The Europeanization of Turkish Public Policies Aylin Güney, Ali Tekin, 2015-09-16 Turkey's candidacy for membership of the European Union has had mixed effects on its public policies The initial degree of cohesion between EU and Turkish national policies practices and institutions has varied by the policy field in question leading to a complex amalgam of fit and misfit between the two actors Their interaction in different policy areas has had direct influence both on Turkey's accession to the EU and its own national reform process With accession negotiations stalled and Turkey's relationship with the EU increasingly tenuous it is vital to take stock of the

extent to which Turkey and the EU are aligned in key policy areas

The Europeanization of Turkish Public Policies A Scorecard is the first comprehensive work focusing on the impact of the EU accession process upon Turkey's public policies between 1999 and 2014. Complementing the authors' earlier volume *Europeanization of Turkey Polity and Politics*, it brings together leading specialists to provide key analyses of the impact of Europeanization on specific areas of Turkey's public policy. Each chapter applies a core analytical framework to examine a separate policy field, resulting in a consistent and comprehensive volume on Turkey-EU relations. With its focused structure and extensive coverage, concluding with a scorecard enabling informed assessment of the impact of Europeanization on Turkey's public policy areas, this book provides a one-stop resource for scholars and students alike. A timely and informed assessment of the dynamics and outcome of the Europeanization of an EU candidate country's major public policy areas, this book represents an essential resource for those interested in EU-Turkey relations, the effects of Europeanization on Turkey and Turkish politics.

The State and Global Change Hassan Hakimian, Ziba Moshaver, 2020-08-11 Economic liberalisation and reform are widely considered as the favourite remedies for the declining economic fortunes of the Middle Eastern and North African states in the past two decades. International economic institutions have been among the main advocates of transition to market-led economies in the region, and a force contributing to its realisation. This has placed the state at the centre of the proposed transformations, acting both as an instrument of and an obstacle to change. With attempts at liberalisation worldwide spanning over twenty years, the time is ripe for a re-evaluation of its premises and outcome. The essays in this volume debate the political economy of transition and reforms in the Middle East and North Africa, drawing on interdisciplinary approaches and outlooks involving international, regional, and national levels of analysis. The three central themes of the book are the rationale and strategies for reform, the processes and outcomes, and the nature of the state in the changing global setting.

Textile Economies Walter E. Little, Patricia A. McAnany, 2011-10-16 Textiles have been a highly valued and central part of the politics of human societies across cultures and over millennia. The economy of textiles provides insight into the fabric of social relations, local and global politics, and diverse ideologies. Textiles are a material element of society that fosters the study of continuities and disjunctions in the economic and social realities of past and present societies. From stick loom weaving to transnational

factories the production of cloth and its transformation into clothing and other woven goods offers a way to study the linkages between economics and politics The volume is oriented around a number of themes textile production textiles as trade goods textiles as symbols textiles in tourism and textiles in the transnational processes Textile Economies appeals to a broad range of scholars interested in the intersection of material culture political economy and globalization such as archaeologists cultural anthropologists economists museum curators and historians Islam, Kurds and the Turkish Nation State Christopher Houston, 2020-05-26 Can Islamism as is often claimed truly unite Muslim Turks and Kurds in a discourse that supersedes ethnicity This is a volatile and exciting time for a country whose long history has been characterized by dramatic power play Evolving out of two years of fieldwork in Istanbul this book examines the fragmenting Islamist political movement in Turkey As Turkey emerges from a repressive modernizing project various political identities are emerging and competing for influence The Islamist movement celebrates the failure of Western liberalism in Turkey and the return of politics based on Muslim ideals However this vision is threatened by Kurdish nationalism and the country's troubled past Is Islamist multiculturalism even possible The ethnic tensions surfacing in Turkey beg the question whether the Muslim Turks and Kurds can find common ground in religion Houston argues that such unification depends fundamentally upon the flexibility of the rationale behind the Islamist movement's struggle The Etatist Turkish Republic and Its Political and Socio-economic Performance from 1980-1999 Dora J.
