Buckley, Rick Fawn, 2003 This book examines how the world has reacted to and been affected by the terrorist attacks on September 11th the ensuing war in Afghanistan and President George Bush's declaration of a war on terror as the first war of the 21st Century

*Global Responses to Terrorism* Mary Buckley, Rick Fawn, 2004-02-24 The terrorist attacks of September 11th and more recent atrocities in Russia Indonesia and Kenya have demonstrated that terrorism now poses the most dangerous threat to stability democracy and prosperity around the world This major new book examines how the world has reacted to and been affected by the attacks on September 11th ensuing war in Afghanistan and President George W Bush's declaration of a war on terror as the first war of the 21st century The contributions by distinguished specialists in the field examine the domestic implications of terrorism and counter terrorist initiatives across the world Few books can boast the quality and range of the contributions to this volume which locate the war on terror in a truly global and intellectual context

*11 September and Its Aftermath* Stanley D Brunn, 2004-08-02 First published in 2004 Routledge is an imprint of Taylor Francis an informa company

*US Counter-terrorism Strategy and Al-Qaeda* Joshua A. Geltzer, 2009-09-10 This book examines the communicative aspects and implications of US counter terrorist policies towards al Qaeda Recent US counter terrorist strategy has been largely based upon projecting certain perceptions of America as an actor to those drawn to al Qaeda and this book investigates in what ways and to what extent US officials believed that the signals sent by what America did and said could influence the behaviour of the terrorist and would be terrorist The study then draws on a growing understanding of that audience to analyse how those drawn to al Qaeda were and indeed still are likely to be influenced by the perceptions of America that Washington's policies generated The study's central argument is that given al Qaeda's unconventional strategy and the particularities of the world view characterising those drawn to the group America's counter terrorist signalling proved largely counter productive to America's objective of undermining al Qaeda's strategic narrative instead serving in many ways to validate it Firstly this book seeks to reveal the significant and largely unexplored role that signalling has played in US counter terrorist policy towards al Qaeda Second it tries to capture the objectives strategy tactics ideology and other defining features of the world view characterising those drawn to al Qaeda Third it strives to combine those two lines of inquiry by applying the al Qaeda world view to a critical analysis of the signals sent by US policies Finally the book aims to offer broad policy implications that demonstrate how an informed understanding of the world view of those drawn to al Qaeda can be employed to revise and refine American counter terrorist signalling This book will be of much interest to students of US foreign policy and public diplomacy counter terrorism strategy and international security Joshua Alexander Geltzer has a PhD in War Studies from Kings College London and is currently a juris doctoral student at Yale Law School

**Counterterrorism Strategies** Yonah Alexander, 2006 In Counterterrorism Strategies seven experts examine how the United States France Germany Italy Egypt and Sri Lanka have

combated terrorist groups from the 1970s to the present and draw lessons that are applicable to today's threats Counterterrorism Strategies shows that there are no simple or complete solutions to the dangers posed by determined and elusive terrorists but several of the countries detailed here have had significant successes The contributors analyses of the effectiveness or ineffectiveness of strategies used by these six countries offer a counterterrorism road map for the twenty first century This book is essential reading for policymakers for counterterrorism scholars and professionals and for members of the general public who are concerned about the general direction of the international campaign against terrorism Jacket

**Justifying America's Wars** Nicholas Kerton-Johnson, 2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to students of US foreign policy humanitarian intervention Security Studies and IR theory **The Royal**

**Navy and Maritime Power in the Twentieth Century** Ian Speller, 2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians

military professionals and the general reader      **Realignments in Russian Foreign Policy** Rick Fawn, 2004-11-23 This collection provides international perspectives on the evolution of Russia's foreign relations and analyses official Russian responses to major regional and international developments including NATO and EU enlargement and the post September 11 international war on terrorism      **Desert Kingdoms to Global Powers** Rory Miller, 2016-10-15 An expert in Arab Gulf politics offers a revealing analysis of the region's stunning rise to global power and the challenges it confronts today Once just sleepy desert sheikdoms the Arab Gulf states of Saudi Arabia Oman the United Arab Emirates Qatar Bahrain and Kuwait now exert unprecedented influence on international affairs the result of their almost unimaginable riches in oil and gas In this accessible study Gulf politics expert Rory Miller examines the achievements of these countries since the 1973 global oil crisis He also investigates how the shrewd Arab Gulf rulers who have overcome crisis after crisis meet the unpredictable future The Arab Gulf region has become a global hub for travel tourism sports culture trade and finance But can the autocratic regimes maintain stability at home and influence abroad as they deal with the demands of social and democratic reform Miller considers an array of factors Islamism terrorism the Arab Spring volatile oil prices global power dynamics and others to assess the region's future possibilities      Mobilizing Soviet Peasants Mary Buckley, 2006-04-27 Exploring the story of rural shock work and Stakhanovism in the Soviet countryside in the late 1930s this book tries to contextualise Stakhanovism considering historical context changing party priorities propaganda the press the nature of farm leaderships shortages peasant attitudes gender purges and local organisations      **The Search for a Common European Foreign and Security Policy** A. Malici, 2016-01-05 When Kissinger lamented When I want to call Europe I cannot find a phone number the implication was clear Since then the momentum of the EU towards a common foreign and security policy has increased Yet the viability of this institutionalization effort is questionable This book advances a new perspective on this paradox

*Evolution of U.S. Counterterrorism Policy* Yonah Alexander, Michael B. Kraft, 2007-12-30 Including many older documents not available electronically or otherwise accessible this three volume set provides the first comprehensive collection of key documents statements and testimony on U S government counterterrorism policies as they have evolved in the face of the changing terrorist threats Selected executive and congressional materials highlight the government's diverse policy and program responses to terrorism The testimony statements and documents provide the public articulation and face to the largely important intelligence law enforcement preventative security measures and international cooperation used in the shadowy war against terrorism Recent entries provide a handy compilation of important post 9 11 materials For example useful background information on U S actions against Osama bin Laden the Taliban and Saddam Hussein and terrorism fundraising Also included are statements from the Reagan and other administrations that relate to disputes over the appropriate use of force Introductory chapters by Alexander and Kraft provide the historical context and analysis of previous and current U S counterterrorism policy including U S legislation For over two centuries America has faced occasional

outbreaks of terrorism perpetrated by both indigenous and foreign groups But the spectacular bombing in Oklahoma City in 1995 and the September 11 2001 attacks seemed to signify a new age frightening many Americans and destroying their sense of domestic security In addition U S citizens and interests have been increasingly affected by acts of terrorism abroad The challenges of terrorism therefore have required the United States to develop comprehensive strategies and programs to counter both conventional and unconventional threats nationally and globally Spaces of Security and Insecurity Alan Ingram,2016-04-01 Drawing on critical geopolitics and related strands of social theory this book combines new case studies with theoretical and methodological reflections on the geographical analysis of security and insecurity It brings together a mixture of early career and more established scholars and interprets security and the war on terror across a number of domains including international law religion migration development diaspora art nature and social movements At a time when powerful projects of globalization and security continue to extend their reach over an increasingly wide circle of people and places the book demonstrates the relevance of critical geographical imaginations to an interrogation of the present

**Explaining News** C. Archetti,2010-07-05 The book challenges the idea that processes of globalization are leading to an increasing homogenization of news on a worldwide scale by focusing on two defining crises of our time 9 11 and the War in Afghanistan The empirical analysis combines process tracing as well as both quantitative and qualitative content analysis of governmental discourses and news coverage of eight elite newspapers across the US France Italy and Pakistan It develops a new multidisciplinary framework to explain news that brings together previously distinct levels of analysis the micro level of the individual decisions made by journalists the organizational environment of the news organization national social and political contexts the macro level of international relations The book is going to be of interest primarily to academics and researchers postgraduate students across communications media studies journalism politics and international relations as well as journalists media practitioners and officials involved in public communication *Radicalization, Terrorism, and*

*Countering Extremism* Kenneth Christie,Haval Ahmad,2024-01-15 This book examines the twin phenomena of radicalization and de radicalization in a global context of political extremism and violent conflict focusing on the approaches of governments in how they use counterterrorism to respond to radicalization and extremism By using case studies and comparative analysis the authors analysis of both Western and non Western examples focuses on both theoretical components and practical aspects of the deradicalization process Subjects covered include the historical context the contemporary situation and case studies that illustrate these aspects in different countries and across borders The conclusions drawn also provide readers with examples of the potential solutions that states have adopted to mitigate the threats and reintegrate extreme militants into society and create a more stable world in which violent conflict is lessened

**The Rational Believer** Masooda Bano,2012-04-10 Islamic schools or madrasas have been accused of radicalizing Muslims and participating either actively or passively in terrorist networks since the events of 9 11 In Pakistan the 2007

siege by government forces of Islamabad's Red Mosque and its madrasa complex whose imam and students staged an armed resistance against the state for its support of the war on terror reinforced concerns about madrasas' role in regional and global jihad. By 2006 madrasas registered with Pakistan's five regulatory boards for religious schools enrolled over one million male and 200,000 female students. In *The Rational Believer* Masooda Bano draws on rich interview, ethnographic and survey data as well as fieldwork conducted in madrasas throughout the country to explore the network of Pakistani madrasas. She maps the choices and decisions confronted by students, teachers, parents and clerics and explains why available choices make participation in jihad appear at times a viable course of action. Bano works shows that beliefs are rational and that religious believers look to maximize utility in ways not captured by classical rational choice. She applies analytical tools from the New Institutional Economics to explain apparent contradictions in the madrasa system for example how thousands of young Pakistani women now demand the national adoption of traditional sharia law despite its highly restrictive limits on female agency and do so from their location in Islamic schools for girls that were founded only a generation ago.

**The Refugee Challenge in Post-cold War America** María Cristina García, 2017. *The Refugee Challenge in Post Cold War America* examines the geopolitical and domestic interests that have shaped US refugee and asylum policy since 1989. In the post Cold War era policymakers consider a wider range of populations as potentially eligible for refuge: victims of civil unrest, trafficking and gender and sexuality based discrimination.

**The Politics and Culture of Globalisation** Hans Löfgren, Prakash Sarangi, 2017-08-18. We experience the culture of globalisation every time we visit a Tandoori restaurant in Chicago or a Pizza Hut in Hyderabad or as we watch Bollywood films in Australia. Globalisation is a label used for a wide range of political, social and cultural phenomena many of which are explored in this volume. *The Politics and Culture of Globalisation: India and Australia* brings together Indian and Australian experts in the fields of political science, international relations, philosophy, cultural theory and political economy. Its timeliness and unifying theme derive from comparisons between Indian and Australian perspectives and analyses by Australian writers on developments in India. Indian-Australian relations are explored in several chapters. The neo-liberal form of globalisation is a key focus of critique in this volume. Several chapters examine the search for alternative forms of governance as the nation-state undergoes profound change due to global interconnectedness.

**Human Rights and US Foreign Policy** Jan Hancock, 2007-06-11. This book analyzes the role of human rights in the foreign policy of the George W. Bush Administration. References to human rights, freedom and democracy became prominent explanations for post-9/11 foreign policy yet human rights have been neither impartially nor universally integrated into decision making. Jan Hancock addresses this apparent paradox by considering three distinct explanations. The first position holds that human rights form a constitutive foreign policy goal; the second that evident double standards refute the first perspective. This book seeks to progress beyond this familiar discussion by employing a Foucaultian method of discourse analysis to suggest a third explanation. Through this analysis the author examines how a discourse of

human rights has been artificially produced and implemented in the presentation of US foreign policy This illuminating study builds on a wealth of primary source evidence from human rights organizations to document the contradictions between the claims and practice of human rights made by the Bush Administrations as well as the political significance of denying this disjuncture Human Rights and US Foreign Policy will be of interest to advanced students and researchers of US foreign policy human rights international relations and security studies      *The Bully Pulpit, Presidential Speeches, and the Shaping of Public Policy* , Jeffrey S. Ashley, Marla J. Jarmer, 2015-11-11 Issue framing is the way that people especially politicians get other people to view a particular problem or issue By framing the issue in a particular way the goal is to get people to think about the issue to believe that an action is required and most importantly to believe that a particular action the one being proposed by the framer is the right one The use of language and imagery is an essential part of issue framing and has been an integral part of the presidency since our nation s founding but it has become particularly important since Theodore Roosevelt began to take his message directly to the people This work examines a selected speech delivered by every president from Roosevelt through Barack Obama to show how language has been instrumental in directing policy Each chapter will examine the situation or background for the problem include a transcript of the speech the president delivered and conclude with an analysis of the speech in terms of the particular frame that the speech utilized and the eventual outcome or policy direction inspired by the speech
