Nationalist Imaginings of the Russian Past Konstantin Sheiko, 2012-05-25 Anatolii Fomenko is a distinguished Russian mathematician turned popular history writer founder of the so called New Chronology school and part of the explosion of alternative historical writing that has emerged in Russia since the collapse of the Soviet Union Among his more startling claims are that the Old Testament was written after the New Testament that Russia is older than Greece and Rome and that the medieval Mongol Empire was in fact a Slav Turk world empire a Russian Horde to which Western and Eastern

powers paid tribute While academic historians dismiss Fomenko as a dangerous ethno nationalist or post modern clown Fomenko s publications invariably outsell his conventional rivals Just as Putin has restored Russia s faith in its future Fomenko and an army of fellow alternative historians are determined to restore Russia s faith in its past For Fomenko the key to Russia s greatness in the future lies in ensuring that Russians understand the true greatness of their past Fomenko and other pseudo historians have built upon existing Russian notions of identity specifically the widespread belief in the positive qualities of empire and the special mission of Russia He has drawn upon previous attempts to establish a Russian identity ranging from Slavophilism through Stalinism to Eurasianism While fantastic Fomenko s pseudo history strikes many Russian readers as no less legitimate than the lies and distortions peddled by Communist propagandists Tsarist historians and church chroniclers

Escaping the Self-Determination Trap Marc Weller,2009-05-31 There is new movement in the discussion about self determination and statehood The contested declaration of independence by Kosovo and Russia s recognition of the purported independence of Abkhazia and South Ossetia have caused significant controversy These developments may well put an end to the attempt by governments to keep in place the highly restricted doctrine of self determination that has previously only been made available in the colonial context This monograph argues that classical self determination narrowly conceived in the colonial context cannot contribute to the resolution of the presently ongoing self determination conflicts around the world However this study finds that over the past few years a new practice of addressing self determination conflicts has emerged This practice significantly extends our understanding of the legal right to self determination and of the means that can be brought to bear in terminating secessionist conflicts

David Welsh on domestic politics and ethnic conflict René de Nevers on democratization and ethnic conflict and Pierre Hassner on nationalism and internationalism Jack Snyder writes on nationalism and the crisis of the post Soviet state Barry Posen on the security dilemma and ethnic conflict Kathleen Newland on ethnic conflict and refugees Jenonne Walker on international mediation of ethnic conflicts and Robert Cooper and Mats Berdal on outside intervention in ethnic conflicts Adam Roberts discusses the U N and international security and John Chipman explores managing the politics of parochialism

Countdown to Statehood Hillel Frisch,2012-02-01 Countdown to Statehood based on Arabic English and Hebrew language sources analyzes the form that the Palestinian state is likely to take The book looks at past institution building patterns in the West Bank and Gaza the relationship between the PLO and the local Palestinians and the nature of the conflict with Israel from 1967 through the first year of the Palestinian Authority under Arafat s leadership A major reference point in this analysis is the Zionist experience of state building in Israel s own pre independence era Not only did the Zionist experience serve as a model of a successful protagonist that Palestinians wished to emulate but both also began as diaspora based These similarities and even more so the dissimilarities between these two struggles for national determination allow the reader to assess the potential likenesses and disparities of the future Palestinian state compared to its Israeli counterpart The concluding chapter analyzes the findings in the broader context of third world state building by arguing contrary to the common wisdom that war makes the state that more peaceful routes to statehood lead to better states in the post independence era
