Globalization Culture And Inequality In Asia:

Globalization, Culture and Inequality in Asia Timothy J. Scrase, Todd Joseph Miles Holden, Scott Baum, 2003

Contemplating globalization from a sociological perspective it is without doubt that a major site for social political economic and cultural change in the new millennium lies in the Asian region The chapters in this book seek to describe and analyze a number of key aspects of social and cultural change wrought by globalization in the Asian region The underlying theme in the book is the multi dimensional way in which globalization in the form of ideas practices and technology have introduced social inequalities in specific contexts In particular the book examines how inequality has been reproduced challenged and theorized in Asia by the advent of globalizing culture Written by experienced and established scholars the study provides both theoretical explanation and discussion and analysis of empirical data from a range of social cultural and political economic perspectives and draws on studies from several countries in the region Ethical Consumption Tania Lewis, Emily Potter, 2013-01-11

A not so quiet revolution seems to be occurring in wealthy capitalist societies supermarkets selling guilt free Fairtrade products lifestyle TV gurus exhorting us to eat less buy local and go green neighbourhood action groups bent on swapping not shopping And this is happening not at the margins of society but at its heart in the shopping centres and homes of ordinary people Today we are seeing a mainstreaming of ethical concerns around consumption that reflects an increasing anxiety with and accompanying sense of responsibility for the risks and excesses of contemporary lifestyles in the global north This collection of essays provides a range of critical tools for understanding the turn towards responsible or conscience consumption and in the process interrogates the notion that we can shop our way to a more ethical sustainable future Written by leading international scholars from a variety of disciplinary backgrounds and drawing upon examples from across the globe Ethical Consumption makes a major contribution to the still fledgling field of ethical consumption studies This collection is a must read for anyone interested in the relationship between consumer culture and contemporary social life Women and Work in Indonesia Michele Ford, Lyn Parker, 2008-02-19

With chapters written by Indonesian scholars and based upon extensive fieldwork experience in Indonesia this is an important and fascinating examination of the meaning of work for women in modern Indonesia **medi@sia** T.J.M. Holden, Timothy J. Scrase, 2006-09-27 This new interdisciplinary book is the first comparative case based analysis of media panopoly in and out of Asia today Examining what the authors call the media tion equation the contributors demonstrate the multiple links between media society and culture and advance the claim that media is the key means through which Asians experience understand effect and are affected by the worlds containing them Exploring a relatively neglected principle in cultural studies that context counts medi@sia highlights how the experiences of those encountering media messages differ depending on social economic political and ideational conditions Balancing social cultural and media theory with empirical research the essays in this collection provide a better understanding of the complex relationship between media and people s practices values and behaviour in contemporary Asia

Port Privatisation James Reveley, Malcolm T. Tull, 2008-01-01 This book is an excellent reference on the state of port reform throughout the Asia Pacific region While there have been a number of articles in recent years on port reform in Australia China Hong Kong Korea and Singapore much of the Asia Pacific region has been overlooked This book not only rectifies this gap by providing much needed insight into the situation in India Japan Malaysia and New Zealand while also consolidating the work already completed elsewhere With the rise of Asia as the world s most important shipping and port market the editors are to be commended for bringing new voices to the discussion and developing a strong contribution to the port reform and port governance literature Mary R Brooks Dalhousie University Canada

Hegemony Richard Howson, Kylie Smith, 2008-05 The originality and depth of Gramsci s theory of hegemony is now evidenced in the wide ranging intellectual applications within a growing corpus of research and writings that include social political and cultural theory historical interpretation gender and globalization The reason that hegemony has been so widely and diversely adopted lies in the unique way that Gramsci formulated the problematics of structure superstructure coercion consensus materialism idealism and regression progression within the concept hegemony However in much of the contemporary literature the full complexity of hegemony is either obfuscated or ignored Hegemony through comprehensive and systematic analyses of Gramsci s formulation a picture of hegemony as a complex syncretism of these dichotomies In other words hegemony is presented as a concept that is as much about aspiration and progressive politico social relations as it is about regressive and dominative processes Thus the volume recognises and presents this complexity through a selection of contemporary theoretical as well as historico social investigations that mark a significantly innovative moment in the work on hegemony

Nationalism and Global Solidarities James Goodman, Paul James, 2006-11-29 Even in the face of neoliberal globalization nationalism remains a significant political force The leading contributors to this new volume explore the extent to which nationalism can be a foundation for alternative solidarities Against the axiom that with globalization all that is solid melts into air this anthology debates the extent to which different forms of solidarity remain viable from the solidarities of local political groups to the solidarities of nationalism internationalism and alternative globalisms Organized into three sections the book addresses the relationship between the contemporary formations of nationalism globalism and solidarity movements Part 1 offers a framework for understanding globalization and discusses the effect of globality on nationalism Part 2 addresses the logics of nationalisms in globalizing contexts respectively liberal nationalism left nationalism post colonial nationalism and revivals of nationalism Part 3 addresses issues of solidarity and integration in a world of nationalism and globalism asking how differing forms of connectivity may be emerging disrupting prevailing oppositions and relations focusing on social movements and solidarity Offering the first detailed study of the relationship between globalization and nationalism *Nationalism and Global Solidarities* will be of strong interest to students and scholars of politics sociology and international political economy

The Origins of Japanese Credentialism Ikuo Amano, 2011 In this English translation of a semi classic

study readers have the opportunity to explore the manner in which both credentialism and the various levels of the modern education system have developed in Japan Professor Ikuo Amano the author of extensive works on Japanese education and examination systems takes the reader through a detailed analysis of the process by which education and academic qualifications have become the crucial factors in determining social position Using Japan as a concrete example of an industrial society thoroughly permeated by credentialism Amano's book makes explicit the relationship between social selection and education and in so doing points the way to why credentialism has come to dominate industrial societies The book also includes a comparative consideration of the development of education qualification and selection mechanisms in both Japan and Europe Series Japanese Society *Widows of Japan* Debora Aoki, 2010 The author examines widowhood in Japanese society through an anthropological lens It discusses the history of the Japanese widow as compared her to her Chinese and Korean counterparts Gender roles the government's role particularly in respect to war widows religion and the changing face of widowhood today are also considered **International Migrants in Japan** Yoshitaka Ishikawa, 2015 Japan faces multiple challenges in an era of population decline Problems such as aging and a decreasing working age population are expected to increase in severity so tackling these challenges and examining the contributions that immigrants can make to society are vital for Japan's future What contributions do foreign residents make to Japan especially in the labor market How do national and local government policies effect the settlement and permanent residence of foreign nationals Are issues such as social mobility and quality of life of foreigners the fertility of foreign women and long term trends in naturalization important What support does Japan offer to immigrants As a new country of immigration the need to examine such questions is growing This book takes a geographical perspective in examining the necessity of immigration and how foreign residents are helping to alleviate the problem of population decline in contemporary Japan Over the last thirty years Japan has become a country of immigration again While the literature on migration to Japan is growing reliable data on the issue is still scarce Yoshitaka Ishikawa's edited volume is a major contribution to filling this void Overall the papers compiled in the book are a good introduction to the complex and multifaceted realities of newcomer migrants and shed light on some understudied quantitative and qualitative aspects of migration to Japan Pacific Affairs Vol 89 No 4 December 2016 Series Japanese Society Subject Sociology Japanese Studies Asian Studies Migration Studies Labor Studies The Boundaries of "the Japanese". Eiji Oguma, 2017 In this the parallel volume to *The Boundaries of the Japanese* Volume 1 Okinawa 1818 1972 2014 renowned historical sociologist Eiji Oguma further explores the fluctuating political geographical ethnic and sociocultural borders of Japan and the Japanese from the latter years of the Tokugawa shogunate to the mid 20th century Focus is placed first upon the northern island of Hokkaido with its indigenous Ainu inhabitants and then upon the mainstays of Japan's colonial empire Taiwan and Korea In continuing to elaborate his theme of inclusion and exclusion the author comprehensively recounts and analyzes the events actions campaigns and attitudes of both the rulers and the ruled as Japan

Land, Livelihood, the Economy and the Environment in Indonesia Anne Booth, Chris Manning, Thee Kian Wie, 2012 This volume of essays is intended to honour an exceptional indeed a unique scholar Joan Hardjono grew up in Sydney and graduated from Sydney University in the mid 1950s She majored in English and Geography and like most girls in those years who had managed to complete a tertiary degree she probably expected to embark on a career as a high school teacher in Australia But no doubt prompted by the spirit of adventure which she has kept throughout her long career she decided to go to Indonesia as a volunteer teacher The scheme which brought young Australian graduates to Indonesia at that time was pioneering it pre dated the US Peace Corps and several of the participants went on to distinguished academic careers On the boat from Australia to Indonesia she met a young Indonesian called Hardjono who after participating in the struggle against the Dutch in the late 1940s gained an engineering degree at the Institute of Technology in Bandung then as now Indonesia's leading tertiary institute for the study of engineering and technology Joan was posted to teach in Semarang the capital of the province of Central Java and family legend has it that Hardjono used a borrowed motor cycle to pay her frequent visits bringing with him Javanese delicacies as gifts Since the late 1980s Joan has been busy as a consultant to a number of bilateral and multilateral aid agencies She has retired as a university teacher but served for several years as an active member of the advisory board of a Bandung based research organization AKATIGA She has also served since its inception in early 2001 on both the Board of Trustees and the Advisory Board of the Jakarta based research group The SMERU Research Institute The editors are pleased that four chapters in this volume have been contributed by staff of these two institutions Joan continues to be an active member of the SMERU boards and in her advisory role she has always stressed that SMERU should focus on what it does best namely conducting solid research on the problems of poverty social protection and

unemployment rather than engaging in policy advocacy She worked very hard editing the institute's first international publication *Poverty and Social Protection in Indonesia* which was published by the Institute of Southeast Asian Studies in Singapore in 2011 Joan has often regretted the fact that so few Indonesian social scientists publish internationally and has assisted a number of scholars over the years to turn their research findings into publishable papers in English language outlets Like many Indonesians in her age group Joan has at times been disappointed that the country's macroeconomic progress over the last four decades has not yet achieved the elusive goal of a just and prosperous society To friends she can be at times very critical of the performance of politicians and senior bureaucrats both during the Suharto era and subsequently But she would be the last to deny that some progress has been made She continues to visit Australia on a regular basis but Bandung remains her home and she remains steadfast in her love for and commitment to the people of Indonesia

Gendered Inequalities in Asia Helle Rydstrom, 2010 Global processes with flows in money commodities and people have made it increasingly varied and blurred what it means to be a female or male in Asia today Socio economic and cultural patterns in Asia intersect with one another and in doing so they translate into power relations that create both possibilities and constraints for women and men By focusing on unequal access to political and religious power occupation and health facilities as well as different options when it comes to family life and sexuality the recognition of women and men are explored in this volume as manifestations of ideas about femininity and masculinity Readers will find insightful and enriching contributions that consider how gender relations in Asia and indeed the very meaning of gender itself are affected by neo liberalism globalization and economic growth security in all of its meanings multiculturalism race and class family life power and intergenerational support religious discourses and activism and by male norms in politics This title highlights the complex ways in which the positions of women and men are configured recognized and contested in a rapidly transforming region It offers a fresh multidisciplinary perspective on gender inequalities

Demographic Change and Inequality in Japan Sawako Shirahase, 2011 First published in Japanese in 2006 by University of Tokyo Press as Henkasuru shakai no fubyao dao Rethinking Displacement: Asia Pacific Perspectives Kuntala Lahiri-Dutt, 2016-04-08 This book responds to the need to explore the multitude of interconnected factors causing displacements that compel people to move within their homelands or traverse various borders in the contemporary world that is characterised by extensive and rapid movements of people It addresses this need by bringing together historical and contemporary accounts and critical examinations of the displaced by articulating the commonalities in their lived experiences It accomplishes the task of charting a new path in displacement studies by offering a number of studies from interdisciplinary and diverse methodological approaches comprising ethnographic and qualitative research and literary interpretations to emphasise that although the forms and conditions of mobility are highly divergent individual experiences of displacement and placelessness offer a critical challenge to the artificial categorisations of people's movements Each chapter adds insights into the different configurations of

displacement and placement and offers fresh interpretations of migration and dislocation in today's rapidly changing world. The contributors critically examine a variety of displacement processes and experiences in the context of war tourism, neoliberal policies of development and the impact of various agro-forestry policies. They focus on a range of countries enabling a thorough comparative analysis in terms of scope and range of examples and methods of analysis. This book makes an original contribution to the growing body of literature on displacement and will appeal to a wide readership including advanced undergraduates and graduate students and professors in disciplines such as human geography, development studies, sociology and anthropology, regional studies and comparative impact assessment.

Pop Culture and the Everyday in Japan Katsuya Minamida, Izumi Tsuji, 2012. In this study a group of young Japanese sociologists scrutinizes the sociological foundations of the ways in which the Japanese people produce and consume cultural commodities and live their everyday lives surrounded by these products.

Globalizing Japan Ross E. Mouer, 2015. The Japanese people are again struggling with their nation's insularity. The Meiji Restoration and the end of the Asia Pacific War gave way to concerted efforts to connect the country with the outside world. As the Japanese economy emerged from two decades of stagnant growth, there was wide consensus that the society was increasingly grappling with the problems shared globally and that both its economy and internal policy debates would benefit from being more fully engaged in discourses and research activity occurring outside its borders. This book considers the efforts of policy makers to reorient Japan to the outside world as the nation enters the second decade of the 21st century. It discusses the strategies being pursued by Japan's policy makers: enhancing the involvement of the Japanese in global networks, improving English language skills, hiring more foreign labor, lifting the stature of tertiary education on internationally recognized league tables, creating favorable images of a Japanese cultured society abroad. The book considers the changing geopolitical landscape and the social backdrop against which such policies are being introduced while also assessing the prospects that the Japanese will experience a third opening any time soon. Overall, the volume provides insight into some of the critical choices likely to shape Japan's interface with the outside world and the direction in which Japanese society moves during the next decade.

Beyond Fukushima Kōichi Hasegawa, 2015. It finally dawned on us: The government was unreliable. Politicians and bureaucrats were unreliable. The media was untrustworthy. The brutal reality hit us that we had to protect ourselves, otherwise bury our heads in the sand and give up altogether. Written in the immediate aftermath of the Great East Japan Earthquake and accident at the Fukushima Daiichi Nuclear Power Station of March 2011, Koichi Hasegawa presents a compelling account of the events of 3/11 against the backdrop of the history and geopolitics of the nuclear industry worldwide. He argues passionately for denuclearization and is highly critical of the Japanese Government in terms of its response to the Fukushima nuclear disaster. Back cover.
