Alexandrian patriarch deals with the text at the literal level At this stage he explains any historical cultural and at times even linguistic and textual issues presented within the passage which is then followed by some theological instruction or lessons of a more practical nature based upon the literal interpretation The exposition then moves on to the *theoria* This is Cyril s preferred term for the contemplation of the spiritual sense that is to say the mystery of Christ which he firmly held lay hidden beneath the surface of the Old Testament text With great adeptness and consistency Cyril identifies elements within the ancient narratives as figures or types and shadows of the Lord Jesus Christ the Church and the teachings of the gospel
