Black, 2012-07-26 What can be gained from a dialogue between psychoanalysis and religion Freud described religion as the universal obsessional neurosis and uncompromisingly rejected it in favour of science Ever since there has been the assumption that psychoanalysts are hostile to religion Yet from the beginning individual analysts have questioned Freud's blanket rejection of religion In this book David Black brings together contributors from a wide range of schools and movements to discuss the issues They bring a fresh perspective to the subject of religion and psychoanalysis answering vital questions such as How do religious stories carry or distort psychological truth How do religions work psychologically What is the nature of religious experience Are there parallels between psychoanalysis and particular religious traditions Psychoanalysis and Religion in the 21st Century will be of great interest to psychoanalysts psychoanalytic therapists psychodynamic counsellors and anyone interested in the issues surrounding psychoanalysis religion theology and spirituality

A Theology of Love Richard Smoley, 2019-11-05 A spirituality based on love not fear Shares key inspiring teachings from A Course in Miracles as well as Hinduism Buddhism Gnosticism and the Sefer Yetzirah the oldest known Kabbalistic text Cites philosophical wisdom from Kant Blake Jung and Gurdjieff alongside cognitive science to reveal how the world is not difficult and flawed but our fear based mind sets lead us to see it that way Offers a path to help you regenerate from the fallen state and experience God as infinite love and light In the West theology has almost always meant Christian theology a hodgepodge of beliefs that are hard to make sense of Why for example should an all loving merciful God have gotten mad at the human race because someone ate a piece of fruit six thousand years ago And why would he send part of himself down to earth to be tortured to death These beliefs stated baldly are nonsensical Millions of people are realizing this and losing their faith The time has come to reenvision Christian theology without contradictory teachings laced with fear It is time for a theology of love and miracles Richard Smoley reframes Christian theology using logical consistent and easy to understand teachings of unconditional love and forgiveness He draws inspiration not only from the Bible but also from Hinduism Buddhism Gnosticism and from esoteric and mystical teachings such as A Course in Miracles and the Sefer Yetzirah the oldest known Kabbalistic text He explains how the fallen state of the human condition not one of sin but of oblivion leads us to experience the world as flawed and problematic not wholly evil but

not wholly good Citing philosophical wisdom from Kant Blake Jung and Gurdjieff alongside cognitive science Smoley reveals how it is not the world that is flawed but the way we see the world Sharing key teachings from A Course in Miracles he shows that our fear based mind sets often filled with anxiety suffering and shame lead us to feel separated from God when in fact we are all extensions of a God of infinite love and light Offering a path to help you regenerate from the fallen state and see the real spiritual world and loving God that lies behind it the author provides ways for each of us to craft our own self consistent theology He also lays out a vision for the future of spirituality a path for present day religion to transform into something higher and more universal

Inner Christianity Richard Smoley,2002-10-08 An eye opening introduction to the complex world of esoteric Christianity perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view unearthing insights from the whole of the Christian tradition orthodox and heretical famous and obscure The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine While traditional Christianity draws a timeline from Adam s Fall to the Day of Judgment the esoteric often sees time as folding in on itself bringing every point to the here and now While the Church fought bitterly over dogma the esoteric borrowed freely from other traditions Kabbalah astrology and alchemy in their search for metaphors of inner truth Rather than basing his book around exponents of esoteric doctrine scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian How can one attain direct spiritual experience What does the Fall really tell us about coming to terms with the world we live in Can we find salvation in everyday life How can we ascend spiritually through the various levels of existence What was Christ s true message to humankind From the Gospel of Thomas to A Course in Miracles from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more

Supernatural Richard Smoley, 2013-02-07 This gem like concise anthology provides thoughtful people with both an introduction to the paranormal and a reason to take a fresh look at it Nostradamus channeling Atlantis divination Most serious people consider such topics nonsense But look again Writing with intellectual verve and a deeply critical mind religious thinker Richard Smoley explores and reconsiders the supernatural in history and today We are often conditioned to think of the Judeo Christian tradition as the only valid historically accurate and rational spiritual philosophy Occultism magic and the esoteric are by contrast considered illegitimate delusional and lacking in intrinsic worth Supernatural challenges this prejudice revealing that Western occult traditions are richer and more historically impactful than most of us imagine The book reveals hidden diamonds and neglected ideas that characterize the magical tradition in the West For any reader at any level of experience who has ever been curious about an arcane subject from psychical powers to secret societies here is a book that gives a complete yet precise critical yet serious and always respectful account of topics from the unseen world Supernatural is a brilliant primer to the occult and magical traditions of the West Praise for RICHARD SMOLEY I have a standing rule I read anything Richard Smoley writes Larry Dossey M D Smoley is adept at unknotting the paradoxes of spiritual traditions and making new connections across centuries and languages Library Journal He is one of the liveliest most intrepid and most gifted explorers of the spiritual landscape writing today Ptolemy Tompkins author of Paradise Fever

How God Became God Richard M. Smoley, 2016-06-07 This epic thrilling journey through Bible scholarship and ancient religion shows how much of Scripture is historically false yet the ancient writings also resound with theologies that crisscrossed the primeval world and that direct us today toward a deep inner authentic experience of the truly sacred From a historical perspective the Bible is shockingly provably wrong a point supported by today's best archaeological and historical scholarship but not well understood by or communicated to the public Yet this emphatically does not mean that the Bible isn't in some very real measure true argues scholar of mysticism Richard Smoley Smoley reviews the most authoritative historical evidence to demonstrate that figures such as Moses Abraham and Jesus are not only unlikely to have existed but bear strong composite resemblances to other Near Eastern religious icons Likewise the geopolitical and military events of Scripture fail to mesh with the largely settled historical time line and social structures Smoley meticulously shows how our concepts of the Hebrew and Christian God including Christ himself are an assemblage of ideas that were altered argued over and edited until their canonization This process to a large degree gave

Western civilization its consensus view of God But these conclusions are not cause for nihilism or disbelief Rather beneath the metaphorical figures and mythical historicism of Scripture appears an extraordinary truly transcendent theology born from the most sacred and fully realized spiritual and human insights of the antique Eastern world Far from being untrue the Bible is remarkably extraordinarily true as it connects us to the sublime insights of our ancient ancestors and points to a unifying ethic behind many of the world s faiths **Christianity** George Heart,2005-07-04 Commentary on one of the numerous theses given in Gnosis volume 1 by Boris Mouravieff The book was sponsored and edited by Dr Fouad Ramez a disciple of B Mouravieff who taught the author and guided him on his path to know himself and find the WAY The thesis chosen is the famous formula of St Paul Faith Hope and Love summarises a vast program of evolution of human knowledge
