The Global Economy, National States and the Regulation of Labour Paul Edwards, Tony Elger, 2014-06-03 The implications of globalization for labour are more often asserted than analyzed This collection and its companion volume *Globalization and Patterns of Labour Resistance* edited by Jeremy Waddington seek to remedy this deficiency by presenting contemporary research on the relationship between the globalization of production and the regulation of labour It considers the ways in which national and supra national regimes of labour regulation are being actively reconstructed in the context of the internationalization of production The contributors analyze the implications of changes in different national labour regimes for relations between state capital and labour and for class and gender

segmentation and discuss the scope and limits of recent initiatives in the implementation of international labour standards

Australia in the Global Economy Barrie Dyster, David Meredith, 2012-09-13 Explores the evolution of Australia's position in the global economy from the start of the twentieth century through to today Market Rules Douglas Brown, 2003 Federalism is about dividing and sharing government often in complex ways that involve some tasks being done jointly Are federal systems capable of effective joint policy making Is this possible in the fast moving context of globalization In Market Rules Douglas Brown examines these questions through a comparative study of Australia and Canada looking at recent major reforms to the economic union in the two federations and comparing them with the evolving European Union EU Brown argues that internal barriers to trade and competition in these countries were significant obstacles to competition in the global economy and shows that the old market rules were rooted in longstanding political and regional compromises He describes the process of detailed and difficult intergovernmental collaboration required for the EU and now Canada and Australia to produce new market rules The resulting reforms created new regimes that provide deeper and broader national economic integration in Canada and Australia than in the EU The new rules entrench neo liberal values retaining some room for diversity and flexibility for equity goals Built on a careful analysis of the differences and similarities in political economy constitutional design federal culture and history of intergovernmental relations in Canada and Australia Market Rules provides fresh evidence that federal states can be strong and autonomous in the global society while underscoring the conditions for effective collaboration that make this sustainable Rich in detail broad in scope Market Rules makes a significant contribution to knowledge about federalism and economic policy making in the era of globalization **The Geopolitics of Australia's Regional Relations** D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda **Ordinary Cities,**

Extraordinary Geographies Bryson, John R., Kalafsky, Ronald V., Vanchan, Vida, 2021-08-27 This insightful book explores smaller towns and cities places in which the majority of people live highlighting that these more ordinary places have extraordinary geographies It focuses on the development of an alternative approach to urban studies and theory that foregrounds smaller cities and towns rather than much larger cities and conurbations

The New International Division of Labour Guido Starosta, 2016-06-02 This book revisits the debate over the new international division of labour NIDL that dominated discussions in international political economy and development studies until the early 1990s It submits that a revised NIDL thesis can shed light on the specificities of capitalist development in various parts of the world today Taken together the contributions amount to a novel value theoretical approach to understanding the NIDL This rests upon the distinction between the global economic content that determines the constitution and dynamics of the NIDL and the evolving national political forms that mediate its development More specifically the authors argue that uneven development is an expression of the underlying essential unity of the production of relative surplus value on a world scale They substantiate and illustrate this argument through several international case studies including Argentina Brazil Ecuador Ireland South Korea Spain and Venezuela

Media Organization and Production Simon Cottle, 2003-04-18 Drawing on the work of international contributors Media Organization and Production examines a wide range of global local media organizations and the production of different mediums and genres Following the editor's introduction which sets out the principal differences of approach and defining debates chapters address transnational and national commercial and public service corporations international film and TV co productions children's television news production the historical development of liveness on radio and music journalism the politics and organizational forms of alternative media production including radical newspapers video and the internet and the changing production ecology of natural history television These topics are examined through a variety of theoretical and conceptual frameworks that help to illuminate how cultural production often involves a complex articulation of differing influences and constraints both material and discursive intended and unintended structurally determined and culturally mediated Together the chapters in this book help to recover this complexity and thereby help us to better understand the nature and output of today's media

The Free Trade Adventure Graham Dunkley, 2000-03 Free trade lies at the heart of the new era of globalization This is a review of the history of 20th century trade agreements tracing what happened to the General Agreement on Tariffs and Trade GATT before the USA pushed the world into the Uruguay Round This renegotiation of the rules of international trade enshrined in the World Trade Organisation agreements is now taking free trade much further than ever before The author examines the benefits and hidden costs of the WTO Agreements their implications for weaker economies and their likely consequences in terms of environmental protection labour standards and political sovereignty Alternatives do exist he argues to an over reliance on free trade These include managed trade fair trade and self reliant trade He also sets out a series of innovative proposals for reforming the WTO IMF and World Bank

Outdoor Recreation Management J. J. J. Pigram, John Michael Jenkins, 1999 Analysing leisure and outdoor recreation in terms of both their management and their wider importance to society this volume considers the future of outdoor recreation and potential social economic political and technological developments

Understanding Australia's Neighbours Nick Knight, Michael Heazle, Daniel Halvorson, 2011-09-26 A comprehensive introduction to the study of Asia Written thematically it provides comparisons between Asian and Australian societies and encourages readers to think about Australia's neighbours across a wide range of social economic and historical contexts

Creating Unequal Futures? Peter Saunders, 2020-08-02 This is an important and powerful book because of the rigour of the analysis the good sense of the innovative strategies for action by government business and civil society and the concern throughout for social justice John Langmore Director UN Division for Social Policy and Development One in six Australian kids live below the poverty line Among the twenty five leading industrialised countries Australia has the fifth highest child poverty rate This is a useful if stark indicator of the extent of long term disadvantage in this country Creating Unequal Futures brings together eight of Australia's leading social scientists to introduce the reader to the processes which create and sustain persistent patterns of poverty and disadvantage Although the contributors use different approaches their research leads to a united call for a rethinking away from the prevailing gloom and doom presentations of Australian material life They signal pathways out of the dilemmas that bind people to poverty and disadvantage If followed those pathways will guide us to a future characterised by less inequality If ignored we may further entrench patterns of disadvantage and risk creating unequal futures for all Australians

Placing Critical Geography Lawrence D. Berg, Ulrich Best, Mary Gilmartin, Henrik Gutzon Larsen, 2021-11-29 This book explores the multiple histories of critical geography as it developed in 14 different locations around the globe whilst bringing together a range of approaches in critical geography It is the first attempt to provide a comprehensive account of a wide variety of historical geographies of critical geography from around the world Accordingly the chapters provide accounts of the development of critical approaches in geography from beyond the hegemonic Anglo American metropolises Bringing together geographers from a wide range of regional and intellectual milieus this volume provides a critical overview that is international and illustrates the interactions or lack thereof between different critical geographers working across a range of spaces The chapters provide a more nuanced history of critical geography suggesting that while there were sometimes strong connections with Anglo American critical geography there were also deeply independent developments that were part of the construction of very different kinds of critical geography in different parts of the world Placing Critical Geographies provides an excellent companion to existing histories of critical geography and will be important reading for researchers as well as undergraduate and graduate students of the history and philosophy of geography

Justice, Society and Nature Brendan Gleeson, Nicholas Low, 2002-09-11 Justice Society and Nature examines the moral response which the world must make to the ecological crisis if there is to be real change in the global society and economy to

favour ecological integrity From its base in the idea of the self through principles of political justice to the justice of global institutions the authors trace the layered structure of the philosophy of justice as it applies to environmental and ecological issues Philosophical ideas are treated in a straightforward and easily understandable way with reference to practical examples Moving straight to the heart of pressing international and national concerns the authors explore the issues of environment and development fair treatment of humans and non humans and the justice of the social and economic systems which affect the health and safety of the peoples of the world Current grass roots concerns such as the environmental justice movement in the USA and the ethics of the international regulation of development are examined in depth The authors take debates beyond mere complaint about the injustice of the world economy and suggest what should now be done to do justice to nature

Sustainability and Change in Rural Australia Chris Cocklin, Jacqui Dibden, 2005 By addressing themes such as social and economic change government policy and gender relations this volume tackles the thematic complexities of sustainability It attempts to understand how small rural communities have survived in the past what factors shaped them and how these factors will impact on their future survival

Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies

Outdoor Recreation Management John Jenkins, John Pigram, 2005-10-05 It is now widely recognized that recreation is as important as work This revealing book analyzes leisure and outdoor recreation in terms of both their management and their wider importance to society Specifically it clarifies the link between leisure recreation tourism and resource management reviews contemporary outdoor recreation management and concepts critically examines approaches to outdoor recreation planning and management in diverse recreational settings considers the future of outdoor recreation and the potential influences of economic social political and technological

developments Wide ranging and topical it considers such issues as motivation and choice provision for people with special needs the impact of outdoor recreation on the environment and outdoor recreation in both urban and rural contexts This comprehensively revised second edition has many sections rewritten and expanded to reflect contemporary development in leisure and outdoor recreation management in countries such as Australia Canada the UK the US and New Zealand With an extensive bibliography of more than 500 references and including further reading sections and review questions it is an essential student purchase and one of the most comprehensive and international accounts of outdoor recreation management available Encyclopedia of Political Economy Phillip O'Hara,1999-02-04 Content Description Includes bibliographical references and index **An Unruly World?** Andrew Herod, Geroid O Tuathail, Susan M. Roberts, 2002-09-11 An Unruly World explores the diverse conundrums thrown up by seemingly unruly globalization Examining how fast transnational capitalism is re making the rules of the game in a wide variety of different places domains and sectors the authors focus on a wide range of issues from analysis of soft capitalism and the post Cold War organizational drives of international trade unions to the clamour of states to reinvent welfare policy and the efforts of citizen groups to challenge trade and financial regimes An Unruly World argues that we are not living in a world bereft of rules and rulers the rules governing the global economy today are more strictly enforced by international organizations and rhetoric than ever before
