Tomaselli, 2020-06-29 This book examines China's identity transformations with a focus on self perceptions and their representations and communication in the mass media By considering the internal dynamics of change it explores the emerging multifaceted China brand With its growing economic clout China has taken a proactive stance in shaping global economic and strategic order through ambitious programmes such as the Asian Infrastructure Investment Bank and the Belt and Road initiative However as a developing country China is at pains to manage its own transformations while trying to carve out an international identity Arguably China's unique sense of history and identities may lead to a contested modernity or multiple modernities radically different from the prevalent classical theories of modernisation and convergence of industrial societies

To understand China's trajectory of future development has been a major issue in international affairs. This book is concerned with how China's hybridised identities are articulated and intertwined with situational, institutional and societal dynamics and how they are interwoven with China's international outlook which converges with or diverges from China's historical assumptions and beliefs. This book will be of interest to those studying China's identity in the media situated at the juncture of past, present and future and between China and the wider world. The chapters in this book were originally published in *Critical Arts*. **The Routledge Handbook of Language and Mind Engineering** Chris Shei, James Schnell, 2024-04-16

The A to Z of the Hong Kong SAR and the Macao SAR Ming K. Chan, Sonny Shiu-Hing Lo, 2010-04-01. The Hong Kong Special Administrative Region of the People's Republic of China is located on the southeastern coast of China and the Macao SAR can be found off of China's southern coast. Both regions have recently been released from European colonial rule: Hong Kong from British control in 1997 and Macao from Portugal in 1999. As SARs, Hong Kong and Macao retain a high degree of autonomy and they control all issues except those of state, e.g. diplomatic relations and national defense. The A to Z of the Hong Kong SAR and the Macao SAR includes maps, photographs, a list of acronyms, a chronology, an introductory essay, a bibliography and hundreds of cross-referenced dictionary entries on important persons, places and events as well as political, economic and social background. However, unlike the rest of the series, all these sections are presented in duplicate: one for Hong Kong and one for Macao. The authoritative analysis and informative data presented clearly elucidate the unique situation of these two territories. TV China Ying Zhu, Chris
