**Ethnobotany and Medicinal Plants** Susan A. McCarthy,1992      *Primitive Economics of the New Zealand Maori* (Routledge Revivals) Raymond Firth,2012-11-12 First published in 1929 Raymond Firth s original and insightful study offers an incredibly detailed account of the social and economic organisation of the Maori people before their contact with Western civilisation Bridging the gap between anthropology and economics the work covers the class structure land system industry methods of co operative labour exchange and distribution and the psychological foundations of Maori society This reissue will be welcomed by all students of anthropology and anyone interested the history of the Maori people      The Bradley Bibliography: Arboriculture-economic properties of woody plants Alfred Rehder,1915      Plants, People, and Culture Michael J Balick,Paul Alan Cox,2020-08-19 Is it possible that plants have shaped the very trajectory of human cultures Using riveting stories of fieldwork in remote villages two of the world s leading ethnobotanists argue that our past and our future are deeply intertwined with plants Creating massive sea craft from plants indigenous shipwrights spurred the navigation of the world s oceans Today indigenous agricultural innovations continue to feed clothe and heal the world s population One out of four prescription drugs for example were discovered from plants used by traditional healers Objects as common as baskets for winnowing or wooden boxes to store feathers were ornamented with traditional designs demonstrating the human ability to understand our environment and to perceive the cosmos Throughout the world the human body has been used as the ultimate canvas for plant based adornment as well as indelible design using tattoo inks Plants also garnered religious significance both as offerings to the gods and as a doorway into the other world Indigenous claims that plants themselves are sacred is leading to a startling reformulation of conservation The authors argue that conservation goals can best be achieved by learning from rather than opposing indigenous peoples and their beliefs **KEY FEATURES** An engrossing narrative that invites the reader to personally engage with the relationship between plants people and culture Full color illustrations throughout including many original photographs captured by the authors during fieldwork New to this edition Plants That Harm a chapter that examines the dangers of poisonous plants and the promise that their study holds for novel treatments for some of our most serious diseases including Alzheimer s and substance addiction Additional readings at the end of each chapter to encourage further exploration Boxed features on selected topics that offer further insight Provocative questions to facilitate group discussion Designed for the college classroom as well as for lay readers this update of *Plants People and Culture* entices the reader with firsthand stories of fieldwork spectacular illustrations and a deep respect for both indigenous

peoples and the earth's natural heritage      Primitive Economics of the New Zealand Maori Raymond Firth, 1929 Copy in Mahi M reikura on loan from the whanau of Maharaia Winiata Pages annotated underlined front covers missing bookmarks at pages xv xvii 123 327 473 493 Bookmarks include a booklet titled Great is thy faithfulness by Clara Waterson being An account of just a few of the wonderful dealings of God with His servant Clara Waterson and a one page sheet titled Seminar on Maori affairs      *Economics of Regulation in Agriculture* Floor Brouwer, 2012 This work debates and investigates the

cross compliance system whereby farmers comply with certain standards relating to the environment food safety and animal and plant health The book discusses cross compliance in the context of existing standards on farm costs and the competitiveness of farm businesses Analysing the economics of regulation both within the internal market of the EU and the broader world market by examining a broad range of agricultural products This resource will be of value to agriculture and resource economists policy makers researchers and students in environment      **Contributions to New Zealand Botany**

William Lauder Lindsay, 1868      **The Social Life of Materials** Adam Drazin, Susanne Kuchler, 2020-06-08 Materials play a central role in society Beyond the physical and chemical properties of materials their cultural properties have often been overlooked in anthropological studies finished products have been perceived as social yet the materials which comprise them are considered raw or natural The Social Life of Materials proposes a new perspective in this interdisciplinary field Diverting attention from the consumption of objects the book looks towards the properties of materials and how these exist through many transformations in a variety of cultural contexts Human societies have always worked with materials However the customs and traditions surrounding this differ according to the place the time and the material itself Whether or not the material is man made materials are defined by social intervention Today these constitute one of the most exciting areas of global scientific research and innovation harboring the potential to act as key vehicles of change in the world But this materials revolution has complex social implications Smart materials are designed to anticipate our actions and needs yet we are increasingly unable to apprehend the composite materials which comprise new products Bringing together ethnographic studies of cultures from around the world this collection explores the significance of materials by moving beyond questions of what may be created from them Instead the text argues that the materials themselves represent a shifting ground around which relationships identities and powers are constantly formed and dissolved in the act of making and remaking      *New Zealand Journal of Crop and Horticultural Science/Experimental Agriculture* , 1992      *Quick Bibliography Series* , 1976

**Journal of the Royal Society of New Zealand ,1986-03      Healing Our History 3rd Edition Robert**

Consedine,Joanna Consedine,2012-03-28 A powerful and humane book Healing Our History eschews rhetoric and cuts to the true story of race relations in New Zealand The Treaty of Waitangi is the most important document in New Zealand s history Current Treaty issues and Maori Pakeha relationships can only be understood within the wider story of New Zealand As we understand and honour our history we can acknowledge the need for restoration healing and right relationships The public response to previous editions of this bestselling book by Robert Consedine and his daughter Joanna Consedine has been strong and overwhelmingly positive This 2012 edition updates and expands on the critical issues the foreshore and seabed debate Maori access to political power and the emergence of the Maori Party the remarkable growth of the Maori economy self determination Maori language and the developments in Maori education constitutional issues and the benefits of the Treaty settlement process New Zealand and all New Zealanders have much to celebrate and many challenges ahead Drawing on Robert s unique experience as a leading Treaty educator the powerful message of this book illustrates how each and every New Zealander across all cultures can discover a new sense of personal and national identity grounded in an authentic Treaty relationship This is one of those books New Zealand needs Michael King Based on years of Treaty work experience this book is essential reading Claudia Orange
