group of contributions examines language change, lexicon and culture, and the last cluster of contributions treats the history of linguistics and culture.

Relations and Functions within and around Language David Lockwood, Michael Cummings, Peter Fries, William Spruiell, 2005-05-01 Currently there is a movement in linguistics towards careful use of corpora in linguistic and text analysis which has involved both written and spoken corpora and those which combine spoken and written text. Most text analyses address written texts, often literary works, but detailed discussion of the language of a single oral text from multiple perspectives has rarely been published. This book is among the first to integrate the analysis of the language of spoken and written texts. It describes language as a network of functional relations involving a context which is also a network of functional relations. The essays in Part One present several perspectives on the theory of language as functional relations; those in Part Two discuss a single oral text using a variety of functional perspectives. All of the essays are by linguists interested in oral and written texts who have achieved international recognition in their fields. Illustrated in this book are cognitive, social construction, social praxis and anthropological approaches to the description of

Functional Approaches to Language Shannon Bischoff,Carmen Jany,2013-10-29

Functionalism as characterized by Allen 2007 254 holds that linguistic structures can only be understood and explained with reference to the semantic and communicative functions of language whose primary function is to be a vehicle for social interaction among human beings Since the 1970s inspired by the work of Jespersen Bolinger Dik Halliday and Chafe functionalism has been attached to a variety of movements and models making major contributions to linguistic theory and to various subfields within linguistics such as syntax discourse language acquisition cognitive linguistics typology and documentary linguistics Further functional approaches have had a major impact outside linguistics in fields such as psychology and education both in terms of theory and application The main goal of functionalist approaches is to clarify the dynamic relationship between form and function Thompson 2003 53 Functionalist perspectives have gained more ground over the past decades with more linguists resorting to functional explanations to account for linguistic structure The authors in this volume present the current state of functional approaches to linguistic inquiry expanding our knowledge of language and linguistics

Ethnosyntax : Explorations in Grammar and Culture N. J. Enfield,2002-07-04 This book provides a fresh and original approach to the ethnosyntax concept the proposition that the

grammar of a language is intimately linked to the culture of its speakers It focuses on three related questions how far culture accounts for linguistic variation how culture and grammar are connected and to what extent one may constitute the other It looks for example at the ways in which grammatical including semantic resources may be constrained by social values and at the possible sociocultural significance of grammatical devices The chapters add up to an important and timely contribution to the renewed debate among linguists and anthropologists on the relationship between grammar culture and cognition The authors represent a wide range of research traditions some of which have not until now explicitly addressed the grammar and culture issue They consider the subject in the context of a wide range of cultures in North America Europe and Australasia The clarity and accessibility of their writing together with Dr Enfield's introduction to the field make this not only a work of original value and impeccable scholarship but an excellent modern textbook on a subject of enduring fascination in linguistics and anthropology

Divine Metaphors in Selected Hebrew Psalms of Lamentation Alec Basson, 2006 In this book Alec Basson examines the divine metaphors in a selection of biblical Hebrew Psalms of Lamentation from a cognitive anthropological perspective The study signals a move beyond the more traditional approaches to the Psalms and argues that the textual information in these poems is more than literary information as such it is also a cognitive representation of the psalmist's world The divine portrayals arise from the supplicant's cognitive organisation and utilisation of cultural information which include the everyday experiences In situations of affliction the poet employs various cognitive strategies viz cultural models image schemas and conceptual metaphors as a means of portraying the deity The exploration illustrates the link between the psalmist's cultural experience cognitive construal of reality and the metaphorical representations The utilisation of the different cognitive tools gives rise to new and recurring images of the deity and accounts for the multiple depictions of Yahweh The investigation arrives at the conclusion that to appreciate fully the divine metaphors used in the Psalms of Lamentation one has to examine the cognitive world of the poet
