

THE PROFIT IN THE HOLY SCRIPTURES

DATE: 4/12/2006 Wed. Bible Study

TEXT: II Timothy 2:15; 3:14-17

INTRODUCTION:

We have been investigating the Word of God for the past four weeks.

⇒ We have encountered the truth that the Word of God is a divine revelation of God's Person and Character.

⇒ We have been reminded that the Word of God was divinely inspired in the beginning and that it has been supernaturally preserved down to this very day.

⇒ We have discovered the purpose for which the Bible was given to man.

It was given so that lost sinners might come to know God in a personal relationship.

I hope that you have a deeper understanding of how your Bible came to be and that your love for this book is greater than it has ever been.

As we finish our time in this series, I would like to examine the benefits that come from a close relationship with the Word of God.

We are told in **II Timothy 3:16** that the infallible, inerrant and inspired words of God are "*profitable*".

This word means "*beneficial, useful, and full of profit*".

I would like to zero in on that aspect of the Word of God and preach for a few minutes on *The Profit In The Holy Scriptures*.

God And The Profits A Study Of Christianity And Business:

God and the Profits Derrick G. Hanson, 1998-01-01 A review of Christian teaching in relation to the world of business this book encompasses the earliest days of economic trade through to the present day with its giant multinational corporations Handbook of Research on Entrepreneurial Leadership and Competitive Strategy in Family Business Saiz-Álvarez, José Manuel, Palma-Ruiz, Jesús Manuel, 2019-04-15 This reference book is an IGI Global Core Reference for 2019 as it provides trending research on family businesses With the recent boom in entrepreneurship and the maker market this publication will provide the timeliest research outlining how family businesses can enhance their business practices to ensure sustainability The Handbook of Research on Entrepreneurial Leadership and Competitive Strategy in Family Business is a collection of innovative research on business and leadership strategies that can be applied to family firms in order to boost efficiency competitiveness and optimal use of resource allocation to compete internationally While highlighting topics including global leadership knowledge creation and market performance this book is ideally designed for business managers management professionals executives researchers academicians and students seeking current research on the entrepreneurship role of family businesses in the modern economic age *An Investigation Into Christian SME Owner-Managers' Conceptualisations of Practice* Andrea Werner, 2008 This study investigates how Christianity impacts on the way owner managers of small to medium sized enterprises SMEs conceptualise their worlds of business practice The context for the research is the more general issue of how civil society and its institutions influence economic activity and how they might provide a counterbalance to the potentially negative impacts of unrestrained self interested economic behaviour The study is based on qualitative interviews with SME owner managers in Germany and the U K who regard themselves as practising Christians Using a socio psychological approach the data analysis yielded a range of linguistic and conceptual resources that are peculiar to Christian discourse and that have the potential to influence business activity in rather distinctive ways This book outlines the effects that these Christian resources can have on these owner managers and how they may be linked to specific business practices Attention is drawn to the fact that Christian conceptual resources can be interpreted and exploited in different ways which leads to differences in how Christian owner managers apply their faith to their business Furthermore the study maps out the often interacting influence of other discursive contexts and resources The specific influence of the SME context will be discussed and some differences with regards to the two national contexts in which the research was conducted will be highlighted The book also addresses how the socio psychological approach that was chosen for this study may be used for investigations into the impact of other civil society contexts Religion and Organization Theory Paul Tracey, Nelson Phillips, Michael Lounsbury, 2014-04-02 Despite the profound influence that religious organizations exert religion occupies a curiously marginal place in organization theory This volume aims to make available in one place existing knowledge on religion and organizations encouraging more organization theorists to include religion as

part of their research activities and agenda Christianity and Market Regulation Daniel A. Crane, Samuel Gregg, 2021-07-08 Historically the Christian tradition has played an influential role in Western economic thought concerning the regulation of markets but with the fracturing of the Christian tradition following the Reformation the decline of Christian influence in academia and the increasing specialization of economic analysis that influence has become increasingly opaque This volume brings together an interdisciplinary team of prominent academic experts on market regulation from four different continents and various faith traditions to reconsider the impact of Christianity on market regulation Drawing on law economics history theology philosophy and political theory the authors consider both general questions of market regulation and particular regulatory fields such as bankruptcy corporate law and antitrust from a Christian perspective **The Sociology of Religion** George Lundskow, 2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow s approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today *The British National Bibliography* Arthur James Wells, 2001 **Research Anthology on Strategies for Maintaining Successful Family Firms** Management Association, Information Resources, 2021-08-27 Family owned businesses account for many of the small and medium sized enterprises that exist around the world in various industries Due to their unique make up these firms are often heavily influenced by family dynamics that must be reconciled by family and non family workers alike in order to ensure the sustainability of the business As smaller businesses competing against an increasingly globalized economy and more directly impacted by economic instability especially in the wake of the COVID 19 pandemic these businesses must continue to improve their practices and processes in order to not only survive but thrive The Research Anthology on Strategies for Maintaining Successful Family Firms discusses the strategies sustainability and human aspects of family firms

in order to understand what sets them apart from other businesses and how they can survive and compete in a globalized economy This book discusses the unique dynamic brought by family firms that offers both opportunities and challenges for a growing business Covering topics such as corporate venturing the family unit and business ethics this text is an essential resource for family firms entrepreneurs managers business students business professors researchers and academicians

Baptizing Business Bradley C. Smith, 2020 Historically confined to the disadvantaged ranks of the stratification system evangelical Christians have increasingly joined the corporate elite eliciting concern from some and sanguinity from others Quantitative studies of the effects of religion on executive behavior have thus far shown mixed and inconclusive effects and those few qualitative analyses that have focused on evangelical business leaders have generally emphasized conflict between religion and business but failed adequately to explore areas of consonance While evangelical executives do in fact experience conflict associated with their professional contexts this tension arises not because business and religion are inherently opposed as some have argued but because evangelical business leaders are made to feel like second class citizens by members of their own faith communities Indeed in cases of apparent conflict between faith and business evangelical executives insist that it is faith not business that must be

reconceived Equipped with an array of strategies for demonstrating that business is a sacred institution and a worthy occupation evangelical business leaders hope to restore faith in business as they apply their faith in business In these evangelical executives and their accounts the spirit of capitalism defined by Max Weber as a positive attitude toward both work and wealth finds ongoing embrace and new expression with implications for understanding the so called faith at work movement evangelicalism and the role of religion among elites **The Christian Advocate** ,1928 **National Catholic Welfare Council Bulletin** ,1930 **Original Christian Ethics Today** David W. T. Brattston,2019-11-12 This book is a collection drawn from over three hundred and ninety of my magazine and website articles synthesizing early and modern Christianity extracted from writings by or about Christians who flourished prior to the Decian Persecution and mass apostasy of AD 249 251 The subject matter is New Testament and other Christian statements on ethics before AD 250 and their applicability to the twenty first century Some of these articles have been published more than once by more than one Christian communion and in more than one country They vary in length from a few hundred words to over four thousand This book does not discuss moral theories or frameworks but presents concrete practice of specific principles commandments and prohibitions The Christian Century ,1915 Handbook of Research on Teaching Ethics in Business and Management Education Wankel, Charles,Stachowicz-Stanusch, Agata,2011-12-31 This book is an examination of the inattention of business schools to moral education addressing lessons learned from the most recent business corruption scandals and financial crises and also questioning what we re teaching now and what should be considering in educating future business leaders to cope with the challenges of leading with integrity in the global environment Provided by publisher *Bible Studies from the Old and New Testaments* George Frederick Pentecost,1887 **The Expositor and Current Anecdotes** ,1913 *The Christian Union* ,1889
