M. Blaut,2012-07-23 This influential book challenges one of the most pervasive and powerful beliefs of our time that Europe rose to modernity and world dominance due to unique qualities of race environment culture mind or spirit and that progress for the rest of the world resulted from the diffusion of European civilization J M Blaut persuasively argues that this doctrine is not grounded in the facts of history and geography but in the ideology of colonialism Blaut traces the colonizer s model of the world from its 16th century origins to its present form in theories of economic development modernization and new world order      *Civilization, Past and Present* Thomas Walter Wallbank,Alastair MacDonald Taylor,1954      *Civilization Past & Present* ,1969      Poole's Index to Periodical Literature: Rev. ed., pt. 1, A-J, 1802-1881. pt. 2, K-Z ,1882      *Poole's Index to Periodical Literature: Rev. ed., 1802-1881 (2 v.)* William Frederick Poole,1882      Poole's Index to Periodical Literature William Frederick Poole,1882      **Poole's Index to Periodical Literature: 1802-1881** William Frederick Poole,1882

*US Hegemony and the Americas* Arturo Santa-Cruz,2019-12-06 In this book Arturo Santa Cruz advances an understanding of power as a social relationship and applies it consistently to the economic realm in United States relations with other countries of the Western Hemisphere Following the academic and popular debate on the ebb and flow of US hegemony this work centers the analysis in a critical case for the exercise of US power through its economic statecraft the Americas its historical zone of influence The rationale for the regional focus is methodological if it can be shown that Washington s sway has decreased in the area since the early 1970s when the discussion about this matter started it can be safely assumed that the same has occurred in other latitudes The analysis focuses on three regions North America Central

America and South America Since each region contains countries that have at times maintained very different relationships with the United States the findings contribute to a better understanding of the practice of US power in the sub region in question adding greater variability to the overall results US Hegemony and the Americas Power and Economic Statecraft in International Relations is an invaluable resource for students and scholars interested in Latin American History and Politics North American Regional Integration International Relations Economic Statecraft Political Economy and Comparative Politics

**Ridpath's History of the World** John Clark Ridpath, 1901

**Coexisting Contemporary Civilizations** Guy Ankerl, 2000 Some important questions are discussed in this book Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today's world one of symmetrical interdependence Or rather one of hegemony If the so called North South or East West dialogue fails in constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a consensus within humankind
