Economic Transition In Hunan And Southern China:

Economic Transition in Hunan and Southern China A. S. Bhalla, 1984-06-18 Uneven Development in the Third World A. Bhalla, 1996-11-26 The book defines uneven development in terms of development strategies and their outcomes Drawing on case studies from China and India three types of strategy are discussed heavy industrialisation sectoral regional balance and economic liberalisation Also three kinds of outcomes are examined growth of output and productivity income consumption and class inequalities in three spatial dimensions intra regional inter regional and rural urban Furthermore access to and utilisation of technology health and educational services are compared **Economic Policy Transmission During China's Transition** Carsten Holz, 1995 The China Handbook Christopher Hudson, 2014-06-03 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century Like the other titles in the series the China Handbook explores a wide range of complex factors including overviews of the region s economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region s economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition this resource offers a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index **The Employment Impact of China's WTO Accession** A. S. Bhalla, Shufang Qiu, S. Qiu, 2003-11-20 The book explores the macroeconomic and sectoral employment implications in agriculture industry and services of China s World Trade Organisation accession It argues that while short run employment losses may occur in the longer term China will be able to generate additional employment particularly in the tertiary sectors and that it can maintain its comparative advantage in labour intensive exports by relocating production from high cost coastal areas to the hinterland with abundant supply of cheap labour It also argues that although China is likely to benefit in the long run in the short and medium term China is likely to face enormous problems including increased unemployment as weaker links cease to be protected by tariffs and the problem of restructuring state owned enterprises **Poverty and Exclusion of Minorities in China and India** A. Bhalla, D. Luo, 2012-11-14 Muslim minorities in China and India form only a small fraction of their respective populations yet as they principally live in troubled border states they are of key strategic importance in the war on terror In this global context this book explores whether economics is more important than the suppression of rights in explaining social unrest **Poverty and Exclusion of Minorities in China and India** A.S. Bhalla, Dan Luo, 2017-10-04 This book a second edition includes new data from the 2010 Census of India and NSS reports on consumer expenditure 2011 12 health and education 2014 to examine poverty in China and India and how it connects with minorities Poverty has generally become less acute in both China and India thanks to an impressively rapid growth especially

between 2010 and 2015 when the rest of the world including the US and the EU slowed down following the economic recession of 2008 But the issues of income and non income inequalities especially malnutrition in India marginalization and social exclusion remain as acute as ever in both countries As well as the use of new primary material in every chapter the book also critically examines new relevant studies and responds to global perspectives on minority issues It canvasses a broad range of subjects from global terrorism and civil wars in Libya and Syria to the Arab Spring and the emergence of Islamic fundamentalism and the Islamic State ISIS

Central Control and Local Discretion in China Chae-ho Chŏng,2000 This book analyses the decollectivization reform in China during the early 1980s in order to gauge the impact of post Mao decentralization on central control and provincial discretion The volume challenges the notion that the decision to decentralize administrative authority ipso facto produces local discretion properly keyed to local conditions In fact outcomes often differ from the intended goals While generally local interests and central local clientilistic networks determine the policy responses of the provinces bureaucratic careerism also plays a crucial role In the case of post Mao decollectivization national level analyses suggest that a majority of provinces adopted household farming neither too quickly nor too slowly since both pioneering and resisting entailed potentially enormous political risks Once Beijing s preference appeared firmly fixed however they all quickly bandwagoned by popularizing the policy as swiftly as possible Three detailed case studies of Anhui as a pioneer Shandong as a bandwagoner and Heilongjiang as a resister further highlight the evolutionary process in which provincial variations came to be replaced by uniform compliance imposed by Beijing Theoretically this study contends that the overall scope of local discretion is circumscribed by the dominant norms and incentive relations embedded in the implementation dynamics Methodologically the book employs a combination of aggregate analyses and comparative case studies Empirically on the basis of newly available materials including classified documents and interviews it challenges the peasant power school which has somehow allowed local governments to evaporate in its descriptions of post Mao decollectivization

Poverty and Exclusion in a Global World A. Bhalla,F. Lapeyre,2004-04-30 This volume looks at the three dimensions of social exclusion economic social and political Exclusion is analyzed as a new approach to such issues as the new poverty precariousness long term unemployment social polarization and lack of citizenship The book shows how relational and distributional aspects of poverty are interlinked

Poverty and Inequality among Chinese Minorities Ajit S. Bhalla,Shufang Qiu,2024-11-01 The number of poor people in China is huge despite recent economic advances The minorities in China constitute less than ten per cent of the entire population yet they represent forty to fifty per cent of the absolute poor This compelling book investigates the problem of poverty and inequality in and among Chinese ethnic minorities focusing in particular on two important questions Have the minorities shared the fruits of spectacular economic growth in China during the past two decades Is their backwardness due to ethnic and cultural factors or to extremely low incomes The authors examine the different factors explaining poverty the relationship between poverty and ethnicity poverty indicators

that permit a comparison between minorities and non minorities or the Han majority economic and demographic characteristics of minorities and their educational occupational and gender profiles They consider whether special measures in favour of minorities introduced by the Chinese government have contributed to an improvement in their standard of living Poverty and Inequality among Chinese Minorities gives original research findings and new thinking on a highly topical issue in Chinese development economics and fills a gap in the existing economic literature

National and Global Responses to the COVID-19 Pandemic A.S. Bhalla,2023-08-01 This book traces the evolution of Covid across different geographic regions showing how the varying responses of leaders citizens and other key stakeholders in efforts to tackle the Covid crisis determined outcomes It finds that leadership in particular played a critical role while initial conditions such as health care spending and infrastructure are important factors contributing to a country s preparedness in coping with a pandemic

Poverty and Exclusion in a Global World A.S. Bhalla,Frédéric Lapeyre,2016-07-27 In Western Europe the notion of social exclusion is rapidly diffusing in recent years This book investigates the notion of social exclusion as a new way to approach social issues such as the new poverty long term unemployment precariousness social polarization and disintegration Particular attention is paid to both the global relevance of an approach in terms of social exclusion and its value compared to more conventional approaches in terms of poverty of deprivation It is shown that social exclusion goes beyond these by explicitly embracing the relational as well as the distributional aspects of poverty and emphasizing processes In this book the authors explore the specific forms of social exclusion in the ongoing processes of globalization deregulation crisis of the welfare state and rise of individualism

Regional Blocs A.S. Bhalla,2016-07-27 A topical study of regional arrangements covering ASEAN SAARC and APEC in Asia NAFTA and MERCOSUR in the Americas SADC SACU and ECOWAS in Africa and the European Union EFTA and Eastern Europe The book argues that foreign direct investment is complementary to trade and most regional arrangements can create trade and induce growth so long as they remain open and non discriminatory But they could also become stumbling blocks to globalization The book demonstrates how US and EU trade policy will be crucial in shaping the world economy

Asia's Trouble Spots A. S. Bhalla,2019-08-06 The art of successful negotiations over protracted conflicts presupposes a political commitment to peace and a willingness to compromise which are sorely lacking in the current disorderly world Part of the blame for this lies in weak and ineffective national and global leadership This book s sharp focus on the role of leadership at different levels national government rebel and Western regional government mediators as well as that of the UN and non governmental players in settling intra state disputes is a unique feature which sets it apart from others Much of the existing literature does not adequately discuss the role of the above actors in developing countries Asia s Trouble Spots is a serious attempt to fill this gap The seven country studies in Asia Myanmar Indonesia Philippines Thailand Sri Lanka India and China discuss inter alia how peace negotiations between national political and rebel leaders have unfolded The role of state sponsored cross border terrorists and non state

spoilers such as Al Qaeda and ISIS is addressed in the context of geopolitical rivalry among regional and global powers A S Bhalla challenges the view that Western leaders can act as impartial mediators in intra state and inter state disputes With few exceptions their record has been dismal at best Their failure in conflict resolution arises from a loss of moral authority and credibility which follows the gradual erosion over the years of such liberal values as the rule of law and respect for democracy and human rights Commercial and strategic self interests have also tended to undermine peacebuilding efforts

Globalization, Growth and Marginalization A.S. Bhalla, 1998-09-12 Globalization is defined in economic terms to mean freer flows of trade foreign direct investment and finance and liberalization of trade and investment policies Impacts of globalization and information technology are examined in terms of growth and productivity poverty and income distribution and employment Experiences of Africa East and Southeast Asia South Asia and Latin America in the era of globalization are discussed It is argued that benefits of freer trade and capital flows need to be managed carefully in order to minimise the costs and maximise gains The Journal of Asian Studies ,1985 An essential resource for those interested in Asia

Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section Social and Economic Stimulating
