Thirty years ago Alvin Plantinga gave a lecture called Two Dozen or so Theistic Arguments which served as an underground inspiration for two generations of scholars and students. In it he proposed a number of novel and creative arguments for the existence of God which have yet to receive the attention they deserve. In Two Dozen or so Arguments for God each of Plantinga's original suggestions, many of which he only briefly sketched, is developed in detail by a wide variety of accomplished scholars. The authors look to metaphysics, epistemology, semantics, ethics, aesthetics, and beyond, finding evidence for God in almost every dimension of reality. Those arguments new to natural theology are more fully developed, and well-known arguments are given new life. Not only does this collection present ground-breaking research, but it lays the foundations for research projects for years to come.      **The Devil's Advocate versus God's Honest Truth** Necip Fikri Alican, 2025-02-27

The Devil's Advocate versus God's Honest Truth is a scholarly monograph exploring the rationality of religion, particularly the tenability of theism, through a dialectical analysis of plausible arguments for the existence of God versus reasonable grounds for suspicion. It offers a comprehensive and balanced coverage of the issues, inviting readers to reflect and ponder the subject in its full scope. The book thus makes up for the missing objectivity in an area that has long been dominated by sectarian scholarship and polarized beyond reconciliation.      Natural Theology William Paley, 2005

William Paley's classic brings depth to the history of intelligent design arguments. The contrivance of the eye, the ear, and numerous other anatomical features throughout the natural world are presented as arguments for God's presence and concern. While there are distinctive differences between Paley's argument and those used today by intelligent design theorists and creationists, it remains a fascinating glimpse of the nineteenth century's debate over the roles of religion and science.
