Economics And Contemporary Asia:

The Rise of Asia Frank B. Tipton, 1998-05-29 The shifting balance of economic power away from Western Europe and the United States and towards East and Southeast Asia firstly Japan then the small Tiger economies and now the larger nations of Southeast Asia and China the potential Dragons has provoked anger dismay and a search for the secrets of growth and for lessons to be learned The Rise of Asia brings together recent scholarship analysing the process of economic social and political development in East and Southeast Asia from the mid nineteenth century to the present day **The Rise of Asia** Francis Benjamin Tipton, 1998 **Economics and Contemporary Asia (in Japanese)**. T. Watanabe, 1986 *Money and Moralities in Contemporary Asia* Lan Anh Hoang, Cheryll Alipio, 2025-10-01 Money and Moralities in Contemporary Asia provides original nuanced insights into social meanings of money and wealth in moral economies of Asia Through case studies from South and Southeast Asia the collection sheds important light on how the new mobilities and wealth created by neoliberal globalization transform people's ways of life notions of personhood and their meaning making of the world It highlights the moral dilemmas and anxieties emerging from the profound socio economic transformations that are taking place across the region and deepens our understanding of local cultures as well as the inner contradictions of global capital in Asian contexts With rich ethnographic insights and a diverse range of empirical contexts chapters in this volume reveal multifaceted complexities and contradictions in the relationship between money and moralities Money they affirm is not an impersonal objective economic instrument with homogenizing powers but a culturally constructed and socially mediated currency in which meanings are constantly contested and re negotiated across time and space **Contemporary Asia** John McKay, 2024-11-14 For the first time in the modern era Asia is not dominated by an outside power Is this the Asian Century Will internal rivalries emerge between China Japan and India How will growing tensions between the United States and China shape the global economic strategic and political system Covering governance culture and society in East and South Asia this book introduces Key economic developments including the Asian economic miracle and the 1997-8 Financial Crisis The central role of education and the contentious debate about Asian values The rapid expansion of military spending in the region The demography and geography of major nations and their forms of nationalism With further reading suggestions and discussion questions for every chapter this is essential introductory reading for students of Asian Studies and interested general readers alike **The Asian Economy** Kenta Goto, Tamaki Endo, Asei Ito, 2020-07-30 The book is a key reading which provides a comprehensive and systematic overview of the contemporary Asian economy The book focuses on the structural changes that are rapidly transforming the regional economic landscape in the 21st century It highlights the concomitant challenges that have arisen and further discusses prospects and potentialities of Asian economies given this new economic environment The book also looks at broader social issues that are both the cause and result of these new and complex economic dynamism in Asia Understanding the Asian economy cannot be achieved without understanding the new

interrelationships and complexities that have evolved from this context which continue to be driven by drastic changes in technological demographic and social structures among others Each of the chapters are titled based on issues and are framed in present continuous tense intended to capture and emphasize the progressiveness of this new dynamism that are transforming the region in a fundamental way *Explaining Contemporary Asian Military Modernization* Sheryn Lee, 2021-04-19 This book proposes a novel theoretical framework of interactive arming in order to explain armament dynamics in contemporary Asia Frequently the modernisation of contemporary naval forces in Asia is described as an arms race with the underlying assumption being that weapons acquisitions and increases in defence expenditure are competitive and bilateral and due to conflicting purposes or mutual fears This book argues that the concept of an arms race is an unsuitable one for explaining contemporary military modernisation in 21st century Asia Instead it proposes a novel and innovative concept of interactive arming and argues that what drives conflict is political rivalry not weapons acquisitions Instead of perceiving arming as abnormal behaviour the book views arming as a natural strategic behaviour of states and military modernisation as a basic requirement for a state's ability to survive This book will be of much interest to students of Asian security strategic studies and international relations in general **Contemporary Asian America (second Edition)** Min Zhou, J. V. Gatewood, 2007-10 When *Contemporary Asian America* was first published it exposed its readers to developments within the discipline from its inception as part of the ethnic consciousness movement of the 1960s to the more contemporary theoretical and practical issues facing Asian America at the century's end This new edition features a number of fresh entries and updated material It covers such topics as Asian American activism immigration community formation family relations gender roles sexuality identity struggle for social justice interethnic conflict coalition and political participation As in the first edition *Contemporary Asian America* provides an expansive introduction to the central readings in Asian American Studies presenting a grounded theoretical orientation to the discipline and framing key historical cultural economic and social themes with a social science focus This critical text offers a broad overview of Asian American studies and the current state of Asian America **Study On International Politics In Contemporary China** Yuyan Zhang, 2020-07-14 China's guiding principle for foreign relations and its focus on states and regions has shifted a lot from the first 30 years of the founding of the People's Republic of China PRC in 1949 to 1978 and beyond after reform and opening up However PRC's diplomatic practice has been continuous whether it was participation in the Korean War breaking up with the former Soviet Union after a honeymoon period China's self defense war over Sino Indian border participation in the Vietnam War breakthrough in the Sino US relation or PRC's self defense war over the Sino Vietnamese border These historical events brought the need for theoretical study in International Politics IP The development of China's IP research was slow and filled with complications but it signified a breakthrough from scratch This book has filled gap by depicting a complete scroll of China's IP research in over 60 years since 1949 This book has followed two principles one is according to the classification of

the IP discipline and the other is to recommend adaptations according to China's actual conditions

Growing Green Infrastructure in Contemporary Asian Cities Ian Mell, 2024-08-27 *Growing Green Infrastructure in Contemporary Asian Cities* examines to what extent green infrastructure GI is being implemented in East and Southeast Asian cities. The book reflects upon the integration of contemporary approaches to landscape planning alongside traditional forms of green space design and cultural understandings of the landscape in China Hong Kong Japan Singapore and South Korea. Working from a multi locational perspective the book illustrates how political socio cultural economic and ecological factors influence the delivery of GI and the consequences of these decisions. The book provides a set of best practice recommendations for the design development and management of greener urban areas. It both explains how GI is being utilised in East and Southeast Asia to address climate change promote economic prosperity and support the development of more livable places and identifies future trends in its use. It is a key resource for any practitioners students and academics working in landscape planning and green infrastructure in an Asian context.

Press Freedom in Contemporary Asia Tina Burrett, Jeffrey Kingston, 2019-11-05 This book analyzes the constraints on press freedom and the ways in which independent reporting and reporters are at risk in contemporary Asia to provide a barometer of democratic development in the region. Based on in depth country case studies written by academics and journalists and some who straddle both professions from across the region this book explores the roles of mainstream and online media and how they are subject to abuse by the state and vested interests. Specific country chapters provide up to date information on Bangladesh Kashmir Malaysia Myanmar Nepal Pakistan Sri Lanka Taiwan Thailand and Vietnam as well as on growing populist and nationalist challenges to media freedom in the Philippines India Indonesia and Japan. The book includes a theoretical chapter pulling together trends and common constraints facing newsrooms across Asia and a regional overview on the impact of social media. Three chapters on China provide insights into the country's tightening information environment under President Xi Jinping. Moreover the legal environment of the media political and external pressures economic considerations audience support and journalists standards and ethics are explored. As an international and interdisciplinary study this book will appeal to undergraduates graduates and scholars engaged in human rights media studies democratization authoritarianism and Asian Studies as well as Asia specialists journalists legal scholars historians and political scientists.

Asian Economic Systems Steven Rosefielde, 2013 *Asian Economic Systems* provides readers with a crisp analytic framework concepts and narrative.

highlighting contemporary Asia's systemic diversity. The framework facilitates insightful comparison with the western neoclassical ideal. This method allows students to easily appreciate the special virtues of various Asian economic systems and compare them with those offered in the west. This objective is buttressed with background material on Asian economic history where appropriate together with basic data on Asian and global economic performance to help students integrate concepts with experience. The approach provides an objective platform for discussing Asia's place and future in the new global order. It makes it clear that there is no universally best economic system. There are a variety of good systems and nations should choose the system that best suits their cultural heritage values and aspirations. The approach informs discussions about the wisdom of forming regional free trade zones economic communities like ASEAN and unions analogous to the European Union as well as forging a one world system of economic governance. Also Asian Economic Systems has a secondary goal. It provides the tools needed for training students in how to apply microeconomic macroeconomic and financial principles to practical issues of systems and policies. The book focuses on East and Southeast Asia. The term Asia is used as a shorthand for the cultural region dominated historically by Confucian kinship networks Japanese communalism and Theravada Buddhism and more recently by Marxist/Communist Leninist communism. It excludes the Middle East Central Asia the Himalayan states South Asia Malaysia Indonesia the Philippines Russia and America's Asia Pacific possessions. The book identifies and elaborates four rival market systems in contemporary Asia each with its own distinctive performance characteristics potentials and humanist properties: 1 communist China Vietnam Laos and Cambodia 2 Confucian Taiwan Singapore Hong Kong and South Korea 3 communal Japan and 4 Theravada Buddhist Thailand and Sri Lanka. Their comparative merit is partly obscured by differences in stages of economic development epochal and conjunctural factors but their special positive and negative attributes are unmistakable and are compared with North Korea's communist command system which is the region's fifth core alternative to democratic free enterprise.

Japan and Malaysian Economic Development K. S. Jomo, 2006-10-19 The Japanese presence in Southeast Asia is treated variously with either suspicion or encouragement. Japan and Malaysian Development critically assesses different dimensions of Japan Malaysia economic relations. The work presents a balanced collection of essays examining Japanese involvement in Malaysia. The volume also discusses the impact and consequences of Malaysian Prime Minister Mahathir's Look East policy which advocated greater emphasis on trading relations with Japan.

A Regional Contemporary C. J. W.-L. Wee, 2025-03-18 The first critical account of the enormous upsurge in cultural expression across Asian countries from 1979-2008 and the new possibilities it presented for the aesthetic and cultural re-imagining of a unified contemporary Asia. Biennial style art exhibitions New discourses in modern and contemporary art The production and circulation of increasingly debordered popular culture. A Regional Contemporary by C. J. W. L. Wee is an investigative account of the dramatic increase in cultural expression in Asia from 1979 to 2008 with the 1990s as the focal point of this period. The so-called East Asian miracle Wee argues projected a fictive but

shared contemporary regional identity onto Northeast and Southeast Asia collectively taken as East Asia The new cultural explosion was notably enabled by expanded capitalist energies that reached a level critical enough to reposition the region s postcolonial and Cold War era nationalisms and this book examines the resulting implications A sophisticated and compelling study A Regional Contemporary is the first to examine the conjunction of high and popular culture in the region Moreover Wee reveals how the various cultural formations of this regional contemporary were able to traverse if not overcome uneven national economies the memory of Japanese empire and the geopolitical rifts of post Cold War nationalisms While foregrounding new cultural expression Wee simultaneously examines how novel economic conditions bolstered a more confident questioning of Western modernity s dominance and enhanced the capacity for regional dialogue in the bid to overcome colonial era legacies even as those legacies were being absorbed into the region VH1 VH1 For the designer if space is tight on the back this can be deleted

The Routledge Handbook of Contemporary Art in Global Asia Menene Gras,Jonathan Harris,Bashir Makhoul,2022-12-30 This substantial collection of newly commissioned essays presents an ambitious entertaining and accessible guide to developments in Asian art over the past 20 years of the epoch of globalization The term global Asia signals the genesis and evolution of contemporary art within the context of global economic social political and intellectual change related to the end of the Cold War decolonization the emergence of postcolonial societies and cultures and the rise of a global contemporary art world In the handbook its editors establish in an extended introductory section and in four section introductions the theoretical geographical and historical parameters within which the contemporary visual arts of global Asia may be described analyzed and evaluated The collected chapters provide a diverse multiauthored heterogeneous and genuinely plural account of art and its contexts The democratic and inclusive character of globalization is reflected and produced within this anthology which includes different styles of writing as well as varieties of analytic and thematic focus The anthology will appeal to both scholars and students in art history art practice curation contemporary art fine art cultural studies and globalization studies

Order of East Asia Honghua Men,2020-06-05 This book describes the past present and future of East Asian order and analyzes how China Japan the U S and ASEAN play important roles in the transformation of East Asian order and discusses the new logic of regional order formation in the era of globalization and regional integration The book analyzes China s relationship with East Asian order great powers and regional institutions involved especially bilateral relations between China and Japan China and the U S China and ASEAN and explores how China could improve its regional strategy Addressing a hot topic in world politics from the angle of regional order and using methods such as historical analysis comparative analysis quantitative analysis and case study this readable book enables readers to develop an understanding of the history and status quo of East Asia and China s role in the region

Contemporary Europe and South Asia B. Vivekanandan,D. K. Giri,2001 Papers presented at International Conference on Europe and South Asia 500 Years held in May 1998 at Calicut *Globalization and Economic Nationalism in Asia* Anthony P.

D'Costa,2012-06-14 This volume documents the ways in which Asian governments have been pursuing economic nationalism It challenges the view that globalization renders the state redundant and demonstrates how they shape trade investment and financial outcomes Countries covered include India China South Korea Singapore Japan and the East Asian region
