Anne Frey, 2008-01-23 This study explored the relationship between dreams discernment and spiritual intelligence It focused on the experience of people who use dreams to help them with spiritual discernment or decision making in a spiritual context A case study methodology included questionnaires personal dream records and interviews to understand the seven participants experiences of exploring their dreams for guidance Participants were self selected by answering an ad seeking people whose dreams had helped them to make a decision who journaled their dreams and who consider themselves to be spiritual Most participants reported being drawn to dreamwork by a significant life experience While participants shared different perceptions as to what discernment consists of each participant reported that dreams helped them to grow spiritually A number of outcomes were exemplified falling into two main groupings a the use of discernment in order to understand a dream whether or not they ended up reaching a resolution or making a decision about the dream and b the use of dreams as part of a discernment process whether or not the dreams helped them to resolve their discernment issue or make a decision The intensity of emotion attached to an issue seemed for some to render it more difficult to arrive at particular decisions For others dreams seemed to ease the burden of discernment or decision making by raising their degree of confidence towards their resolution or decision Deepening appreciation of and growing desire for living spiritually and learning more about spirituality were indicators of a developing spiritual intelligence For most spiritual growth occurred through knowledge or learning gained from their dreams For some their belief about God's role in their life impacted their experience of the Divine in their dreams Finally the study showed that individuals are not always aware of what had helped them suggesting a subconscious process at work in both discernment and decision making The study affirmed a triadic link between dreams discernment and spiritual intelligence among people involved in spiritual dreamwork It demonstrated ways by which the discernment process can build confidence in people who are turning to their dreams for guidance in a spiritual context

Medieval Structure of Spirituality Roger Haight, Alfred Pach, Amanda Avila Kaminski, 2022-06-07 If Thomas Aquinas was born in 1225 as is commonly thought then he died before reaching the age of fifty after producing the single most influential systematic theology of the Western Christian tradition He did this with a formula He internalized the thought of Aristotle as it was being introduced into western Europe and translated into Latin and he in turn translated Christianity into this Aristotelian language One can use the principles of hermeneutics outlined in Retrieving the Spiritual Teaching of Jesus of this series to analyze what was going on as Aquinas went through some of the basic doctrines of the Church in his Summa Theologiae He laid out their contents by answering an exhaustive series of questions and responding to each of them in intricate detail The model for each question and answer was drawn directly from the pattern of learning at the University of Paris Although systematic and abstract it also enabled an extensive conversation with the tradition of classical theologians and his own contemporaries This may seem quite distant from spiritual life on the ground but the method produced a clear understanding of the structure of spiritual life in terms of its goal and the means of attaining it Aquinas s analysis of grace how it enabled genuine Christian spirituality empowered the virtues and led to eternal life constitutes a classic substructure of Western Christian spirituality that became all the more distinctive when Reformation spiritualities offered alternatives to it
