## **Globalization And Human Rights:**

Civilising Globalisation David Kinley, 2009-08-13 Economic globalisation and universal human rights both have the aspiration and power to improve and enrich individuals and communities. However, their respective institutions, methods, practices, and goals differ, leading to both detrimental clashes and beneficial synergies. In this book, David Kinley analyses how human rights intersect with the trade and commercial dimensions of global economic relations, taking the view that while the global economy is a vitally important civilising instrument, it itself requires civilising according to human rights standards. Combining meticulous research with highly informed views and experiences, he outlines the intellectual policy and practical frameworks for ensuring that the global economy advances the ends of human rights, argues for better exploitation of the global economy's capacity to distribute as well as create wealth, and proposes mechanisms by which to minimise and manage the socially debilitating effects of its market failures and financial meltdowns.

**Globalization and Human Rights in the Developing World** Derrick M. Nault, Shawn L. England, 2011-07-12 Focusing on world regions where human rights abuses are the most serious, extensive, and sustained, this book fills a crucial gap in our knowledge of the difficulties and promise of promoting human rights in our global age.

**Globalization, Human Rights and Populism** Adebowale Akande, 2023-06-16 This book offers a comprehensive and multidisciplinary global overview of populism and human rights in the light of globalization. It examines why the dominant neo-liberal paradigm of the last decades resulted in major economic and social inequalities, which resulted in the surge of national populism led by the election success of right-wing parties, movements, and leaders across the world. It discusses, among other topics, the success of Brexit in Britain and the election success of Donald Trump and Marine Le Pen, and explains why there is a need for a dialogue on human rights and globalization in this era of populism. Further contributions analyze various important topics of the field, including cross-culturalism, globalization, human rights challenges and threats, diversity, curbing global corruption, sustainable development, populism, the decline of free speech, the new nationalism, internationalization, global regime of human rights, leadership theory, global management, competencies, gender, quality management, individualism, collectivism, and examples of new initiatives in global organizations. This makes the book a valuable and useful resource for students, researchers, and scholars of international relations, political science, sociology, political psychology, law, diplomatic studies, communication and media studies, economics, education, and management, as well as practitioners and policy makers interested in a better understanding of globalization, populism, and human rights.

*Globalization and Human Rights* Jesús Ballesteros, Encarnación Fernández Ruiz-Gálvez, Pedro Talavera, 2012-04-14 Globalisation turns out to be untenable because it does not guarantee minimum social equity, peace, and respect for the environment, and therefore does not guarantee the effective accomplishment of human rights. This book analyzes this issue and raises proposals for a new perspective. The first part describes the soft threats to human rights derived from the devaluation of the politics and the productive economy with regard to the finance. It entails the concealment

of the reality in the shape of exploitation as the tax havens and in the shape of marginalization of the persons with different abilities The second part include a study of hard threats to human rights and examines two cases of failed states Afghanistan and Somalia in which the violence has supplanted the politics and the economy In view of these situations it is necessary to rethink the force of classic *ius gentium* and the humanitarian right The third part presents the European Union as a legal and political space in which conditions of a worthy life are better defended by means of the Primacy of Practical Reason and Social State of Law and by the requirement of peace as the main rule of international relations
