Global Shaping and Its Alternatives William K. Carroll, Yildiz Atasoy, Y?ld?z Atasoy, 2003-01-01 Global Shaping and its Alternatives offers a unique series of reflections on the connections between market capitalism the politics of alternatives and the cultural elaboration of social change It argues that there is a need for an alternative explanatory framework on globalization one that rejects fatalism and highlights the dynamic roles of states NGOs local fractions of capital democratic movements and gendered social relations Without understanding how global shaping is taking place and how it affects human life across the globe there can be no transformational possibility for humanizing our conditions of existence

**Hegemonic Transitions, the State and Crisis in Neoliberal Capitalism** Yildiz Atasoy, 2009-01-08 Offering a unique opportunity to make conceptual connections between neoliberalism and political authority this book examines the transformation in the world economy as an outcome of historically specific social relations Turkey, Islamists and Democracy Yildiz Atasoy, 2005-07-29 Trailblazing study that radically re examines political Islam Political Islam in Turkey has been headline news following the Istanbul bombings Much needed study of the economic dimensions of political Islam Turkey Islamists and Democracy is the story of Islam s engagement with the reorganization of the global economy Yildiz Atasoy examines the development of political Islam in Turkey within the context of the changing balance of domestic and international forces in the world economy and shows how it has taken on a highly sophisticated cosmopolitan edge By examining the incorporation of Islam into the existing relations of the Turkish state from the late Ottoman Empire to the present day the author demonstrates how political Islam interacts with the global restructuring of classes states and political actors Atasoy challenges the view of Islamist politics as an anti Modern anti Western force that is fundamentally opposed to the global economy and instead argues that political Islam is cosmopolitan and embedded in processes which incorporate Western modernity into local cultural practices **Handbook of Neoliberalism** Simon Springer, Kean Birch, Julie MacLeavy, 2016-07-07 Neoliberalism is easily one of the most powerful discourses to emerge within the social sciences in the last two decades and the number of scholars who write about this dynamic and unfolding process of socio spatial transformation is astonishing Even more surprising though is that there has until now not been an attempt to provide a wide ranging volume that engages with the multiple registers in which neoliberalism has evolved The Routledge Handbook of Neoliberalism seeks to offer a comprehensive overview of the phenomenon of neoliberalism by examining the range of ways that it has been theorized promoted critiqued and put into practice in a variety of geographical locations and institutional frameworks With contributions from over 50 leading authors working at institutions around the world the volumes seven sections will offer a systematic overview of neoliberalism s origins political implications social tensions spaces natures and environments and aftermaths in addressing ongoing and emerging debates The volume aims to provide the first comprehensive overview of the field and to advance the established and emergent debates in a field that has grown
