

Globalization and America since 1945

D. Clayton Brown

Globalization And America Since 1945

Lawrence A. Peskin, Edmund F. Wehrle

Globalization And America Since 1945:

Globalization and America Since 1945 Deward Clayton Brown, 2003 Annotation We've all heard the term but what exactly is globalization In his new book *Globalization and America since 1945* D Clayton Brown provides a brief jargon free and easy to understand overview of this important issue This volume examines how the United States and the Global Economy Since 1945 Henry C. Dethloff, Gerald D. Nash, Richard W. Etulain, 1997 This book is a brief introduction to economic changes of a truly global dimension Since World War II the world has become a much more homogenous interrelated and integrated place The United States had much to do with changing that world A careful examination of this text provides a better understanding of the dynamics of U S history It should help explain what has happened to U S businesses and consumers since World War II Globalization has been the primary force affecting change in American life over the past half century This book explores those factors that have been critical catalysts in the rise of the new global economy It also seeks to provide a definition or characterization of that global economy Pref *America since 1945* Paul Levine, Harry Papasotiriou, 2010-11-17 The period from 1945 to the present day may not constitute an American century but it can be seen as the American Moment the time when for good or ill the United States became the predominant political military economic and cultural power in the world This revised and updated new edition introduces the historic and tumultuous developments in American politics foreign policy society and culture during this period It includes coverage of key recent events such as the 2008 election of Barack Obama global recession protracted war in Iraq and Afghanistan rise of the internet transformation of American Society and Culture challenges of new immigration and multi culturalism changing global status of the US in the new millennium Examining the American Moment in a global context the authors emphasise the interaction between politics society and culture America Since 1945 encourages an awareness of how central currents in art literature film theatre intellectual history and media have developed alongside an understanding of political economic and social change *America in the World* Frank Costigliola, Michael J. Hogan, 2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country's leading historians Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field **America and the World** Lawrence A. Peskin, Edmund F. Wehrle, 2012 Lively and accessible America and the World draws on the most recent scholarship to provide a historical introduction to one of today's vital and misunderstood issues Globalization Antonio L. Rappa, 2011 In the first edition the themes of hope optimism and progress of neoliberalism were examined in Asia and America The second edition *Globalization Power Authority and Legitimacy in Late Modernity* analyses the new pessimism that has descended on the globalized world The America that was once the bastion of hope

optimism and progress is now showing clear signs of a superpower in decline The first sign of the American decline since 1941 in Pearl Harbor was the destruction of the World Trade Center in New York City on 11 September 2001 The other signs are the Vietnamization of Iraq a nuclear stand off with North Korea increasing trade imbalances with China and India a stalemate with terrorists in Afghanistan the challenge of European protectionism a belligerent politics in the Middle East overt American dependence on fossil fuels and the mushrooming of various subprime crises into an escalating global recession This second edition incorporates the latest developments in terms of culture wealth and terrorism around the world and provides possible solutions to salvage the American Dream *A Companion to Ronald Reagan* Andrew L.

Johns,2015-02-10 *A Companion to Ronald Reagan* evaluates in unprecedented detail the events policies politics and people of Reagan s administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan *Globalization, Wealth, and Power in the Twenty-first Century* W. Nester,2010-12-12 This book offers an in depth exploration of all dimensions of geoeconomics including the internal and international forces which explain why most countries remain mired in poverty the conflicts between the poor on the rich countries and the global environmental crises threatening the future of humanity

Understanding Globalization Robert K. Schaeffer,2003 This best selling text vividly shows how political and economic changes affect people s lives in different settings around the world Globalization the author argues is not completely new Instead the current wave of globalization builds on international institutions created just after World War II and was given new impetus by policies introduced in the 1970s and 80s The new edition has five new chapters as well as updates and changes throughout Visit our website for sample chapters *U.S. Trade Policy in the Era of Globalization* United States.

Congress. Senate. Committee on Finance,1999 *Through the Global Lens* Michael Strada,2021-04-14 *Through the Global Lens* uses a global perspective to analyze human affairs This text looks at each of the six social sciences sociology

anthropology political science economics psychology and geography and uses case studies feature film analyses maps and photos to highlight important historical events and concepts throughout *U.S. Foreign Policy* Donald M. Snow,Patrick J. Haney,2017-08-02 *U S Foreign Policy Back to the Water s Edge* is based on the old idea that despite domestic differences and party politics Americans should unite at the water s edge and present a cohesive front to a hostile world The fifth edition explores this theme through coverage of the Trump administration its early policies and how Trump s initiatives fit into the broader historical patterns of foreign policy in the United States More compact than most of its competitors the fifth edition packs necessary information and concepts into a lean but readable format It contains rich historical content providing the

reader with snapshots of some of the truly classic highlights and lowlights of America's record in foreign affairs. Written with the student reader in mind, each chapter offers several pedagogical aids designed to reinforce and extend comprehension of the material. This text is also accompanied by a companion reader, *Regional Cases in Foreign Policy*, Second Edition, written by Don Snow with the specific intention of providing material and perspectives not contained in the text. The reader contains fourteen mini cases that can accompany classroom discussions or lectures on subjects as diverse as relations with Russia, Israel, or the Islamic State; specific questions like the border fence with Mexico, U.S.-Cuban relations, or the British withdrawal from the European Union; Brexit; Case examples are drawn from all parts of the world. *National Geographic Almanac of American History*, John Thompson, James Miller, 2007. Uses images, maps, historic facts, and concise analysis to provide an in-depth resource on United States history. *Globalization and the American South*, James Charles Cobb, William Whitney Stueck, 2005. In 1955 the Fortune magazine list of America's largest corporations included just 18 with headquarters in the Southeast. By 2002 the number had grown to 123. In fact, the South attracted over half of the foreign businesses drawn to the United States in the 1990s. The eight original essays collected here consider this stunning dynamism in ways that help us see anew the region's place in that ever-accelerating transnational flow of people, capital, and technology known collectively as globalization. Moving between local and global perspectives, the essays discuss how once faraway places like Latin America, Asia, Africa, and the Indian Subcontinent are now having an impact on the South. One essay, for example, looks at a range of issues behind the explosive growth of North Carolina's Latino population, which grew by almost 400 percent during the 1990s, miles ahead of the national growth percentage of 61. In another essay we learn why BMW workers in Germany, frustrated with the migration of jobs to South Carolina, refer to the American South as "our Mexico." Showing that global forces are often on both sides of the match, reshaping the South but also adapting to and exploiting its peculiarities, many of the essays make the point that although the new ethnic food section at the local Winn-Dixie is one manifestation of globalization, so is the wide-ranging export of such originally southern phenomena as NASCAR and Kentucky Fried Chicken. If a single message emerges from the book, it is this: Beware of tidy accounts of worldwide integration. On one hand, globalization can play to southern shortcomings, think of the region's reputation as a source of cheap labor; on the other, the influx of new peoples, customs, and ideas is poised to alter forever the South's historic black-white racial divide. *The Globalization of World Politics*, John Baylis, Steve Smith, Patricia Owens, 2014. Working from a unique non-U.S. perspective, this market-leading text provides a coherent, accessible, and engaging introduction to the globalization of world politics. Now in its sixth edition, *The Globalization of World Politics* has been fully revised and updated in light of recent developments in world politics. **FEATURES** Presents contributions from an impressive line-up of international experts, each of whom provides accessible but stimulating insights into history, theory, structures, processes, and other key issues in the field. Offers a visually appealing, full-color interior. Provides a strong pedagogical program that includes numerous boxes, figures, tables, maps.

questions lively examples and case studies

Development in an Era of Neoliberal Globalization Henry

Veltmeyer, 2013-08-22 This book analyses the progress and failures of capitalist development against the backdrop of an increasingly globalised world economy organised on neoliberal principles It brings together eminent writers on the political economy of international development such as Kari Polanyi Levitt Norman Girvan Osvaldo Sunkel Paul Bowles Manfred Bienefeld and Walden Bellos to examine from a critical perspective the contemporary dynamics of a system in crisis issues of capitalist development and globalization within the neoliberal world order The essays written in tribute to Surendra Patel for his contribution to the field of development studies cover subjects including the financial crisis of 2008 the regional dynamics of neoliberal globalization democracy and development the political economy of natural resource extraction and the formation of a postneoliberal state oriented towards a new economic model Drawing on an analysis of the development process in the Caribbean Latin America Africa and the Philippines it considers the historical foundations that impact on economic growth and technological transformation and evaluates the relationship between capital and the state and the role of NGOs and social movements in the context of the debate on neoliberal globalization Development in an Era of Neoliberal Globalization will be of interest to students and scholars of international politics and economic development the political economy of globalisation the sociology and politics of development and developments in Latin America and the Caribbean

Rethinking American History in a Global Age Thomas Bender, 2002-05-14 In One eloquent essay after another some of the wisest historians of our time write American history in a grand cosmopolitan context From the era of discovery to the present histories that we thought we knew of labor of race relations of politics of gender relations of diplomacy of ethnicity are more richly understood when causes and consequences are traced throughout the globe One emerges invigorated ready to welcome a new American history for a new international century Linda K Kerber author of No Constitutional Right to Be Ladies Women and the Obligations of Citizenship Rethinking American History in a Global Age is an extremely stimulating and thought provoking collection of essays written by leading historians who offer wider contexts for illuminating the traditional themes and issues of American national history Particularly impressive is the book s combination of caution and original sometimes daring insights David Brion Davis author of In the Image of God Religion Moral Values and Our Heritage of Slavery For decades American historians have been urging one another to place our culture in comparative or transnational perspective Thomas Bender s unique volume includes not only essays theorizing such efforts and essays exemplifying such work at its most successful and its most provocative it also provides more skeptical assessments questioning whether American historians can meet the challenge of overcoming our longstanding national preoccupations Rethinking American History in a Global Age is an indispensable book that will shape the work of a rising generation of historians whose horizons will extend beyond our own shores James T Kloppenberg author of The Virtues of Liberalism

The Oxford Handbook of the Welfare State Daniel Béland, Kimberly J. Morgan, Herbert Obinger, Christopher

Pierson,2021-10-27 This is the comprehensively revised second edition of a volume that was welcomed at its first appearance as the most authoritative survey and critique of the welfare state yet published Its fifty one chapters have been written by acknowledged experts in the field from across Europe Australia and North America Some chapters are brand new all have been systematically revised and they are right up to date The first seven sections of the book cover the themes of Ethics History Approaches Inputs and Actors Policies Policy Outcomes and Worlds of Welfare A final chapter is devoted to the future of welfare and well being under the imperatives of climate change Every chapter is written in a way that is both comprehensive and succinct introducing the novice reader to the essentials of what is going on while providing new insights for the more experienced researcher Wherever appropriate the handbook brings the very latest empirical evidence to bear It is a book that is thoroughly comparative in every way The Oxford Handbook of the Welfare State second edition is a comprehensible and comprehensive survey of everything that it is important to know about the welfare state in these troubled times It is an indispensable source for everyone who wants to know what is really going on now and what is likely to happen next

The Paradox of Citizenship in American Politics Mehnaaz Momen,2017-08-28 This remarkable book does the unusual it embeds its focus in a larger complex operational space The migrant the refugee the citizen all emerge from that larger context The focus is not the usual detailed examination of the subject herself but that larger world of wars grabs contestations and importantly the claimers and resisters Saskia Sassen Professor of Sociology Columbia University USA This thought provoking book begins by looking at the incredible complexities of American identity and ends with the threats to civil liberties with the vast expansion of state power through technology A must read for anyone interested in the future of the promise and realities of citizenship in the modern global landscape Kevin R Johnson Dean UC Davis School of Law USA Momen focuses on the basic paradox that has long marked national identity the divide between liberal egalitarian self conception and persistent practices of exclusion and subordination The result is a thought provoking text that is sure to be of interest to scholars and students of the American experience Aziz Rana Professor of Law Cornell Law School USA This book is an exploration of American citizenship emphasizing the paradoxes that are contained normalized and strengthened by the gaps existing between proposed policies and real life practices in multiple arenas of a citizen s life The book considers the evolution of citizenship through the journey of the American nation and its identity its complexities of racial exclusion its transformations in response to domestic demands and geopolitical challenges its changing values captured in immigration policies and practices and finally its dynamics in terms of the shift in state power vis vis citizens While it aspires to analyze the meaning of citizenship in America from the multiple perspectives of history politics and policy it pays special attention to the critical junctures where rhetoric and reality clash allowing for the production of certain paradoxes that define citizenship rights and shape political discourse

The Koreas Charles K. Armstrong,2013-08-22 Presenting a succinct historically informed introduction to North and South Korea the second edition of *The Koreas* considers the radically different ways these

countries have dealt with the growing challenges of globalization. Since the first edition's publication, the economic, political, and social differences have only intensified, making evident the relevancy and importance of Armstrong's work in understanding the Koreas now and in the future. Ultimately, *The Koreas* is a crisp, engaging primer of Korea and the Korean people in the contemporary world. This book is ideal for many courses in a variety of disciplines, including politics, history, international business, and Asian studies.
