Global Views of Adolescence Devin G. Thornburg, 2021-02-04 This book addresses what teachers and school leaders from a dozen countries see as the social and emotional strengths interests and needs of adolescents in their schools and communities how they innovate their programs and practices to respond to their students lives The book also describes how educators themselves benefit from social and emotional supports to be responsive Rather than assume that there are universal themes in adolescents lives the book is intended to illuminate the local contextual and powerful insights of educators daily working with students In many intentional respects each serves as an action research study with an effort to better the process and outcomes of their students growth and learning as well as to enrich the classroom The chapters are organized by themes ranging from challenges adolescents face in that particular locale to curriculum work that is project based transdisciplinary and tied to the communities where the adolescents live The voices of adolescents particularly with regard to their social and emotional development have been neglected in the literature Thus we know very little about their feelings and personal experiences as they progress through their schooling A book such as this will be beneficial in terms of providing a contribution to this field thereby increasing our understanding of the issues faced by adolescents across countries and cultures Peggy L Anderson Ph D Metropolitan State University of Denver The outstanding strength of this book is quite precisely its international scope here is an anthology that lives up to the claims made by its title Anyone interested in either adolescent development or Social and Emotional Learning in real world as opposed to abstract settings will appreciate the breadth of experience described Mokhtar El Maouhal Laboratoire de Recherche sur les Langues et la Communication

Globalistics and Globalization Studies: Aspects & Dimensions of Global Views Arkadi D. Ursul, Endre Kiss, Alexander N. Chumakov, Olga G. Leonova, Tu Weiming, Peter G. Kirchsclaeger, Anthony Howell, Hae Kim, Jim Sheffield, 2014-04-30 Nowadays globalization processes have become all embracing But at the same time despite the ever increasing flow of publications on globalization our understanding and knowledge of it still leaves much to be desired Especially it concerns the global processes in general of which globalization is a part We also need to systematize our ideas about globalization and Global Studies to somehow fit the realities In particular this concerns the education process because the current state of education will determine the way people will perceive reality in the forthcoming decades This yearbook aims at contributing to the solution of these important tasks It is the third in the series of yearbooks titled *Globalistics and Globalization Studies* This year it has the following subtitle *Aspects Dimensions of Global Views* Its authors consider globalization and Global Studies in different dimensions and aspects philosophical methodological and pedagogical in terms of various processes problems and perspectives Of course to some extent this means that this yearbook presents rather diverse materials But globalization itself is very diverse And its comprehension may proceed in the framework of different theoretical approaches and points of view In the present yearbook one can find perceptions of globalization and Global Studies by a number of

scholars from different countries of the world and learn rather peculiar visions of globalization by the Russian scientists and educators The yearbook will be interesting to a wide range of researchers teachers students and all those who pay attention to global issues

Case Mix: Global Views, Local Actions Francis Henri Roger France,I. Mertens,M.-C. Modeling Peter P. Chen, Jacky Akoka, Hannu Kangassalu, Bernhard Thalheim, 2003-05-21 This volume contains a collection of selected papers presented at the Symposium on Conceptual Modeling which was held in Los Angeles California on December 2 th 1997 immediately before the 16 International Conference on Conceptual Modeling ER 97 which was held at UCLA A total of eighteen papers were selected for inclusion in this volume These papers are written by experts in the conceptual modeling area and represent the most current thinking of these experts This volume also contains the summaries of three workshops that were held on 6 7 December 1997 immediately after the ER 97 conference at UCLA The topics of these three workshops are Behavioral Modeling Conceptual Modeling in Multimedia Information Seeking What Is the Role of Cognition in Conceptual Modeling Since these topics are not only very important but also very timely we think it is appropriate to include the summary of these three workshops in this volume Those readers interested in further investigating topics related to the three workshops can either look up the individual paper published on the Web or contact the authors directly The summary paper by Chen at the beginning of this volume also includes the summary of several interesting speeches at the Symposium **The Oxford Handbook of the History of Psychology: Global Perspectives** David B. Baker, 2012-01-13

The science and practice of psychology has evolved around the world on different trajectories and timelines yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today Few would argue that the standard narrative of the history of psychology has emphasized European and American traditions over others but in today s global culture there is a greater need in psychology for international understanding This volume describes the historical development of psychology in countries throughout the world Contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations psychologies Each unique story adds another element to our understanding of the history of psychology The chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our

daily lives Making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight as well as a better understanding of the human condition *Global Perspectives on the Strategic Role of Marketing Information Systems* Medina-Quintero, Jose Melchor, Sahagun, Miguel A., Alfaro,

Jorge, Ortiz-Rodriguez, Fernando, 2023-05-08 A level of decision making is concerned with deciding the organization's objectives, resources, and policies. A significant problem at this decision making level is predicting the organization's future and its environment as well as matching the organization's characteristics to that environment. This process generally involves technology and knowledge from the market and clients. In the current era, the implementation of marketing information systems supported with AI techniques is crucial to being a unique opportunity to leverage marketing strategies with cutting edge technologies. *Global Perspectives on the Strategic Role of Marketing Information Systems* communicates the recent advances in marketing information systems. Covering topics such as digital entrepreneurship, international business, and micro and small enterprises, this premier reference source is a cutting edge resource for marketers, entrepreneurs, business leaders, and managers, IT managers, students, and educators of higher education, librarians, researchers, and academicians. *Environmental Engagement and Cultural Value: Global Perspectives for Protecting the Natural World* Fanli Jia, Tobias Krettenauer, 2020-02-04 Environmental issues are a rapidly growing focal point in today's global discussion. These issues are becoming increasingly pertinent due to the potentially devastating outcomes of human environmental carelessness. As a species, humans now have realized the need for worldwide environmental engagement. This engagement is intended to heighten awareness about environmental problems, build knowledge in education, and change human behaviors to improve sustainability. Synthesizing the literature on cultural dimensions, e.g., attitudes, beliefs, values, that undergird positive views of environmental issues and engagement of sustainability practices would significantly contribute to the development of effective approaches to fostering sustainable environmental practices. Through the identification of commonalities across cultures and sensitivity to cultural differences, we can begin to work toward a global consensus on viable solutions to this critical issue. **Advances in Web Intelligence** Janusz Kacprzyk, 2005-05-30 This book constitutes the refereed proceedings of the Third International Atlantic Web Intelligence Conference AWIC 2005 held in Lodz, Poland, in June 2005. The 74 revised papers presented together with abstracts of 4 invited papers were carefully reviewed and selected from 140 submissions. All current aspects of Web intelligence are addressed, including semantic Web issues, ambient intelligence, intelligent information services, Web search, distributed service management, clustering, visualization, data mining, description logics, ontologies, Web query processing, categorization, classification, Web services, e-learning, and knowledge discovery.
