golden age of typography *Dictionary of the Printing and Allied Industries* F.J.M. Wijnekus,E.F.P.H. Wijnekus,2013-10-22
The first edition of this dictionary compiled by F J M Wijnekus and published in 1967 was the result of years of systematic
collection and preparation of thousands of terms and expressions which were until then not to be found in any other
dictionary The material was correlated for use in his daily work and as the reputation of his private collection spread there
was an increasing demand for access to these findings Until 1967 there was no comprehensive multilingual dictionary on the
subject former publications were incomplete and out of date and lacked clear definition often leading to disastrous
misunderstandings Furthermore the subject of printing paper and ink technology had never been dealt with in dictionary
form in relation to other aspects of the graphic industry This new work prepared by F J M Wijnekus and his son has been
considerably up dated Much time has been devoted to checking the material against the most reliable and authoritative
sources The usefulness of the work has been further enhanced by the addition of Spanish and Italian to the original
languages of English French and German The first edition was received with much enthusiastic praise and this new
dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the widest sense
It is a reference work which should be in the hands of all those in any way connected with the printing industry paper
