The Church in History John E. Booty, 2003-01-03 An exploration of church history with a focus on the Anglican Episcopal Church

From Physicians' Professional Ethos towards Medical Ethics and Bioethics Corinna Delkeskamp-Hayes, 2022-02-01 This book assembles essays by thinkers who were at the center of the German post World War II development of ethical thought in medicine It records their strategies for overcoming initial resistance among physicians and philosophers and in the East politicians This work traces their different approaches such as socialist versus liberal bioethics illustrates their attempt to introduce a culture of dialogue in medicine and examines their moral ambiguities inherent to the institutionalization of bioethics and in law Furthermore the essays in this work pay special attention to the problem of ethics expertise in the context of a pluralism which the intellectual mainstream of the country seeks to reduce to varieties of post traditionalism Finally this book addresses the problem of patient autonomy and highlights

the difficulty of harmonizing commitment to professional integrity with the project of enhancing physician's responsiveness to suffering patients. As these essays illustrate, the development of bioethics in Germany does not follow a linear line of progressiveness but rather retains a sense of the traditional ethos of the guild. An ethos, however, that is challenged by moral pluralism in such a way that even today still requires adequate solutions. A must read for all academics interested in the origins and the development of bioethics.

Methodists and their Missionary Societies 1900-1996 John

Pritchard, 2016-04-22 The twentieth century saw the spectacular growth of Christianity in much of the global south, the transformation of mission fields into self-governing Churches, schemes of church union, some successful, others abortive, evolving attitudes to other faiths and significant Christian engagement with issues of racial justice and world poverty. This book examines the contribution of the Methodist Missionary Society and its predecessors before 1932 to these world-changing movements, from the remarkable mass conversions in south-west China and west Africa early in the century to the controversy over grants to liberation movements in the 1970s and 1980s. Pritchard traces the MMS contribution to education, health care, rural development and social welfare and describes the administration of the Societies and the selection and preparation of candidates for missionary service. This is a ground-breaking study of Methodist Overseas Mission in the twentieth century, how it adjusted to changing circumstances, including the forced withdrawals from China and Burma, and developed new initiatives and partnerships, including its World Church in Britain programme, which brought missionaries from the younger Churches to serve in Britain and Ireland.

A Social History of Cuba's Protestants James A.

Baer, 2019-07-02 *A Social History of Cuba's Protestants*. God and the Nation presents a religious and social history of Cuba, focusing on the Presbyterian and other Protestant churches, to show the continuity of ties between US and Cuban churches before and after the revolution in 1959. By examining the history of Cuba's Protestants as agents of social change within Cuba and as partners with US denominations, James A. Baer offers a unique assessment of Cuba's development as a nation and its relationship with the United States. Scholars of Latin American studies, religion history and social movements will find this book particularly useful.

History and the Christian Historian Ronald Wells, 1998-09-17 This volume arises out of special concerns of historians who are also Christians. What case can be made for connecting historical work and religious

convictions? What is the relation of faith to history? What difference could Christian perspectives make in historical study? Thirteen respected scholars, including some who have changed the face of history writing in the twentieth century, here take up a diversity of subjects in giving a provisional answer to these important questions. In exploring foundational issues of perspective and theory, engaging discrete themes such as feminism, puritanism and missiology, and discussing the application of religious insights in teaching history, this excellent collection of essays forthrightly addresses the epistemological crisis brought on by the postmodern critique of truth and demonstrates the positive implications of a Christian perspective for the study of history and historiography.

A History of Christianity in Asia, Vol. II Samuel Hugh Moffett, 2014-07-30 The

Pentecost and Parousia Peter D. Hocken, 2013-10-23 As the charismatic movement penetrated the Protestant churches and then impacted the Catholic Church great hopes for Christian unity were aroused among many These hopes peaked with the great Kansas City conference of 1977 and the Pentecost over Europe gathering in Strasbourg France in 1982 After these high points the Renewal s unity dynamic weakened at the same time as the ecumenical movement was losing momentum Dr Hocken argues that the charismatic movement was always a grace for unity and that this can be seen from how it began and spread Its deep orientation to unity finds its foundation in the end times significance of baptism in the Spirit poured out on Christians from so many traditions that reinforces the one hope for the coming of the Lord Many developments of the last twenty years indicate that the time is now ripe for an ecumenism of the Spirit within which the charismatic impulses of the Holy Spirit can purify and deepen the wider movement for Christian unity Growing reconciliation between Evangelicals and Catholics suddenly seems less utopian as Pope Francis shows the servant face of a humbler Catholic Church
