God And Realism Ashgate Philosophy Of Religion Series:

God and Realism Peter Byrne, 2017-07-05 Peter Byrne's study of God and realism offers a critical survey of issues surrounding the realist interpretation of theism and theology. Byrne presents a general argument for interpreting the intent of talk about God in a realist fashion and argues that judging the intent of theistic discourse should be the primary object of concern in the philosophy of religion. He considers a number of important ideas and thinkers supporting global anti-realism and finds them all wanting. After the refutation of global anti-realism, Byrne considers a number of important arguments in favour of the notion that there is something specific to talk about God which invites an anti-realist interpretation of it. Here he looks at verificationism, the writings of Don Cupitt, forms of radical feminist theory and the ideas of D. Z. Phillips. The book concludes with a discussion of whether theology as a discursive academic discipline can be interpreted realistically. Offering a comprehensive survey of the topic and of the leading literature in the field, this book presents key arguments for exploring issues brought to bear upon the realism debate. Students and scholars of philosophy of religion, philosophy of language, metaphysics, theory of knowledge and theology will find this an invaluable new contribution to the field. Pragmatic Philosophy of Religion Ulf Zackariasson, 2022-02-25 In *Pragmatic Philosophy of Religion: Melioristic Case Studies* Ulf Zackariasson argues for the fruitfulness of pragmatic philosophy of religion by bringing it to bear on a number of classical topics within the contemporary philosophy of religion. Zackariasson first outlines a version of pragmatic philosophy of religion that takes the pragmatic insistence on the primacy of practice to heart. Here he shows that religious traditions and their secular counterparts transmit a number of paradigmatic responses that adherents can draw on in their encounters with human life's existential contingencies. He further discusses the upshot of this approach for how we think of miracles, religious diversity and what it is to be religiously mistaken. In each case Zackariasson shows that a pragmatic approach offers important novel perspectives and insights that contemporary, primarily analytic, philosophy of religion tends to neglect. By relating to debates and well-known positions within the contemporary philosophy of religion, he also makes these novel perspectives and insights concrete for those who are not already committed pragmatists. The case studies thus serve as invitations to constructive dialogue within an increasingly pluralistic philosophy of religion. **Partakers of the Divine** Jacob Holsinger Sherman, 2014-04-01 An extended essay in contemplative philosophy, *The Meeting of Mystical and Philosophical Theology: Partakers of the Divine* shows that Christian philosophical and contemplative practices arose together and that throughout much of Christian history philosophy, theology and contemplation remained internal to one another. Further, the relation of philosophy, theology and contemplation to one another is of more than antiquarian interest for it provides theologians and philosophers of religion today with a way forward beyond many of the stalemates that have beset discussions about faith and reason, the role of religion in contemporary culture and the challenges of modernity and postmodernity. **God and the Nature of Time** Garrett J. DeWeese, 2017-03-02 Is God temporal in time or atemporal?

outside of time Garrett DeWeese begins with contemporary metaphysics and physics developing a causal account of dynamic time Drawing on biblical material as well as discussions of divine temporality in medieval and contemporary philosophical theology DeWeese concludes that God is temporal but not in physical time as we measure it Interacting with issues in the history of philosophy contemporary philosophy of science and philosophy of religion this book offers students a thorough introduction to the key issues and key figures in historical and contemporary work on the philosophy of time and time in theology *Philosophia Christi* ,2006 [The Doctrine of God in Reformed Orthodoxy, Karl Barth, and the Utrecht School](#) R.T. te Velde,2013-06-27 In The Doctrine of God Dolf te Velde examines the interaction of method and content in three historically important accounts of the doctrine of God Does the method of a systematic theology affect the belief content expressed by it Can substantial insights be detected that have a regulative function for the method of a doctrine of God This two way connection of method and content is investigated in three phases of Reformed theology The first seeks to discover inner dynamics of Reformed scholastic theology The second part treats Karl Barth s doctrine of God as a contrast model for scholasticism understood in the framework of Barth s theological method The third part offers a first published comprehensive description and analysis of the so called Utrecht School The closing chapter draws some lines for developing a Reformed doctrine of God in the 21st century *Religion and Morality* William J. Wainwright,2017-03-02 Religion and Morality addresses central issues arising from religion s relation to morality Part I offers a sympathetic but critical appraisal of the claim that features of morality provide evidence for the truth of religious belief Part II examines divine command theories objections to them and positive arguments in their support Part III explores tensions between human morality as ordinarily understood and religious requirements by discussing such issues as the conflict between Buddhist and Christian pacifism and requirements of justice whether virtue without a love of God is really a vice whether the God of the Abrahamic religions could require us to do something that seems clearly immoral and the ambiguous relations between religious mysticism and moral behavior Covering a broad range of topics this book draws on both historical and contemporary literature and explores afresh central issues of morality and religion offering new insights for students academics and the general reader interested in philosophy and religion *The Sense of Creation* Patrick Masterson,2016-03-03 What kind of experience might help to confirm and make sense of the puzzling belief in divine creation so central to the main monotheistic religions Anselm and Aquinas developed a philosophical understanding of Creation as an asymmetrical relationship between the world and God that is that the world is really related to God in a relationship of total dependence but God is in no way really related to or modified by this created world This idea of an asymmetrical relationship is the key concept unifying all aspects of this book which discusses the three main inter related questions in a philosophical discussion about God the question of meaning the question of existence and the question of co existence The book explores various ciphers of this asymmetrical relationship in our pre philosophical lived experience These are experiences such as that of the relationship

between our knowledge and what we know or our sense of obligation to our vulnerable neighbour It argues that deciphering such experiences helps to make sense of the asymmetrical relation of creation and that it in turn makes sense of them Masterson argues further that this idea of asymmetrical relationship provides insight into the main questions of philosophy of religion and is an illuminating source of critical dialogue with contemporary Anglo American and Phenomenological approaches in philosophy of religion **The Reformed Objection to Natural Theology** Michael Sudduth,2016-02-24

Michael Sudduth examines three prominent objections to natural theology that have emerged in the Reformed streams of the Protestant theological tradition objections from the immediacy of our knowledge of God the noetic effects of sin and the logic of theistic arguments Distinguishing between the project of natural theology and particular models of natural theology Sudduth argues that none of the main Reformed objections is successful as an objection to the project of natural theology itself One particular model of natural theology the dogmatic model is best suited to handle Reformed concerns over natural theology According to this model rational theistic arguments represent the reflective reconstruction of the natural knowledge of God by the Christian in the context of dogmatic theology Informed by both contemporary religious epistemology and the history of Protestant philosophical theology Sudduth's examination illuminates the complex nature of the project of natural theology and its place in the Reformed tradition **The British National Bibliography** Arthur James Wells,2006

Philosophical Foundations for a Christian Worldview J. P. Moreland,William Lane Craig,2017-10-10 This comprehensive and award winning orientation to Christian philosophical foundations is now updated and expanded in a second edition including enhanced arguments updated bibliographies and new chapters on atonement and the mind body problem This textbook from Moreland and Craig two leaders in the field is the keystone in any library of Christian philosophy **Analytic Theology and the Academic Study of Religion** William Wood,2021-01-28 Analytic theology can flourish in the secular academy and flourish as authentically Christian theology Analytic Theology and the Academic Study of Religion explains analytic theology to other theologians and scholars of religion while simultaneously explaining those other fields to analytic theologians William Wood defends analytic theology from some common criticisms but also argues that analytic theologians have much to learn from other forms of inquiry Analytic theology is a legitimate form of theology and a legitimate form of academic inquiry and it can be a valuable conversation partner within the wider religious studies academy Analytic Theology and the Academic Study of Religion articulates an attractive vision of analytic theology fosters a more fruitful interdisciplinary conversation and enables scholars across the religious studies academy to understand one another better

The Oxford Handbook of the Epistemology of Theology William J. Abraham,Frederick D. Aquino,2017-06-15 The Oxford Handbook of the Epistemology of Theology brings together leading scholars in the fields of theology and epistemology to examine and articulate what can be categorized as appropriate epistemic evaluation in theology Part one focuses on some of the epistemic concepts that have been traditionally employed in theology such as knowledge of God revelation and scripture

reason and faith experience and tradition This section also considers concepts that have not received sufficient epistemological attention in theology such as saints authority ecclesial practices spiritual formation and discernment Part two concentrates on epistemic concepts that have received significant attention in contemporary epistemology and can be related to theology such as understanding wisdom testimony virtue evidence foundationalism realism antirealism scepticism and disagreement Part three offers examples from key figures in the Christian tradition and investigates the relevant epistemological issues and insights in these writers as well as recognizing the challenges of connecting insights from contemporary epistemology with the subject of theology proper namely God Part four centres on five emerging areas that warrant further epistemological consideration liberation theology continental philosophy modern orthodox writers feminism and Pentecostalism This authoritative collection explores how the various topics figures and emerging conversations can be reconceived and addressed in light of recent developments in epistemology Each chapter provides an analysis of the crucial moves positions and debates while also identifying relevant epistemic considerations This handbook fulfils the need for the development of this new conversation that will take its natural place in the intersection of theology and epistemology It links the fields of theology and epistemology in robust meaningful and significant ways **Heythrop Journal** ,2004

materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice

Theology After Neo-Pragmatism Adonis Vidu, 2009-02-16 This book develops the thesis that Evangelical theology not only cannot afford to avoid engaging with the philosophy of neo pragmatism but it can also benefit from the proposals of some of its leading exponents especially Donald Davidson Three different themes run throughout the book meaning epistemic justification and ontology How can theologians be confident of the meanings ascribed to religious beliefs in the wake of the dissolution of the very concept of meaning and of the analytic synthetic distinction Is there any rational fraction between our beliefs religious or mundane and some extra linguistic reality Is God something more than simply a symbolic construct associated with a certain manner of speaking The surprising thought of Donald Davidson offers resources for Evangelical theology seeking hopeful answers to these troubling questions Davidson s rejection of the so called third dogma of empiricism namely the dualism of scheme of content should be welcomed by those defending theological rationality and refuting relativism and incommensurability Furthermore his truth conditional semantics can serve as a check against revisionist accounts of religious beliefs that flaunt the first person point of view of the religious believer herself These Davidsonian contributions to an Evangelical theology are however balanced by inherent inadequacies which require a theological supplement which is also a creative proposal calling for the continued significance of experience in theology beyond the myth of the Given an understanding of the role of Scripture as both epistemic as well as dispositional and finally an understanding of the nature of truth as located in the mind of God

Theology After Neo Pragmatism is both an introduction to an influential philosophical trend and a critical and constructive theological proposal which is at once scriptural and historicist pragmatic and realist
